14TH YEAR. NO. 74.

EAST LIVERPOOL, O., SATURDAY, SEPT. 3, 1898.

TWO CENTS

DEFENDER OF ALGER.

Wheeler Condemns Attacks on Conduct of Affairs.

SOLDIERS ARE NOT COMPLAINING.

People, He Says, Come to Camp Wikoff Expecting to Find Things in Bad Shape, but See Differently—Montauk Point a Good Place.

CAMP WIKOFF, MONTAUK POINT, L. I., Sept. 3.—Major General Joseph Wheeler gave a statement to The Associated Press yesterday, dated Sept. 1, giving a sample of the letters they were constantly receiving regarding the soldiers in the camp, the letter saying in part:

"In regard to my stepson, we feel very uneasy about him on account of the newspaper reports of the privation and suffering inflicted on the private soldiers. Although he has never uttered a complaint since he has been in the army, we hear from other sources of the cruel and horrible treatment inflicted on our soldiers under the pretense of humanity for our neighbors and the whole country is in a state of terrible excitement. I should not be surprised if the feeling should lead to a revolution of some kind, for I assure you I hear on all sides the most violent and bitter denunciations of the war department and the administration."

General Wheeler then said in part: "It will be seen that this letter says that not a word of complaint has been received from this soldier, and, so far as my investigation goes, no complaint has been made by any of the brave soldiers that have added glory to our arms in the Cuban campaign. A great many anxious fathers, mothers, brothers or sisters arrive here from all parts of the United States to look after their relatives whom, they say the papers tell them, are suffering, and many of them have heard that their relatives are in a condition of starvation. They are surprised when they come here to find their relations surrounded with everything to eat which can be procured by money, and, if sick in the hospital, they are gratified and surprised to find that they are given every possible care."

He said that every officer and soldier who went to Cuba regarded that he was given a great and special privilege in being permitted to engage in that campaign. They knew they were to encounter yellow fever and other diseases, the torrid heat of the country; that it was impossible for them to have the advantage of wagon transportation, would have to carry their blankets and their rations on their backs, and to be subjected, without any shelter, to the sun and rains by day and the heavy dews by night. They certainly knew that the Spaniards had spent years in erecting defenses and it was their pleasure to assault and their duty to capture the Spanish works.

They went there and did their duty. The brave men who won the victories did not complain of the neglect of the government. They realized that in the hurried organization of an expedition by a government which had no one with any experience in such matters, it was impossible to have everything arranged to perfection; and they would testify that under the circumstances the conditions were much more perfect than anyone would have reason to expect and that the president and secretary of war and others deserve high commendation.

One reason, he said, why the army was lacking in some respects in equipment was that a telegram was received from Admiral Sampson stating that if the army reached there immediately they could take the city at once, but if there should be delay, the fortifications of the Spaniards would be so perfected that there might be great difficulty in taking it. The army was directed to move at once.

At that time it was regarded as unsafe for a merchant ship to sail to Santiago, but as soon as the Spanish fleet was destroyed the generous people of the United States subscribed money and dispatched ship after ship loaded with luxuries and delicacies for the Santiago army, and everything that could be accomplished for their comfort was done by the president and secretary of war.

Then General Wheeler further said in part:

"After the surrender had been completed and arrangements perfected for transporting the Spanish army to Spain the president and secretary of war sent shipping to Santiago and transported our army to one of the most healthful localities in the United States. The point selected by the secretary of war was so situated that thorough protection was given the people of the United States from the danger of yellow fever contagion. The soldiers, upon their arrival at this place, received every care and bounty which could be procured by money. The president and secretary of war directed that their health and comfort should be cared for without reference to expense, and in addition, the people within a circle of 100 miles vied with each other in shipping to them carloads and steamboat loads of luxuries of all kinds.

"There is no doubt that there have been individual cases of suffering and possibly neglect among the soldiers, not only in Cuba, but since their arrival at this place. Nearly 20,000 men were brought from a yellow fever district to

the United States. It would have been criminal to have landed them and allowed them to go promiscuously among the people.

"Everyone will realize that to land 18,000 men and put them on bare fields without any buildings whatever could not be done without some hardships.

"Over 5,000 very sick men have been received in the general hospital and as many more sick have been cared for in the camps, and yet only about 60 deaths have occurred in these hospitals.

"Tents had to be erected and hospitals constructed and preparations to supply those 18,000 men with whole some water, food, medicines, physicians, nurses, cooks, hospital furniture, wagons, ambulances and the other needs essential to caring for 18,000 men, fully half of whom are very sick or in a feeble physical condition."

Auxiliary Cruisers Returned.

PHILADELPHIA, Sept. 3.—The auxiliary cruisers St. Paul and St. Louis yesterday at Cramps' shipyard were returned to the International Navigation company by the government.

STUDEBAKER'S TIGERS.

One Hundred and Fifty-Seventh Indiana Reached Home in Bad Shape—Studebaker Scored Florida Camps.

INDIANAPOLIS, Sept. 3.—Colonel Studebaker's "tigers," the One Hundred and Fifty-seventh Indiana volunteers, reached Indianapolis from the south yesterday morning.

Colonel Studebaker said in part: "This is not the same regiment I took away from Indianapolis last May. The personality is the same, but it is made up of a different set of men. They have fever in their very bones; they are hungry and their strength is wasted. It is all due to the cesspools in which we lived in the south. When the men left Indianapolis they were strong and showed their hardness. They were all right when we left Chickamauga Park. "I charge the condition of my men to Port Tampa and to the conditions surrounding it. When we moved we did not better our condition much. The fevers followed us, and day by day the regiment became weaker. At Fernandina we had the same difficulty to obtain proper food. The United States authorities seemed willing enough to provide us with what we needed, but Fernandina is such an out of the way place that it is difficult to reach it. One railroad runs to the town.

"When men who have been investigating the condition of the Florida camps say we have not been in actual need of food and medical assistance, they do not know what they are talking about. My men cannot march in straight lines on account of their weakness. They cannot carry their rifles at the right position. They cannot march any distance without many of them having to drop out of the ranks to rest. I think that our coming home has saved the lives of hundreds in the regiment."

WINNIE DAVIS WORSE.

Daughter of the Late Ex-Confederate President Very Low.

NARRAGANSETT PIER, Sept. 3.—Miss Winnie Davis, the daughter of Jefferson Davis, the late ex-Confederate president, who is ill with gastritis here, experienced a change for the worst yesterday. Her condition was considered critical.

MISS WINNIE DAVIS.

Dr. Holland on Filtration.

SARATOGA, Sept. 3.—The American Social Science association elected these officers, among others, yesterday: President, Simeon E. Baldwin, New Haven; department chairman on health, William H. Daly, Pittsburg. Yesterday Dr. W. J. Holland, chancellor of the Western University of Pennsylvania, Pittsburg, spoke on "The Purification of Municipal Water Supplies by Filtration."

Clay Charges Desertion.

RICHMOND, Ky., Sept. 3.—The petition for divorce filed by General Cassius M. Clay to secure a legal separation from his girl wife, Dora Richardson Clay, recites that "the defendant did, without fault on the part of the plaintiff, abandon him on July 3, 1898, and has since lived separate and apart from him." General Clay declares the girl will never want so long as he lives.

President of Mormon Church Dead.

SALT LAKE CITY, Sept. 3.—A private telegram from George Q. Cannon, from San Francisco, announced the death of the president of the Mormon church, Wilford Woodruff. Mr. Woodruff died yesterday morning. He had been troubled with kidney complaint for some time.

PRESIDENT AT WIKOFF

He and Alger Visited the Camp Today.

EIGHTEEN MORE REPORTED DEAD.

One Was Frank Hagerman, and Another Was A. B. Clay of the Eighth Ohio Regiment—Chicago Mother Found Her Boy Sick—More Transports Arrived.

CAMP WIKOFF, Sept. 3.—President McKinley and Secretary Alger visited Camp Wikoff today.

With them were Vice President Hobart, Colonel Myron T. Herrick of Cleveland, Webb C. Hayes, J. Addison Porter, secretary to the president; Assistant Secretary Cortelyou, William McKinley Barber, the president's nephew, Commissary General Egan, Senator Proctor and others.

The president will spend Sunday with Vice President Hobart. Mrs. McKinley and Mrs. Hobart, who did not come to Camp Wikoff, will leave for Paterson today.

The deaths in the general hospital yesterday were: Edwin Eugene Casey, troop clerk, rough riders; Abraham Robertson, Company D, Fourth regiment infantry; Frank Hagerman, Company F, Eighth Ohio; Hibbard White, Company A, Seventy-first New York; Daniel F. Conover Company E, Ninth Massachusetts; Ira Leebold, Company F, Twelfth infantry; William A. Shake, Company D, First Illinois; Clarke Frazier, Company D, Eighth regiment; H. C. Eaton, Company F, First Illinois; Isaac Hottlee, Company D, Seventh infantry.

In the detention hospital: Charles Genske, Company D, Thirty-third Michigan; Morris Dolan, teamster, Third regiment infantry; Carleton Day, Company H, Thirty-third Michigan; Albert Bennke, Company C, Thirty-fourth Michigan; A. B. Clay, Company D, Eighth Ohio; Ray Pardee, Company E, Thirty-fourth Michigan; William B. Ryan, Company A, First Illinois; John L. Shields, teamster, Twentieth regiment infantry.

At the general hospital there are 1,276 sick; at the detention hospital 250.

One hundred men were furloughed yesterday.

Mrs. M. E. Bell of Aldine square, Chicago, found her son, Dylvin, yesterday. He is a sergeant in Company C, First Illinois regiment, and she had heard nothing for about five weeks. For about two weeks she has been east, interrogating the war department, cabling to Santiago and searching the hospitals here. Yesterday morning she heard that four transports had arrived during the night. They were the Orizaba, the Berkshire, the City of Washington and the Neuces. The Neuces brought 385 men of the Twenty-ninth regular infantry and a detachment of the First Illinois. Among the 26 sick men on board was Sergeant Dylvin Bell.

The Berkshire brought 348 convalescents from various commands, chiefly of the regular army. Three died on the voyage. They were: Sergeant Johnson, Company K, First artillery; Private Murphy, Company E, Twenty-fourth infantry, and Male Nurse McMahon.

One hundred and seventy-five of the convalescents are still quite sick, but no contagious cases are among them. The dead were buried at sea.

NEW CHAPLAIN APPOINTED.

Offer of Lancaster (Pa.) Hospital Accepted—More Sick Taken Away From Camp Meade.

CAMP MEADE, MIDDLETOWN, Pa., Sept. 3.—Rev. S. G. Reading of Williamsport has been appointed chaplain of the Twelfth Pennsylvania regiment, to fill the vacancy caused by the death of Chaplain Rick.

Chief Surgeon Girard has accepted the offers of the Lancaster hospital to take care of 25 sick in the division hospitals and of the Columbia hospital to treat ten. A detachment of the Third New York was arrested Thursday night by the provost guards and the Fourth Missouri came to their rescue, throwing four guards into the canal. General Graham has not yet appointed a court to try First Lieutenant Bowers of the Sixth Pennsylvania regiment, who was ordered under arrest Thursday without an assignment of charges.

The men in the hospital corps will be discharged on application, when their regiments are mustered out. A hospital train from the Medico-Chirurgical hospital, Philadelphia, took away yesterday afternoon 200 sick soldiers from the division hospitals. There were 32 typhoid fever cases yesterday in the Red Cross hospitals.

Ten typhoid fever patients were removed from the Red Cross hospital yesterday to the St. Clare infirmary at Harrisburg. A Medico-Chirurgical hospital train reached camp last evening from Philadelphia and took away 100 convalescents in the division hospital. The train was equipped with nurses and physicians and started back to Philadelphia about 9 o'clock. The patients were removed from the field hospitals to the cars in ambulances under the personal supervision of Colonel Girard, chief surgeon of the Second corps. There was less than 100 patients last night in the division and Red Cross hospitals at the camp and these will probably be removed to the city hospitals very soon.

Governor Hastings expects the Pennsylvania troops at Porto Rico to arrive in this country next Thursday. He will go with the hospital train from the University of Pennsylvania, which will take the sick soldiers back to Philadelphia to the hospital.

GREAT BUSINESS MONTH.

Dun's Review Pointed Out the Surprising Features—Predicted a Further Increase.

NEW YORK, Sept. 3.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, said in part:

The smallest failures ever recorded in any month for five years were those of August.

The clearings have been the largest ever known in August and 23 per cent larger than in 1897.

The enormous volume of business in a month usually one of the most inactive of the year demands attention. Postponement during the months of war of some contracts and purchases which have now come forward explains part of the increase, and the strong absorption of securities explains part, but there has also been a great decline in the average of prices for all commodities, so that it takes a much larger volume of business in tons or bushels to make up transactions amounting to a million more than in 1897. It is therefore strictly true that business is larger than in the very best of all past years, and yet there is every prospect of much further increase.

There is no room to doubt that the wheat crop, even though it may fall a shade below some estimates, will prove the largest ever harvested, and although Beerbohm estimates Europe's crop at 232,000,000 bushels more than the last, that would be only about an average yield, while other evidence is less favorable. Foreign buying has been strong.

But receipts at the west are increasing, and the price has dropped 5 cents for spot, though the September option is seven eighths of a cent lower for the week. Corn has fallen a fraction, later reports indicating a less satisfactory yield.

The improvement in the iron industry has not only continued, but becomes more impressive because, after enormous buying of materials has satisfied the needs of great consumers for months to come, the demand for products is so great that both materials and products gradually advanced in prices.

The advance in tinplates, in spite of production far greater than was thought possible not long ago, is evidence that the consumption of steel in that branch will be heavy. The wire nail works also report a better demand, and the output of Connellsville coke has started up, gaining 10,000 tons for the week.

The woolen mills have rather better orders this week, but not enough as yet to warrant running nearly full force, with the price of wool held at the west much above eastern markets, and by those markets about 1 cent higher than the mills are bidding.

Failures for the week have been 171 in the United States, against 191 last year, and 22 in Canada, against 25 last year.

ELKINS MAY SUE.

Asked County Chairmen to Get Evidence to Convict Those Attacking Party Representatives.

PHILADELPHIA, Sept. 3.—Republican State Chairman Elkin has sent to the chairmen of the Republican county committees of the state the following telegram:

"The enemies of the Republican party are surreptitiously and otherwise distributing libelous newspaper articles containing malicious attacks upon the candidates and representatives of our party with a view to defeat Republican supremacy in Pennsylvania. If this work has been carried on in your county, I ask you to secure and furnish me at once with evidence that will convict the guilty parties."

Murder Mystery Solved.

STUEBENVILLE, O., Sept. 3.—On Aug. 26 the badly decomposed body of Mary, the 13-year-old daughter of John Wesley, a coal miner of Mingo Junction, was found in a lonely ravine south of this city. No clue was found to her murderer until Thursday, when John Dubbs, a half-witted boy of 17 years, was arrested at Bloomfield and brought to this place, where he is now in jail. It can be said he has practically admitted to killing the girl, but he denies having assaulted her.

Ratchford Encourages the Strike.

PITTSBURG, Sept. 3.—M. D. Ratchford, national president of the United Mine Workers of America, sent an important telegram to District President Patrick Dolan yesterday. It is expected to have a bearing on the strike now on in the third pool. The telegram congratulates Dolan on the progress he has made in bringing the men out and assures him the support of the national body of miners. He also urges that the fight be pushed into the fourth pool.

MAY BRING ON WAR.

Dreyfus Agitation Assuming Dangerous Proportions.

TROUBLE FEARED WITH GERMANY.

French Government Said to Be Trying to Stem the Rising Tide of Agitation—High Officers Think War With Germany Preferable to Civil Strife.

PARIS, Sept. 3.—The most pessimistic feelings exist. It is the common belief that Great Britain and Russia are on the eve of war and that the consequences of the Dreyfus scandal will involve France in war with Germany.

The government is doing its best to stem the rising tide of agitation by a studied quiescence which scandalizes The Journal des Debates and other papers, but it may succeed in getting over the crisis. M. Faure ignores the reproaches of the press and remains at Havre.

M. Bourgeois, minister of education, is in Switzerland. His address is not known here. M. Peytral, minister of finances, is at Marseilles. M. Lockroy, minister of marine, is at Ocherbourg.

In the meantime M. Cavaignac, minister of war, and M. Sarrien, minister of justice, are busy enough. M. Sarrien had two prolonged conferences with M. Brisson yesterday afternoon and M. Cavaignac had an interview

COLONEL HENRY.

with M. Sarrien. Both ministers looked ruffled. These and other impromptu ministerial conferences were devoted to an endeavor to convince the minister for war of the necessity on political grounds of a revision of the Dreyfus case, which the whole country, including the army now demands.

High officers confess that the discussions that will follow revision will probably entail war, but say that would be preferable to having the army remain under a cloud with the possibilities of agitation leading to civil strife.

CAVAIGNAC FIRM.

No Revision of Dreyfus Case, It Is Said, While He Is in Office.

PARIS, Sept. 3.—M. Lasies, a member of the chamber of deputies, had an interview yesterday morning with the minister for war, M. Cavaignac, on the recent developments in the Dreyfus case. The minister reiterated that he was convinced of the guilt of the prisoner, but added that at the same time he was determined to punish all who had been derelict in their duty.

The deputy afterward declared that so long as M. Cavaignac was minister for war there would be no revision of the Dreyfus case, adding that as in the event of a revision the trial could not again be held behind closed doors, and it would be impossible to produce publicly some of the documents, the acquittal of Dreyfus must certainly result from a reopening of the case.

MISS BARTON COMING BACK.

Paid a Customs Fine of \$500 to the Spanish Government Under Protest.

HAVANA, Sept. 3.—The steamer Clinton, which has been placed at the disposal of the Red Cross temporarily for the distribution of relief here, being wanted for the government, President McKinley instructed Miss Clara Barton to return to the United States for the present, especially as the Spanish government has not reached a definite decision regarding the Red Cross supplies.

Miss Barton, accompanied by her staff, sailed on the Clinton last evening for Tampa. Before leaving she paid the customs fine of \$500 imposed for her lack of a manifest of the Clinton's cargo, making the payment under protest, as directed by President McKinley.

The enormous volume of business in a month usually one of the most inactive of the year demands attention. Postponement during the months of war of some contracts and purchases which have now come forward explains part of the increase, and the strong absorption of securities explains part, but there has also been a great decline in the average of prices for all commodities, so that it takes a much larger volume of business in tons or bushels to make up transactions amounting to a million more than in 1892. It is therefore strictly true that business is larger than in the very best of all past years, and yet there is every prospect of much further increase.

There is no room to doubt that the wheat crop, even though it may fall a shade below some estimates, will prove the largest ever harvested, and although Beerbohm estimates Europe's crop at 232,000,000 bushels more than the last, that would be only about an average yield, while other evidence is less favorable. Foreign buying has been strong.

But receipts at the west are increasing, and the price has dropped 5 cents for spot, though the September option is seven-eighths of a cent lower for the week. Corn has fallen a fraction, later reports indicating a less satisfactory yield.

The improvement in the iron industry has not only continued, but becomes more impressive because, after enormous buying of materials has satisfied the needs of great consumers for months to come, the demand for products is so great that both materials and products gradually advanced in prices.

The advance in tinplate, in spite of production far greater than was thought possible not long ago, is evidence that the consumption of steel in that branch will be heavy. The wire nail works also report a better demand, and the output of Connelville coke has started up, gaining 10,000 tons for the week.

The woolen mills have rather better orders this week, but not enough as yet to warrant running nearly full force, with the price of wool held at the west much above eastern markets, and by those markets about 1 cent higher than the mills are bidding.

Failures for the week have been 171 in the United States, against 191 last year, and 22 in Canada, against 25 last year.

ELKINS MAY SUE.

Asked County Chairmen to Get Evidence to Convict Those Attacking Party Representatives.

PHILADELPHIA, Sept. 3.—Republican State Chairman Elkin has sent to the chairmen of the Republican county committees of the state the following telegram:

"The enemies of the Republican party are surreptitiously and otherwise distributing libelous newspaper articles containing malicious attacks upon the candidates and representatives of our party with a view to defeat Republican supremacy in Pennsylvania. If this work has been carried on in your county, I ask you to secure and furnish me at once with evidence that will convict the guilty parties."

Murder Mystery Solved.

STUEBENVILLE, O., Sept. 3.—On Aug. 26 the badly decomposed body of Mary, the 13-year-old daughter of John Wesley, a coal miner of Mingo Junction, was found in a lonely ravine south of this city. No clue was found to her murderer until Thursday, when John Dubbs, a half-witted boy of 17 years, was arrested at Bloomfield and brought to this place, where he is now in jail. It can be said he has practically admitted to killing the girl, but he denies having assaulted her.

Ratchford Encourages the Strike.

PITTSBURGH, Sept. 3.—M. D. Ratchford, national president of the United Mine Workers of America, sent an important telegram to District President Patrick Dolan yesterday. It is expected to have a bearing on the strike now on in the third pool. The telegram congratulates Dolan on the progress he has made in bringing the men out and assures him the support of the national body of miners. He also urges that the fight be pushed into the fourth pool.

MAY BRING ON WAR.

Dreyfus Agitation Assuming Dangerous Proportions.

TROUBLE FEARED WITH GERMANY.

French Government Said to Be Trying to Stem the Rising Tide of Agitation. High Officers Think War With Germany Preferable to Civil Strife.

PARIS, Sept. 3.—The most pessimistic feelings exist. It is the common belief that Great Britain and Russia are on the eve of war and that the consequences of the Dreyfus scandal will involve France in war with Germany.

The government is doing its best to stem the rising tide of agitation by a studied quiescence which scandalizes The Journal des Debates and other papers, but it may succeed in getting over the crisis. M. Faure ignores the reproaches of the press and remains at Havre.

M. Bourgeois, minister of education, is in Switzerland. His address is not known here. M. Peytral, minister of finances, is at Marseilles, M. Lockroy, minister of marine, is at Ocherbourg.

In the meantime M. Cavaignac, minister of war, and M. Sarrien, minister of justice, are busy enough. M. Sarrien had two prolonged conferences with M. Brisson yesterday afternoon and M. Cavaignac had an interview

COLONEL HENRY.

with M. Sarrien. Both ministers looked ruffled. These and other impromptu ministerial conferences were devoted to an endeavor to convince the minister for war of the necessity on political grounds of a revision of the Dreyfus case, which the whole country, including the army now demands.

High officers confess that the discussions that will follow revision will probably entail war, but say that would be preferable to having the army remain under a cloud with the possibilities of agitation leading to civil strife.

CAVAIGNAC FIRM.

No Revision of Dreyfus Case, It Is Said, While He Is in Office.

PARIS, Sept. 3.—M. Lasies, a member of the chamber of deputies, had an interview yesterday morning with the minister for war, M. Cavaignac, on the recent developments in the Dreyfus case. The minister reiterated that he was convinced of the guilt of the prisoner, but added that at the same time he was determined to punish all who had been derelict in their duty.

The deputy afterward declared that so long as M. Cavaignac was minister for war there would be no revision of the Dreyfus case, adding that as in the event of a revision the trial could not again be held behind closed doors, and it would be impossible to produce publicly some of the documents, the acquittal of Dreyfus must certainly result from a reopening of the case.

MISS BARTON COMING BACK.

Paid a Customs Fine of \$500 to the Spanish Government Under Protest.

HAVANA, Sept. 3.—The steamer Clinton, which has been placed at the disposal of the Red Cross temporarily for the distribution of relief here, being wanted for the government, President McKinley instructed Miss Clara Barton to return to the United States for the present, especially as the Spanish government has not reached a definite decision regarding the Red Cross supplies.

Miss Barton, accompanied by her staff, sailed on the Clinton last evening for Tampa. Before leaving she paid the customs fine of \$500 imposed for her lack of a manifest of the Clinton's cargo, making the payment under protest, as directed by President McKinley.

EVENING NEWS REVIEW.

14TH YEAR. NO. 74.

EAST LIVERPOOL, O., SATURDAY, SEPT. 3, 1898.

TWO CENTS

DEFENDER OF ALGER.

Wheeler Condemns Attacks on Conduct of Affairs.

SOLDIERS ARE NOT COMPLAINING.

People, He Says, Come to Camp Wikoff Expecting to Find Things in Bad Shape, but See Differently—Montauk Point a Good Place.

CAMP WIKOFF, MONTAUK POINT, L. I., Sept. 3.—Major General Joseph Wheeler gave a statement to The Associated Press yesterday, dated Sept. 1, giving a sample of the letters they were constantly receiving regarding the soldiers in the camp, the letter saying in part:

"In regard to my stepson, we feel very uneasy about him on account of the newspaper reports of the privation and suffering inflicted on the private soldiers. Although he has never uttered a complaint since he has been in the army, we hear from other sources of the cruel and horrible treatment inflicted on our soldiers under the pretense of humanity for our neighbors and the whole country is in a state of terrible excitement. I should not be surprised if the feeling should lead to a revolution of some kind, for I assure you I hear on all sides the most violent and bitter denunciations of the war department and the administration."

General Wheeler then said in part: "It will be seen that this letter says that not a word of complaint has been received from this soldier, and, so far as my investigation goes, no complaint has been made by any of the brave soldiers that have added glory to our arms in the Cuban campaign. A great many anxious fathers, mothers, brothers or sisters arrive here from all parts of the United States to look after their relatives whom, they say the papers tell them, are suffering, and many of them have heard that their relatives are in a condition of starvation. They are surprised when they come here to find their relations surrounded with everything to eat which can be procured by money, and, if sick in the hospital, they are gratified and surprised to find that they are given every possible care."

He said that every officer and soldier who went to Cuba regarded that he was given a great and special privilege in being permitted to engage in that campaign. They knew they were to encounter yellow fever and other diseases, the torrid heat of the country; that it was impossible for them to have the advantage of wagon transportation, would have to carry their blankets and their rations on their backs, and to be subjected, without any shelter, to the sun and rains by day and the heavy dews by night. They certainly knew that the Spaniards had spent years in erecting defenses and it was their pleasure to assault and their duty to capture the Spanish works.

They went there and did their duty. The brave men who won the victories did not complain of the neglect of the government. They realized that in the hurried organization of an expedition by a government which had no one with any experience in such matters, it was impossible to have everything arranged to perfection; and they would testify that under the circumstances the conditions were much more perfect than anyone would have reason to expect and that the president and secretary of war and others deserve high commendation.

One reason, he said, why the army was lacking in some respects in equipment was that a telegram was received from Admiral Sampson stating that if the army reached there immediately they could take the city at once, but if there should be delay, the fortifications of the Spaniards would be so perfected that there might be great difficulty in taking it. The army was directed to move at once.

At that time it was regarded as unsafe for a merchant ship to sail to Santiago, but as soon as the Spanish fleet was destroyed the generous people of the United States subscribed money and dispatched ship after ship loaded with luxuries and delicacies for the Santiago army, and everything that could be accomplished for their comfort was done by the president and secretary of war.

Then General Wheeler further said in part: "After the surrender had been completed and arrangements perfected for transporting the Spanish army to Spain the president and secretary of war sent shipping to Santiago and transported our army to one of the most healthful localities in the United States. The point selected by the secretary of war was so situated that thorough protection was given the people of the United States from the danger of yellow fever contagion. The soldiers, upon their arrival at this place, received every care and bounty which could be procured by money. The president and secretary of war directed that their health and comfort should be cared for without reference to expense, and in addition, the people within a circle of 100 miles vied with each other in shipping to them carloads and steamboat loads of luxuries of all kinds.

"There is no doubt that there have been individual cases of suffering and possibly neglect among the soldiers, not only in Cuba, but since their arrival at this place. Nearly 20,000 men were brought from a yellow fever district to

the United States. It would have been criminal to have landed them and allowed them to go promiscuously among the people.

"Everyone will realize that to land 18,000 men and put them on bare fields without any buildings whatever could not be done without some hardships.

"Over 5,000 very sick men have been received in the general hospital and as many more sick have been cared for in the camps, and yet only about 60 deaths have occurred in these hospitals.

"Tents had to be erected and hospitals constructed and preparations to supply those 18,000 men with wholesome water, food, medicines, physicians, nurses, cooks, hospital furniture, wagons, ambulances and the other needs essential to caring for 18,000 men, fully half of whom are very sick or in a feeble physical condition."

Auxiliary Cruisers Returned.

PHILADELPHIA, Sept. 3.—The auxiliary cruisers St. Paul and St. Louis yesterday at Cramps' shipyard were returned to the International Navigation company by the government.

STUDEBAKER'S TIGERS.

One Hundred and Fifty-Seventh Indiana Reached Home in Bad Shape—Studebaker Scored Florida Camps.

INDIANAPOLIS, Sept. 3.—Colonel Studebaker's "tigers," the One Hundred and Fifty-seventh Indiana volunteers, reached Indianapolis from the south yesterday morning.

Colonel Studebaker said in part: "This is not the same regiment I took away from Indianapolis last May. The personality is the same, but it is made up of a different set of men. They have fever in their very bones; they are hungry and their strength is wasted. It is all due to the cesspools in which we lived in the south. When the men left Indianapolis they were strong and showed their hardiness. They were all right when we left Chickamauga Park. "I charge the condition of my men to Port Tampa and to the conditions surrounding it. When we moved we did not better our condition much. The fevers followed us, and day by day the regiment became weaker. At Ferdinand we had the same difficulty to obtain proper food. The United States authorities seemed willing enough to provide us with what we needed, but Ferdinand is such an out of the way place that it is difficult to reach it. One railroad runs to the town.

"When men who have been investigating the condition of the Florida camps say we have not been in actual need of food and medical assistance, they do not know what they are talking about. My men cannot march in straight lines on account of their weakness. They cannot carry their rifles at the right position. They cannot march any distance without many of them having to drop out of the ranks to rest. I think that our coming home has saved the lives of hundreds in the regiment."

dent, who is ill with gastritis here, experienced a change for the worst yesterday. Her condition was considered critical.

Dr. Holland on Filtration.

SARATOGA, Sept. 3.—The American Social Science association elected these officers, among others, yesterday: President, Simeon K. Baldwin, New Haven; department chairman on health, William H. Daly, Pittsburg. Yesterday Dr. W. J. Holland, chancellor of the Western University of Pennsylvania, Pittsburg, spoke on "The Purification of Municipal Water Supplies by Filtration."

Clay Charges Desertion.

RICHMOND, Ky., Sept. 3.—The petition for divorce filed by General Cassius M. Clay to secure a legal separation from his girl wife, Dora Richardson Clay, recites that "the defendant did, without fault on the part of the plaintiff, abandon him on July 3, 1898, and has since lived separate and apart from him." General Clay declares the girl will never want so long as he lives.

President of Mormon Church Dead.

SALT LAKE CITY, Sept. 3.—A private telegram from George Q. Cannon, from San Francisco, announced the death of the president of the Mormon church, Wilford Woodruff. Mr. Woodruff died yesterday morning. He had been troubled with kidney complaint for some time.

PRESIDENT AT WIKOFF

He and Alger Visited the Camp Today.

EIGHTEEN MORE REPORTED DEAD.

One Was Frank Hagerman, and Another Was A. B. Clay of the Eighth Ohio Regiment—Chicago Mother Found Her Boy Sick—More Transports Arrived.

CAMP WIKOFF, Sept. 3.—President McKinley and Secretary Alger visited Camp Wikoff today.

With them were Vice President Hobart, Colonel Myron T. Herrick of Cleveland, Webb C. Hayes, J. Addison Porter, secretary to the president; Assistant Secretary Cortelyou, William McKinley Barber, the president's nephew, Commissary General Egan, Senator Proctor and others.

The president will spend Sunday with Vice President Hobart. Mrs. McKinley and Mrs. Hobart, who did not come to Camp Wikoff, will leave for Pater-son today.

The deaths in the general hospital yesterday were: Edwin Eugene Casey, troop clerk, rough riders; Abraham Robertson, Company D, Fourth regiment infantry; Frank Hagerman, Company F, Eighth Ohio; Hibbard White, Company A, Seventy-first New York; Daniel F. Conover, Company E, Ninth Massachusetts; Ira Leebold, Company F, Twelfth infantry; William A. Shake, Company D, First Illinois; Clarke Frazier, Company D, Eighth regiment; H. C. Eaton, Company F, First Illinois; Isaac Hottlee, Company D, Seventh infantry.

In the detention hospital: Charles Genske, Company D, Thirty-third Michigan; Morris Dolan, teamster, Third regiment infantry; Carleton Day, Company H, Thirty-third Michigan; Albert Bennke, Company C, Thirty-fourth Michigan; A. B. Clay, Company D, Eighth Ohio; Ray Pardee, Company E, Thirty-fourth Michigan; William B. Ryan, Company A, First Illinois; John L. Shields, teamster, Twentieth regiment infantry.

At the general hospital there are 1,276 sick; at the detention hospital 250.

One hundred men were furloughed yesterday.

Mrs. M. E. Bell of Aldine square, Chicago, found her son, Dylvin, yesterday. He is a sergeant in Company C, First Illinois regiment, and she had heard nothing for about five weeks. For about two weeks she has been east, interrogating the war department, cabling to Santiago and searching the hospitals here. Yesterday morning she heard that four transports had arrived during the night. They were the Orizaba, the Berkshire, the City of Washington and the Neuces. The Neuces brought 385 men of the Twenty-ninth regular infantry and a detachment of the First Illinois. Among the 26 sick men on board was Sergeant Dylvin Bell.

The Berkshire brought 348 convalescents from various commands, chiefly of the regular army. Three died on the voyage. They were: Sergeant Johnson, Company K, First artillery; Private Murphy, Company E, Twenty-fourth infantry, and Male Nurse McMahon.

One hundred and seventy-five of the convalescents are still quite sick, but no contagious cases are among them. The dead were buried at sea.

NEW CHAPLAIN APPOINTED.

Offer of Lancaster (Pa.) Hospital Accepted—More Sick Taken Away From Camp Meade.

CAMP MEADE, MIDDLETOWN, Pa., Sept. 3.—Rev. S. G. Reading of Williamsport has been appointed chaplain of the Twelfth Pennsylvania regiment, to fill the vacancy caused by the death of Chaplain Rick.

Chief Surgeon Girard has accepted the offer of the Lancaster hospital to take care of 25 sick in the division hospitals and of the Columbia hospital to treat ten. A detachment of the Third New York was arrested Thursday night by the provost guards and the Fourth Missouri came to their rescue, throwing four guards into the canal. General Graham has not yet appointed a court to try First Lieutenant Bowers of the Sixth Pennsylvania regiment, who was ordered under arrest Thursday without an assignment of charges.

The men in the hospital corps will be discharged on application, when their regiments are mustered out. A hospital train from the Medico-Chirurgical hospital, Philadelphia, took away yesterday afternoon 200 sick soldiers from the division hospitals. There were 32 typhoid fever cases yesterday in the Red Cross hospitals.

Ten typhoid fever patients were removed from the Red Cross hospital yesterday to the St. Clare infirmary at Harrisburg. A Medico-Chirurgical hospital train reached camp last evening from Philadelphia and took away 100 convalescents in the division hospital. The train was equipped with nurses and physicians and started back to Philadelphia about 9 o'clock. The patients were removed from the field hos-

pitals to the cars in ambulances under the personal supervision of Colonel Girard, chief surgeon of the Second corps. There was less than 100 patients last night in the division and Red Cross hospitals at the camp and these will probably be removed to the city hospitals very soon.

Governor Hastings expects the Pennsylvania troops at Porto Rico to arrive in this country next Thursday. He will go with the hospital train from the University of Pennsylvania, which will take the sick soldiers back to Philadelphia to the hospital.

GREAT BUSINESS MONTH.

Dun's Review Pointed Out the Surprising Features—Predicted a Further Increase.

NEW YORK, Sept. 3.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, said in part:

The smallest failures ever recorded in any month for five years were those of August.

The clearings have been the largest ever known in August and 23 per cent larger than in 1892.

The enormous volume of business in a month usually one of the most inactive of the year demands attention. Postponement during the months of war of some contracts and purchases which have now come forward explains part of the increase, and the strong absorption of securities explains part, but there has also been a great decline in the average of prices for all commodities, so that it takes a much larger volume of business in tons or bushels to make up transactions amounting to a million more than in 1892. It is therefore strictly true that business is larger than in the very best of all past years, and yet there is every prospect of much further increase.

There is no room to doubt that the wheat crop, even though it may fall a shade below some estimates, will prove the largest ever harvested, and although Beerbohm estimates Europe's crop at 232,000,000 bushels more than the last, that would be only about an average yield, while other evidence is less favorable. Foreign buying has been strong.

But receipts at the west are increasing, and the price has dropped 5 cents for spot, though the September option is seven-eighths of a cent lower for the week. Corn has fallen a fraction, later reports indicating a less satisfactory yield.

The improvement in the iron industry has not only continued, but becomes more impressive because, after enormous buying of materials has satisfied the needs of great consumers for months to come, the demand for products is so great that both materials and products gradually advanced in prices.

The advance in tinplate, in spite of production far greater than was thought possible not long ago, is evidence that the consumption of steel in that branch will be heavy. The wire nail works also report a better demand, and the output of Connellsville coke has started up, gaining 10,000 tons for the week.

The woolen mills have rather better orders this week, but not enough as yet to warrant running nearly full force, with the price of wool held at the west much above eastern markets, and by those markets about 1 cent higher than the mills are bidding.

Failures for the week have been 171 in the United States, against 191 last year, and 22 in Canada, against 25 last year.

ELKINS MAY SUE.

Asked County Chairmen to Get Evidence to Convict Those Attacking Party Representatives.

PHILADELPHIA, Sept. 3.—Republican State Chairman Elkin has sent to the chairmen of the Republican county committees of the state the following telegram:

"The enemies of the Republican party are surreptitiously and otherwise distributing libelous newspaper articles containing malicious attacks upon the candidates and representatives of our party with a view to defeat Republican supremacy in Pennsylvania. If this work has been carried on in your county, I ask you to secure and furnish me at once with evidence that will convict the guilty parties."

It is expected to have a bearing on the strike now on in the third pool. The telegram congratulates Dolan on the progress he has made in bringing the men out and assures him the support of the national body of miners. He also urges that the fight be pushed into the fourth pool.

MISS BARTON COMING BACK.

Paid a Customs Fine of \$500 to the Spanish Government Under Protest.

HAVANA, Sept. 3.—The steamer Clinton, which has been placed at the disposal of the Red Cross temporarily for the distribution of relief here, being wanted for the government, President McKinley instructed Miss Clara Barton to return to the United States for the present, especially as the Spanish government has not reached a definite decision regarding the Red Cross supplies.

Miss Barton, accompanied by her staff, sailed on the Clinton last evening for Tampa. Before leaving she paid the customs fine of \$500 imposed for her lack of a manifest of the Clinton's cargo, making the payment under protest, as directed by President McKinley.

BOARD BEHIND AGAIN

Health Authorities Miss An-
other Meeting.

ONLY ONE MEMBER PRESENT

But the Officers Were All There and the
Reports Were Given Out—Twenty Berths
and Thirteenth Deaths During the
Month.

The board of health failed to meet
last evening owing to the fact that there
was not a quorum present.

When the time arrived to call the
meeting to order Mr. Haines was the
only member of the board present, but
Health Officer Ogden, Sanitary Officer
Burgess and Clerk Burner were on
hand. After spending some time wait-
ing for the other members to appear Mr.
Haines went home and the officers fol-
lowed suit.

The report of Health Officer Ogden
for the month is as follows: Births—
Males, 13, females, 7; deaths—Males, 8;
females, 5. Some of the causes of death
were consumption, cancer of the tongue,
heart failure, convulsions. During the
month five cases of typhoid fever were
reported.

In the report of Sanitary Officer Bur-
gess it is shown that he disposed of 14
dead dogs and six cats and a large num-
ber of other animals. This is the largest
number of dogs the sanitary officer has
buried in one month, and nine of them
came from Thompson hill, where the
dog poisoner had been at work.

There was also one scarlet fever house
furnished by the officer.

The bills for the month are Health
Officer Ogden, \$25; Sanitary Officer
Burgess, \$50.

GIVEN UP TO DIE

Of Bright's Disease, But Was
Cured Without Medicine by
Dr. E. F. Larkins.

T. C. Harbison, of Colorado Springs,
Col., a short time ago bade a sad fare-
well to his family and came to this city,
hoping against hope, a bare possibility,
of recovering from that dread disease
known as chronic Bright's disease.

Mr. Harbison's physicians were
specialists, but said they could do no
more for him, that he must die.

Immediately upon his arrival here
Mr. Harbison began taking treatment
from Dr. E. F. Larkins, who treats
chronic diseases without medicine by
the new system. The result is nothing
short of marvelous. Mr. Harbison has
entirely recovered, is in perfect health
and has accepted a position as traveling
salesman for the Ohio China company.
The results of the case have been
watched with interest by the people of
several different states as Mr. Harbison
is a widely known business man of the
strictest integrity.

PRESIDENT.

ORDERED HOME.

Number of Regiments, Some From Penn-
sylvania and Ohio, to Be
Mustered Out.

WASHINGTON, Sept. 3.—The follow-
ing volunteer regiments were yesterday
ordered transferred and mustered out:
First Ohio infantry, from Jackson-
ville to Cincinnati.

Third Ohio infantry, from Knoxville
to Columbus.

Seventh Ohio infantry, from Middle-
town, Pa., to Columbus.

Seventy-first New York infantry to
Camp Black.

The "territorial regiment" of infan-
try, recruited in Arizona, New Mexico,
Oklahoma and Indian Territory, now
stationed at Whipple barracks, A. T.,
will also be mustered out.

Eighth Ohio infantry, from Montauk
to Columbus.

Third Michigan infantry, from Chick-
amauga to Camp Eaton, Mich.

One Hundred and Fifty-eighth Indi-
ana infantry, from Knoxville to Indian-
apolis.

First Ohio cavalry, from Huntsville,
Ala., to Columbus.

Second North Carolina infantry, from
St. Simons island, Ga., to Raleigh, N.
C.

First Alabama infantry, from Jack-
sonville, Fla., to Mobile.

Third Pennsylvania infantry, from
Huntsville, Ala., to armory, Philadel-
phia.

Fourth Wisconsin infantry, now at
Camp Douglas, Wis.

Eighteenth Pennsylvania infantry,
from Camp Meade to armory, Pittsburg.

Second Alabama infantry, from Jack-
sonville to Mobile.

Third United States volunteer cav-
alry, from Chickamauga to Old Fort,
Omaha.

Second Massachusetts infantry, from
Montauk to Farmington, Mass.

First Pennsylvania infantry, from
Knoxville to armory, Philadelphia.

Second Pennsylvania infantry, from
Mont Chant, Del., to armory, Phila-
delphia.

First New Jersey infantry, from Camp
Alger to Sea Girt, N. J.

The First South Carolina from Jack-
sonville, Fla., to Columbia, S. C.

Secretary Alger yesterday di-
rected the adjutant general of the United
States to take charge of the sick sol-
diers and place them in hospitals, the
expense to be borne by the United
States.

A statement prepared at the war de-
partment shows that 83 or the organi-
zations in the volunteer army have re-
ceived orders looking to their being
mustered out. This includes 53 regi-
ments and a number of minor organi-
zations, such as batteries of artillery,
independent companies of cavalry, etc.,
and represents almost one-third of the
220,000 men called for by the president.

OHIO HOSPITAL TRAIN.

Gone Southward to Bring Back Sick
Soldier Boys From the Camps
In That Section.

COLUMBUS, Sept. 3.—The hospital
train pulled out for the south yesterday
afternoon to gather up and return to
their homes the sick Ohio volunteers.
Governor Bushnell was at the depot,
but did not accompany the train. It is
the intention to go direct to Lakeland
and Ferdinand, Fla., where the first
soldiers will be taken on board. The
train will return by way of Huntsville,
Ala., Chickamauga and Knoxville, and
will visit any other points where there
may be sick Ohioans. It is expected
that the trip will occupy six days.

The train was composed of 14 cars,
having on board Surgeon General J. E.
Lowe, in command, and representing
Governor Bushnell; physicians and
nurses from Columbus, Dayton and
Toledo, and one physician each from
Cleveland and Sandusky. The seats
had been removed from all the day
coaches, 250 cots being substituted.
Ample supplies were taken and the sick
will be well cared for.

CINCINNATI, Sept. 3.—The Ohio hospi-
tal train from Columbus arrived here
yesterday and was transferred from the
Pennsylvania to the Queen and Cres-
cent railroad, enroute to Florida. It
will stop at Chickamauga, Knoxville,
Lexington and other camps on the re-
turn, picking up all Ohioans in the
hospitals that can be moved. Many
physicians and nurses were ready here
to join the train, but Dr. Lowe, rep-
resenting Governor Bushnell, did not de-
sire additional help.

Generous Kentucky Woman Offered to
Head List of Contributions For
Her State Soldiers.

FRANKFORT, Ky., Sept. 3.—The first
private offer contribution to the ex-
penses of the hospital train fund came
in a letter to Governor Bradley Thurs-
day night. It was from Mrs. G. Holz-
hauer of Newport. She said: "If you
have no money in the state treasury,
why not appeal to the citizens in gen-
eral for every one to give what they are
able to defray the expense of bringing
these poor neglected boys home."

"I have no one in the army, but I
have been helping the poor women and
children of our gallant Sixth infantry
ever since they left here, and I am
ready to head the list with \$100 to
bring the poor boys back."

Dr. Swallow Talked on Prohibition.

WILLIAMS GROVE, Pa., Sept. 3.—The
twenty-fifth annual gathering of the
State Grangers came to a close at this
place yesterday. Prohibition day was
yesterday and Rev. Dr. S. C. Swallow
was the principal speaker at the after-
noon gathering. He deviated from his

topic at one point to touch on Quayism,
but in the main confined his remarks to
the cause of Prohibition.

PRESIDENT HONORED DEAD.

Met Detail of Seventy-First New York
Escorting Remains of Two
Heroes to Their Graves.

NEW YORK, Sept. 3.—While on its
way to Fifth Avenue hotel yesterday
afternoon, the carriage containing Pres-
ident McKinley, Vice President Hobart
and Private Secretary Porter met a de-
tail of the Seventy-first regiment escort-
ing the remains of Corporals Sheid and
Immen, who were killed in the charge
of San Juan hill, to the cemetery.

With reverential respect the president
and his party removed their hats. The
president's head was lowered and he
seemed to be deeply affected by the
spectacle. The president's carriage fol-
lowed the funeral cortege a couple of
blocks down Fifth avenue below the
hotel and then returned.

Both Satisfied.

Hicks—Wheeler and Brassey met for
the first time yesterday, and they got
on together famously. They kept up
their talk until late in the evening.

Wicks—What were they talking
about?

Hicks—Bicycles and golf.

Wicks—But Wheeler doesn't know
the first thing about golf.

Hicks—Neither does Brassey know
anything about bicycling. But that
makes no difference. Each kept it up
on his favorite topic without listening
to the other.—Boston Transcript.

President Greeted Naval Reserves.

NEW YORK, Sept. 3.—President Mc-
Kinley was on the balcony of the Fifth
Avenue hotel fanning himself with his
hat yesterday afternoon when the naval
reserves from the Yankee passed. He
jumped to his feet and clapped his
hands, and when the tars presented
arms, bowed in answer to their salute.
The sailors were surprised and delighted
at being reviewed by the president.

No Prosecutions to Occur.

WASHINGTON, Sept. 3.—It was an-
nounced at the treasury department
yesterday that there would be no pro-
secutions, as the outcome of recent in-
vestigations of the manner in which
several thousand bonds were subscribed
for in New York.

EPWORTH LEAGUE.

Lesson for the Week Beginning Sept. 4.
Comment by Rev. W. J. Yates, A. M.
Topic, The Mustard Seed.

SCRIPTURE READING.—Math. xiii, 31, 32.
"The kingdom of heaven is like to a grain of
mustard seed. . . . the least of all seeds,
but when it is grown it is the greatest among
herbs."

This is the kingdom of God on earth,
the church of Jesus Christ. At Pente-
cost it numbered 120 persons, a small
beginning for a religious society making
such claims and with aims of world
wide expansion. It was both small and
weak. Many times since it has seemed
as if it was nigh extinction, yet it lives
and grows both in numbers, influence
and meaning. It is not a crystal but a
living growth. Ages old, it has not yet
reached its largest and highest develop-
ment.

Very notable has it been in the ex-
pansion of the inner life thought. Dur-
ing the earlier Christian centuries the
nature of the person of Jesus Christ and
His relation to God were prominent in
the teaching of the church. All shades
of opinion were developed until in course
of time the truth was clearly estab-
lished. Afterward came the question of
the mediatorial work of Jesus, then the
nature of the church and rights of the
individual, afterward the thought of
the people centered more on the needs
and capacities of human nature and the
practical, humanitarian side of religion.
There has been a steady progress in the
doctrines emphasized and also a con-
tinual advance in the better understand-
ing of each great truth held as doctrine.

Most impressive have been the nu-
merical gains of the Christian church in
the 2,000 years or less of its history.
By the year 100 A. D. the little band
of 120 had increased to 500,000. In 500
A. D. it was 15,000,000; 1000 A. D.,
50,000,000; 1500 A. D., that number
had doubled. In the next 300 years it
had doubled again, so that 1800 A. D.
counted 200,000,000 communicants in
the church.

Most wonderful of all is the progress
of the last century. This is the age of
evangelizing agencies beyond all others
the world has ever seen. In 90 years
past the membership of the church has
more than doubled and its aggressive
power and efficiency greatly increased.
It stands today as the most influential
religion on earth and, though not so
large in numbers as Buddhism and
heathenism, it possesses aggressive life
far in advance of either. Burma and
India have now more Christians than
all the world in A. D. 70.

In 1700 A. D. there were 155,000-
000 people under Christian government.
Now there are 685,000,000 under the
rule of Christian nations. The in-
crease since the rise of Methodism has
been one-third the population of the
earth. The seed has become a great tree.

Remember the Needy.

There is an increasing spirit of hel-
pfulness on the part of common people
toward those around them. The rich
have always been expected to help the
poor because they have had large abili-
ty. The poor always have helped their
own because of the spirit of sympathy
with those in like condition. Many peo-
ple with neither poverty nor richness
have been neglectful of their duty and
privilege because they did not have the
responsibility and opportunity afforded
by wealth and did not have the keen
sympathy pressed home upon them by
pinching want. The mercy and help de-
partment of the League and similar
committees in other societies are doing
much to show people what to do and
are aiding them to overcome diffidence
and natural shrinking and enter hearti-
ly on the work of helping others. Many
people feel great backwardness in visit-
ing the sick. They don't know what to
say or do. They don't know how they
will be received. Carry a little jelly,
some fruit, a few flowers, some pretty
ornament or book or cheering picture
and make this the occasion for a few
words of sympathy and helpfulness, and
the task is easy. Try it once, and you
will learn in doing what can never be
known in merely thinking about it.

Which Is the Best?

"Ours is the toniest set in town,"
"We are very exclusive, only the most
select are admitted," "We include the
oldest and wealthiest families," "The
best dressed and most cultured of the
place belong to us," "The jolliest crowd
you ever saw," "Literary and musical
talent only, delightful times," "Will
you join us?" Which course shall a
young person choose among so many at-
tractive ones? Weigh and gauge all and
decide what is worthy and will be of
highest value.

Is goodness and character of real
worth to you? What is your supreme
aim—to shine, to have a good time, to
get knowledge, wealth, position, or to
be noble in heart and life? The best so-
ciety is that which includes the purest,
noblest, most worthy people. Wealth,
fame, wit, family, taste, talent, may
all be possessed by the morally vile.
Companionship with them will not give
you any advantage, but will be apt to
communicate to you their viciousness.
The best is the virtuous, the pure and
good.

Our Enemies.

Our enemies are rich in resources and
can easily turn every movement in our
midst to our disadvantage. They are
ever eager and on the lookout to seize

Nearly every man has it in his power to
live to a green old age like the great states-
man of England. It is simply a matter of
a little daily thought and regard for health.
If, when a man feels that he is a little out
of sorts, he will resort to the right remedy,
he will never have to submit to the more
serious ills of life. Most men, when they
have a headache, feel drowsy during the
day and are restless during the night, and
find their appetite falling off, pay little or
no heed to these warnings. The inevitable
result is some dangerous and possibly fatal
malady. The doctor may call it consump-
tion, malaria or biliousness, or perhaps
some blood or skin disease. It makes but
little difference. These troubles all have
their inception in the same cause—im-
proper and insufficient nourishment. Dr.
Pierce's Golden Medical Discovery corrects
that cause. It makes the appetite keen
and hearty, the digestion perfect, the liver
active and the blood pure and rich. It is
the great blood-maker and flesh-builder.
It facilitates the assimilation of the life-
giving elements of the food, filling the
blood with the nutriment that makes new
and healthy flesh and nerve tissue. Medi-
cine dealers sell it.

"Last summer," writes Miss Laura Piersel,
of East Bethlehem, Washington Co., Pa., "I was
going into consumption. Dr. Pierce's Golden
Medical Discovery completely cured me."

Our citizens are making it public.

Mrs. Carlina White, of No. 225 Rail-

ney Pills and found great relief from the
treatment. My back ached so long that
I forgot when I was first troubled. I
am 70 years of age and had about given
up all hope of ever being helped. I
took medicines, but they did not prove
very beneficial; my back ached just the
same in the region of the kidneys, and
got stiff and lame when sitting long or
when lying in bed; sharp twinges of
pain and other symptoms convinced me
that my kidneys were out of order. Al-
ways on the outlook for anything that
might bring relief, when I heard Doan's
Kidney Pills so highly spoken of I got
a box at the W. & W. Pharmacy. Af-
ter using them for a short time I could
plainly notice the good effect they were
causing. I continued on them for some
time longer and gradually but surely
improved. I found Doan's Kidney Pills
a splendid remedy and advised others to
try them, feeling confident if they do so
they will have no reason to regret it.
I know of a number of people here in
the East End that swear by Doan's Kid-
ney Pills."

BOARD BEHIND AGAIN

Health Authorities Miss Another Meeting.

ONLY ONE MEMBER PRESENT

But the Officers Were All There and the Reports Were Given Out—Twenty Berths and Thirteenth Deaths During the Month.

The board of health failed to meet last evening owing to the fact that there was not a quorum present.

When the time arrived to call the meeting to order Mr. Haines was the only member of the board present, but Health Officer Odgen, Sanitary Officer Burgess and Clerk Burner were on hand. After spending some time waiting for the other members to appear Mr. Haines went home and the officers followed suit.

The report of Health Officer Odgen for the month is as follows: Births—Males, 13, females, 7; deaths—Males, 8; females, 5. Some of the causes of death were consumption, cancer of the tongue, heart failure, convulsions. During the month five cases of typhoid fever were reported.

In the report of Sanitary Officer Burgess it is shown that he disposed of 14 dead dogs and six cats and a large number of other animals. This is the largest number of dogs the sanitary officer has buried in one month, and nine of them came from Thompson hill, where the dog poisoner had been at work.

There was also one scarlet fever house fumigated by the officer.

The bills for the month are Health Officer Odgen, \$25; Sanitary Officer Burgess, \$50.

GIVEN UP TO DIE

Of Bright's Disease, But Was Cured Without Medicine by Dr. E. F. Larkins.

T. C. Harbison, of Colorado Springs, Col., a short time ago bade a sad farewell to his family and came to this city, hoping against hope, a bare possibility, of recovering from that dread disease known as chronic Bright's disease.

Mr. Harbison's physicians were specialists, but said they could do no more for him, that he must die.

Immediately upon his arrival here Mr. Harbison began taking treatment from Dr. E. F. Larkins, who treats chronic diseases without medicine by the new system. The result is nothing short of marvelous. Mr. Harbison has entirely recovered, is in perfect health and has accepted a position as traveling salesman for the Ohio China company. The results of the case have been watched with interest by the people of several different states as Mr. Harbison is a widely known business man of the strictest integrity.

PRESIDENT.

ORDERED HOME.

Number of Regiments, Some From Pennsylvania and Ohio, to Be Mustered Out.

WASHINGTON, Sept. 3.—The following volunteer regiments were yesterday ordered transferred and mustered out: First Ohio infantry, from Jacksonville to Cincinnati.

Third Ohio infantry, from Knoxville to Columbus.

Seventh Ohio infantry, from Middletown, Pa., to Columbus.

Seventy-first New York infantry to Camp Black.

The "territorial regiment" of infantry, recruited in Arizona, New Mexico, Oklahoma and Indian Territory, now stationed at Whipple barracks, A. T., will also be mustered out.

Eighth Ohio infantry, from Montauk to Columbus.

Third Michigan infantry, from Chickamauga to Camp Eaton, Mich.

One Hundred and Fifty-eighth Indiana infantry, from Knoxville to Indianapolis.

First Ohio cavalry, from Huntsville, Ala., to Columbus.

Second North Carolina infantry, from St. Simons island, Ga., to Raleigh, N. C.

First Alabama infantry, from Jacksonville, Fla., to Mobile.

Third Pennsylvania infantry, from Huntsville, Ala., to armory, Philadelphia.

Fourth Wisconsin infantry, now at Camp Douglas, Wis.

Eighteenth Pennsylvania infantry, from Camp Meade to armory, Pittsburgh.

Second Alabama infantry, from Jacksonville to Mobile.

Third United States volunteer cavalry, from Chickamauga to Old Fort, Omaha.

Second Massachusetts infantry, from Montauk to Farmington, Mass.

First Pennsylvania infantry, from Knoxville to armory, Philadelphia.

Second Pennsylvania infantry, from Mont Chantlin, Del., to armory, Philadelphia.

First New Jersey infantry, from Camp Alger to Sea Girt, N. J.

The First South Carolina from Jacksonville, Fla., to Columbia, S. C.

Secretary Alger yesterday directed the adjutant general of the United States to take charge of the sick soldiers and place them in hospitals, the expense to be borne by the United States.

A statement prepared at the war department shows that 83 or the organizations in the volunteer army have received orders looking to their being mustered out. This includes 53 regiments and a number of minor organizations, such as batteries of artillery, independent companies of cavalry, etc., and represents almost one-third of the 220,000 men called for by the president.

OHIO HOSPITAL TRAIN.

Gone Southward to Bring Back Sick Soldier Boys From the Camps in That Section.

COLUMBUS, Sept. 3.—The hospital train pulled out for the south yesterday afternoon to gather up and return to their homes the sick Ohio volunteers. Governor Bushnell was at the depot, but did not accompany the train. It is the intention to go direct to Lakeland and Ferdinand, Fla., where the first soldiers will be taken on board. The train will return by way of Huntsville, Ala., Chickamauga and Knoxville, and will visit any other points where there may be sick Ohioans. It is expected that the trip will occupy six days.

The train was composed of 14 cars, having on board Surgeon General J. E. Lowe, in command, and representing Governor Bushnell; physicians and nurses from Columbus, Dayton and Toledo, and one physician each from Cleveland and Sandusky. The seats had been removed from all the day coaches, 250 cots being substituted. Ample supplies were taken and the sick will be well cared for.

CINCINNATI, Sept. 3.—The Ohio hospital train from Columbus arrived here yesterday and was transferred from the Pennsylvania to the Queen and Crescent railroad, enroute to Florida. It will stop at Chickamauga, Knoxville, Lexington and other camps on the return, picking up all Ohioans in the hospitals that can be moved. Many physicians and nurses were ready here to join the train, but Dr. Lowe, representing Governor Bushnell, did not desire additional help.

EPWORTH LEAGUE.

Lesson For the Week Beginning Sept. 4.
Comment by Rev. W. J. Yates, A. M.
Topic, The Mustard Seed.

SCRIPTURE READING.—Math. xiii, 31, 32. "The kingdom of heaven is like to a grain of mustard seed. . . the least of all seeds, but when it is grown, it is the greatest among herbs."

This is the kingdom of God on earth, the church of Jesus Christ. At Pentecost it numbered 120 persons, a small beginning for a religious society making such claims and with aims of world wide expansion. It was both small and weak. Many times since it has seemed as if it was nigh extinction, yet it lives and grows both in numbers, influence and meaning. It is not a crystal but a living growth. Ages old, it has not yet reached its largest and highest development.

Very notable has it been in the expansion of the inner life thought. During the earlier Christian centuries the nature of the person of Jesus Christ and His relation to God were prominent in the teaching of the church. All shades of opinion were developed until in course of time the truth was clearly established. Afterward came the question of the mediatorial work of Jesus, then the nature of the church and rights of the individual, afterward the thought of the people centered more on the needs and capacities of human nature and the practical, humanitarian side of religion. There has been a steady progress in the doctrines emphasized and also a continual advance in the better understanding of each great truth held as doctrine.

Most impressive have been the numerical gains of the Christian church in the 2,000 years or less of its history. By the year 100 A. D. the little band of 120 had increased to 500,000. In 500 A. D. it was 15,000,000; 1000 A. D., 50,000,000; 1500 A. D., that number had doubled. In the next 300 years it had doubled again, so that 1800 A. D. counted 200,000,000 communicants in the church.

Most wonderful of all is the progress of the last century. This is the age of evangelizing agencies beyond all others the world has ever seen. In 90 years past the membership of the church has more than doubled and its aggressive power and efficiency greatly increased. It stands today as the most influential religion on earth and, though not so large in numbers as Buddhism and heathenism, it possesses aggressive life far in advance of either. Burma and India have now more Christians than all the world in A. D. 70.

In 1700 A. D. there were 155,000,000 people under Christian government. Now there are 685,000,000 under the rulership of Christian nations. The increase since the rise of Methodism has been one-third the population of the earth. The seed has become a great tree.

Remember the Needy.

There is an increasing spirit of helpfulness on the part of common people toward those around them. The rich have always been expected to help the poor because they have had large ability. The poor always have helped their own because of the spirit of sympathy with those in like condition. Many people with neither poverty nor richness have been neglectful of their duty and privilege because they did not have the responsibility and opportunity afforded by wealth and did not have the keen sympathy pressed home upon them by pinching want. The mercy and help department of the League and similar committees in other societies are doing much to show people what to do and are aiding them to overcome diffidence and natural shrinking and enter heartily on the work of helping others. Many people feel great backwardness in visiting the sick. They don't know what to say or do. They don't know how they will be received. Carry a little jelly, some fruit, a few flowers, some pretty ornament or book or cheering picture and make this the occasion for a few words of sympathy and helpfulness, and the task is easy. Try it once, and you will learn in doing what can never be known in merely thinking about it.

Which Is the Best?

"Ours is the toniest set in town," "We are very exclusive, only the most select are admitted," "We include the oldest and wealthiest families," "The best dressed and most cultured of the place belong to us," "The jolliest crowd you ever saw," "Literary and musical talent only, delightful times," "Will you join us?" Which course shall a young person choose among so many attractive ones? Weigh and gauge all and decide what is worthy and will be of highest value.

Is goodness and character of real worth to you? What is your supreme aim—to shine, to have a good time, to get knowledge, wealth, position, or to be noble in heart and life? The best society is that which includes the purest, noblest, most worthy people. Wealth, fame, wit, family, taste, talent, may all be possessed by the morally vile. Companionship with them will not give you any advantage, but will be apt to communicate to you their viciousness. The best is the virtuous, the pure and good.

Our Enemies.

Our enemies are rich in resources and can easily turn every movement in our midst to our disadvantage. They are ever eager and on the lookout to seize

A magnificent example of what care of health will do for a man is presented in the life of Mr. Gladstone, the greatest statesman of the century. This "Grand Old Man" at

eighty-six years of age, retained his intellectual vigor unabated, and had not lost the sinewy grip with which he

fastened upon any subject that interested him.

Nearly every man has it in his power to live to a green old age like the great statesman of England. It is simply a matter of a little daily thought and regard for health. If, when a man feels that he is a little out of sorts, he will resort to the right remedy, he will never have to submit to the more serious ills of life. Most men, when they have a headache, feel drowsy during the day and are restless during the night, and find their appetite falling off, pay little or no heed to these warnings. The inevitable result is some dangerous and possibly fatal malady. The doctor may call it consumption, malaria or biliousness, or perhaps some blood or skin disease. It makes but little difference. These troubles all have their inception in the same cause—improper and insufficient nourishment. Dr. Pierce's Golden Medical Discovery corrects that cause. It makes the appetite keen and hearty, the digestion perfect, the liver active and the blood pure and rich. It is the great blood-maker and flesh-builder. It facilitates the assimilation of the life-giving elements of the food, filling the blood with the nutriment that makes new and healthy flesh and nerve tissue. Medicine dealers sell it.

"Last summer," writes Miss Laura Pierce, of East Bethlehem, Washington Co., Pa., "I was going into consumption. Dr. Pierce's Golden Medical Discovery completely cured me."

A man or woman who neglects constipation suffers from slow poisoning. Doctor Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic.

MAKE IT PUBLIC.

Publicity Counts—That's What the People Want—East Liverpool Expression on the Subject.

Make it public. Tell the people about it. Gratitude promotes publicity. Grateful citizens talk. They tell their neighbors—tell their friends.

The news is too good to keep. Everybody should know about the little conqueror.

"Bad backs" are numerous. So few understand the cause. Many East Liverpool people are learning.

And better still, they're being cured. Lame backs are lame no more. Weak ones regain their strength. This is the every day labor in East Liverpool.

Of Doan's Kidney Pills. Our citizens are making it public.

Mrs. Carline White, of No. 225 Railroad street, says: "I used Doan's Kidney Pills and found great relief from the treatment. My back ached so long that I forgot when I was first troubled. I am 70 years of age and had about given up all hope of ever being helped. I took medicines, but they did not prove very beneficial; my back ached just the same in the region of the kidneys, and got stiff and lame when sitting long or when lying in bed; sharp twinges of pain and other symptoms convinced me that my kidneys were out of order. Always on the outlook for anything that might bring relief, when I heard Doan's Kidney Pills so highly spoken of I got a box at the W. & W. Pharmacy. After using them for a short time I could plainly notice the good effect they were causing. I continued on them for some time longer and gradually but surely improved. I found Doan's Kidney Pills a splendid remedy and advised others to try them, feeling confident if they do so they will have no reason to regret it. I know of a number of people here in the East End that swear by Doan's Kidney Pills."

Doan's Kidney Pills are for sale by all dealers. Price 50 cents per box. Sent by mail on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

BOARD BEHIND AGAIN

Health Authorities Miss Another Meeting.

ONLY ONE MEMBER PRESENT

But the Officers Were All There and the Reports Were Given Out—Twenty Berths and Thirteenth Deaths During the Month.

The board of health failed to meet last evening owing to the fact that there was not a quorum present.

When the time arrived to call the meeting to order Mr. Haines was the only member of the board present, but Health Officer Odgen, Sanitary Officer Burgess and Clerk Burner were on hand. After spending some time waiting for the other members to appear Mr. Haines went home and the officers followed suit.

The report of Health Officer Odgen for the month is as follows: Births—Males, 18, females, 7; deaths—Males, 8; females, 5. Some of the causes of death were consumption, cancer of the tongue, heart failure, convulsions. During the month five cases of typhoid fever were reported.

In the report of Sanitary Officer Burgess it is shown that he disposed of 14 dead dogs and six cats and a large number of other animals. This is the largest number of dogs the sanitary officer has buried in one month, and nine of them came from Thompson hill, where the dog poisoner had been at work.

There was also one scarlet fever house fumigated by the officer.

The bills for the month are Health Officer Odgen, \$25; Sanitary Officer Burgess, \$50.

GIVEN UP TO DIE

Of Bright's Disease, But Was Cured Without Medicine by Dr. E. F. Larkins.

T. O. Harbison, of Colorado Springs, Col., a short time ago bade a sad farewell to his family and came to this city, hoping against hope, a bare possibility, of recovering from that dread disease known as chronic Bright's disease.

Mr. Harbison's physicians were specialists, but said they could do no more for him, that he must die.

Immediately upon his arrival here Mr. Harbison began taking treatment from Dr. E. F. Larkins, who treats chronic diseases without medicine by the new system. The result is nothing short of marvelous. Mr. Harbison has entirely recovered, is in perfect health and has accepted a position as traveling salesman for the Ohio China company. The results of the case have been watched with interest by the people of several different states as Mr. Harbison is a widely known business man of the strictest integrity.

PRESIDENT.

ORDERED HOME.

Number of Regiments, Some From Pennsylvania and Ohio, to Be Mustered Out.

WASHINGTON, Sept. 3.—The following volunteer regiments were yesterday ordered transferred and mustered out: First Ohio infantry, from Jacksonville to Cincinnati.

Third Ohio infantry, from Knoxville to Columbus.

Seventh Ohio infantry, from Middletown, Pa., to Columbus.

Seventy-first New York infantry to Camp Black.

The "territorial regiment" of infantry, recruited in Arizona, New Mexico, Oklahoma and Indian Territory, now stationed at Whipple barracks, A. T., will also be mustered out.

Eighth Ohio infantry, from Montauk to Columbus.

Third Michigan infantry, from Chickamanga to Camp Eaton, Mich.

One Hundred and Fifty-eighth Indiana infantry, from Knoxville to Indianapolis.

First Ohio cavalry, from Huntsville, Ala., to Columbus.

Second North Carolina infantry, from St. Simons island, Ga., to Raleigh, N. C.

First Alabama infantry, from Jacksonville, Fla., to Mobile.

Third Pennsylvania infantry, from Huntsville, Ala., to armory, Philadelphia.

Fourth Wisconsin infantry, now at Camp Douglas, Wis.

Eighteenth Pennsylvania infantry, from Camp Meade to armory, Pittsburgh.

Second Alabama infantry, from Jacksonville to Mobile.

Third United States volunteer cavalry, from Chickamanga to Old Fort, Omaha.

Second Massachusetts infantry, from Montauk to Farmington, Mass.

First Pennsylvania infantry, from Knoxville to armory, Philadelphia.

Second Pennsylvania infantry, from Mont Chantier, Del., to armory, Philadelphia.

First New Jersey infantry, from Camp Alger to Sea Girt, N. J.

The First South Carolina from Jacksonville, Fla., to Columbia, S. C.

Secretary Alger yesterday directed the adjutant general of the United States to take charge of the sick soldiers and place them in hospitals, the expense to be borne by the United States.

A statement prepared at the war department shows that 83 or the organizations in the volunteer army have received orders looking to their being mustered out. This includes 53 regiments and a number of minor organizations, such as batteries of artillery, independent companies of cavalry, etc., and represents almost one-third of the 220,000 men called for by the president.

OHIO HOSPITAL TRAIN.

Gone Southward to Bring Back Sick Soldier Boys From the Camps in That Section.

COLUMBUS, Sept. 3.—The hospital train pulled out for the south yesterday afternoon to gather up and return to their homes the sick Ohio volunteers. Governor Bushnell was at the depot, but did not accompany the train. It is the intention to go direct to Lakeland and Fernandina, Fla., where the first soldiers will be taken on board. The train will return by way of Huntsville, Ala., Chickamanga and Knoxville, and will visit any other points where there may be sick Ohioans. It is expected that the trip will occupy six days.

The train was composed of 14 cars, having on board Surgeon General J. E. Lowe, in command, and representing Governor Bushnell; physicians and nurses from Columbus, Dayton and Toledo, and one physician each from Cleveland and Sandusky. The seats had been removed from all the day coaches, 250 cots being substituted. Ample supplies were taken and the sick will be well cared for.

CINCINNATI, Sept. 3.—The Ohio hospital train from Columbus arrived here yesterday and was transferred from the Pennsylvania to the Queen and Crescent railroad, enroute to Florida. It will stop at Chickamanga, Knoxville, Lexington and other camps on the return, picking up all Ohioans in the hospitals that can be moved. Many physicians and nurses were ready here to join the train, but Dr. Lowe, representing Governor Bushnell, did not desire additional help.

FOR HOSPITAL TRAIN.

Generous Kentucky Woman Offered to Head List of Contributions For Her State Soldiers.

FRANKFORT, Ky., Sept. 3.—The first private offer contribution to the expenses of the hospital train fund came in a letter to Governor Bradley Thursday night. It was from Mrs. G. Holzhauser of Newport. She said: "If you have no money in the state treasury, why not appeal to the citizens in general for every one to give what they are able to defray the expense of bringing these poor neglected boys home."

"I have no one in the army, but I have been helping the poor women and children of our gallant Sixth infantry ever since they left here, and I am ready to head the list with \$100 to bring the poor boys back."

Dr. Swallow Talked on Prohibition.

WILLIAMS GROVE, Pa., Sept. 3.—The twenty-fifth annual gathering of the State Grangers came to a close at this place yesterday. Prohibition day was yesterday and Rev. Dr. S. C. Swallow was the principal speaker at the afternoon gathering. He deviated from his

topic at one point to touch on Quayism, but in the main confined his remarks to the cause of Prohibition.

PRESIDENT HONORED DEAD.

Met Detail of Seventy-First New York Escorting Remains of Two Heroes to Their Graves.

NEW YORK, Sept. 3.—While on its way to Fifth Avenue hotel yesterday afternoon, the carriage containing President McKinley, Vice President Hobart and Private Secretary Porter met a detail of the Seventy-first regiment escorting the remains of Corporals Sheid and Immen, who were killed in the charge of San Juan hill, to the cemetery.

With reverential respect the president and his party removed their hats. The president's head was lowered and he seemed to be deeply affected by the spectacle. The president's carriage followed the funeral cortege a couple of blocks down Fifth avenue below the hotel and then returned.

Both Satisfied.

Hicks—Wheeler and Brassey met for the first time yesterday, and they got on together famously. They kept up their talk until late in the evening.

Wicks—What were they talking about?

Hicks—Bicycles and golf.

Wicks—But Wheeler doesn't know the first thing about golf.

Hicks—Neither does Brassey know anything about bicycling. But that makes no difference. Each kept it up on his favorite topic without listening to the other.—Boston Transcript.

President Greeted Naval Reserves.

NEW YORK, Sept. 3.—President McKinley was on the balcony of the Fifth Avenue hotel fanning himself with his hat yesterday afternoon when the naval reserves from the Yankee passed. He jumped to his feet and clapped his hands, and, when the tars presented arms, bowed in answer to their salute. The sailors were surprised and delighted at being reviewed by the president.

No Prosecutions to Occur.

WASHINGTON, Sept. 3.—It was announced at the treasury department yesterday that there would be no prosecutions, as the outcome of recent investigations of the manner in which several thousand bonds were subscribed for in New York.

No Fusion in Wisconsin.

MILWAUKEE, Sept. 3.—The failure of the Democratic state convention to fuse with the Populists on a joint ticket will result in the Populist ticket being placed on the official ballot with the other state tickets. All hopes for fusion are now shattered.

First Lesson.

"What is the first thing to do in order to equip myself for service in our navy?" inquired the Spanish youth.

"Well, replied a member of the cabinet, 'for a starter I should advise you to take swimming lessons.'—Washington Star.

Thomas P. Ryder Dead.

WILKESBARRE, Pa., Sept. 3.—Thomas P. Ryder, a well-known newspaper man of Wilkesbarre, died at Lexington, Ky., yesterday of typhoid fever. He was aged 38 years and went south with the Ninth Pennsylvania regiment as a special correspondent of the Wilkesbarre Record. Later he became brigade clerk in the army.

Recognized Ryan Faction.

PHILADELPHIA, Sept. 3.—The executive committee of the Democratic state committee last night adopted a resolution recognizing the committee of which City Commissioner Thomas J. Ryan is chairman.

International Conference Adjourned.

QUEBEC, Sept. 3.—The international conference has adjourned until Sept. 20.

Weather Forecast.

Threatening; thunderstorms in the afternoon; showers and probably cooler Sunday afternoon; light southerly winds.

TO SUGGEST A NEW LAW

Doctor Reager Would Have
All Saloon Loiterers

PUNISHED WITH THE KEEPER

He Has Invited the Board of Education
and Teachers and Scholars of the Public
schools to Be Present—All the News of
Wellsville.

Doctor Reager has announced that he
will tomorrow evening deliver a ser-
mon in which temperance will have an
important place. The board of educa-
tion, teachers and scholars of the public
schools are invited to be present.

It is the purpose of Doctor Reager
during the evening to suggest the enact-
ment of a new law by council, and the
congregation will be asked to vote upon
the suggestion. The proposed ordinance
is to cover all persons found loitering
in a saloon when the proprietor is break-
ing the Sunday law as it now stands.
The enactment of such an ordinance
would doubtless decrease the patronage
of any saloon doing business on Sunday.

The Bicycle Races.

Considerable interest is aroused over
the bicycle races arranged to come off
this evening. At 10 o'clock this morn-
ing Clare Stall, Gaines Apple, Clyde
Sinclair, Henry Goetz and Charles Mc-
Gregor had entered. The race will be a
handicap with McGregor as scratch
man. Five o'clock is the hour set for
starting. M. Shingler furnishes both
prizes, a medal and a L. A. W. pin.

Threw Out the Stove.

This morning a fire occurred at the
residence of J. W. Riley, Fifth street.

The drapery of a window near a gas-
oline stove became ignited, and as Miss
Dora Thomas, a domestic in the family,
was endeavoring to put out the flames
the stove was upset and for a time it
looked as though results would be disas-
trous. Fortunately W. J. Johnson and
A. C. Fogo were passing the house and
promptly removed the stove, and the
fire was extinguished. No one was se-
riously burned.

The Churches.

First Presbyterian church, H. W.
Lowry, pastor—Services will be held at
the regular hour in the morning, sub-
ject, "Peace." No service in the even-
ing.

Services are expected as usual in the
Christian church conducted by the
pastor, H. N. Miller.

Methodist Episcopal church, J. S.
Reager, pastor—The last communion
service of the conference year will be
held at the usual time for morning ser-
vice. In the evening a special service
will be held in the interest of our
schools, our teachers and our children.

Methodist Protestant church, C. W.
Stephenson, pastor—In the pastor's ab-
sence Mr. Steele, of East Liverpool, a
student of Adrian college, will fill the
pulpit in the evening. The regular
church service will be omitted.

United Presbyterian church, W. A.
Littell, pastor—Morning subject, "Kept
by the Power of God;" evening subject,
"Wisdom to Count Our Days."

The News of Wellsville.

Reverend McKee's new residence is
completed and is being furnished. The
family expect to move in by the middle
of next week.

G. A. McKim, of Martin's Ferry, was
in town yesterday.

Mrs. B. Rand is now convalescing
from gastritis from which she has been
suffering for the past month.

Assistant Trainmaster Keck, who has
been out of town attending to railroad
business, returned yesterday.

Mrs. H. A. Sterritt spent yesterday in
Steubenville.

Dick Haugh took in the races at Steu-
benville yesterday.

Mrs. Ann Henderson, Main street,
who has been in a precarious condition
owing to a fall received a few weeks
ago, is at last improving, and her many
friends now rejoice with her in the hope
of regaining her usual strength and
activity.

Only five members of the Wellsville
Improvement company were present at
the adjourned meeting held last even-
ing. If any business was done not one
member present will say a word about it
this morning.

A general gathering of the clans is
taking place preparatory to the starting
of school. Both teachers and scholars
are arriving on every train.

Mrs. D. W. Manchester, of Cleveland,
is visiting her father, Mr. John Eidenier,
Commerce street.

Low Rates and Best Route For National
Encampment.

The Thirty-second Annual National
encampment of the Grand Army of the
Republic at Cincinnati, Sept. 5 to 10,
will be a highly interesting event. The
war with Spain which has just termin-
ated in glorious victory for the Stars and
Stripes will imbue the old soldiers with
a stronger love for the flag under whose
folds they will gather by thousands
to make this year's encampment a
grand jubilee, in which the veterans of
1861-'65 will be joined by the volunteers
of 1898.

The exceptional low rate of one cent
per mile over the Pennsylvania short
lines will enable thousands to enjoy the
occasion at slight expense. Tickets over
that route will be sold Sept. 3, 4, 5 and
6, with return limit covering Sept. 13.
By special arrangement the return limit
may be extended until Oct. 2, inclusive,
which will allow ample time for side
trips. The various lines diverging from
Cincinnati will sell special excursion
tickets to points east, north, west and
south of that city, affording opportunity
for visits and sight-seeing trips at low
fare.

The regular train service will be aug-
mented by special trains as may be nec-
essary, and the Pennsylvania system's
record for expeditions and satisfactory
transportation facilities on such occa-
sions may be taken as a guarantee that
everything will be done to make passen-
gers comfortable and happy.

UNION PAPERS.

All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Label at the head of their columns

Monday being Labor day and a legal holiday there will be no issue of the News Review. All the news Tuesday.

It is sincerely hoped that all the people of East Liverpool will join heartily in the celebration of Labor day. The law makes it a day of rest, and it should be observed by everybody.

The yellow newspapers still appear to themselves in a halo of glory, but that glory is not the bright and shining thing it was when the war began. The American public is sick and tired of fakes.

The death of Private Switzer is indeed sad. He saw no fighting, but he obeyed the orders of his superior officers, did all that a good soldier could do, and as truly gave his life to his country as though he had been shot down in the heat of battle. Peace to his ashes.

If the Democrats are determined to make the war a political issue they should bear in mind that the Republicans will not catch the hot end of the poker. There were some actions on the part of Democratic members of congress soon after war was declared which will not stand the closest investigation by a patriotic people.

Now they want to nominate Mayor Ed Moore, of Youngstown, for governor. His friends probably realize that it would be a waste of time and money to put him in the congressional race against Hon. R. W. Taylor, but hope to gain him prominence by the gubernatorial boom. If being known as a good fellow is worth anything in politics the genial Edward will likely be heard of when the Democratic hosts gather next year.

ANOTHER LIBEL.

The Pittsburg newspaper which charged East Liverpool's soldiers with looting a jewelry store in Santiago, continues to libel the Eighth Ohio in the most industrious manner. The last appeared this morning in the report from Montauk. It refers to the visit of President McKinley:

"All of the 'President's Own' who are able were busy today cleaning up their clothes and polishing their arms in anticipation of the visit. But this was done in a listless, don't-care sort of way, indicating that the men's minds were on something entirely foreign."

The friends of the Eighth will read the observation with little thought of taking it as truth. The regiment has gained distinction as the "President's Own," and it is not now, after all these weeks of hardship and suffering, preparing to do anything but cover itself with additional glory. The Eighth recognizes the President's interest in its welfare.

Vacating His Office.

LISBON, Sept. 3.—[Special]—Treasurer Cameron is moving his personal effects from the office in the courthouse, preparing to give possession to Treasurer Smith next Monday. Mr. Cameron has a record of every official act he did. Should any question arise he knows just where to get the needed information.

Soldiers of the Tenth Supported the Rebels.

NO ANSWERING SHOTS FIRED

Wild Marksmanship of the Spaniards. How Ingenious Ones Improved Upon the Arrangements Made by the Government. Dog Tents Not the Most Comfortable Place in the World—An Interesting Letter From Captain Palmer.

MANILA, CAMP DEWEY WITHIN FIVE MILES OF THE CITY PROPER, July 28.—I have only time for a line to catch the mail for the United States.

We have been on duty close up to the insurgent lines, and have been subjected to a hot fire, arrived at the rifle pits but more calculated to do the Americans harm than the rebels, or Philipinos, as we term them. We were not permitted to return the enemy's fire as we were merely backing up the insurgents and seeing that the Spaniards did not break from the citadel, where they are cooped up to the number of about 11,000. Near 5,000 prisoners have already been captured by the insurgents.

General Merritt has just arrived with the third expedition and we are awaiting the arrival of the fourth expedition, after which Merritt and Dewey may make Rome howl.

I have some relics from the wreck of the Reina Christina, the flagship of the Dons, which Dewey sank, along with the rest of the Spanish vessels. I have been ashore at Cavite and don't care to repeat the performance. The natives are dirty and filthy and a clean man hates to come in contact with them. The streets are very narrow, permitting the two wheeled vehicles, drawn by diminutive ponies, to pass one another, and that is about all. Dogs and babies abound, while fleas and mosquitos hold control. The fruits, in so far as we have seen them, are not good "seconds." Poor bananas, poor pineapples, poor oranges. Ground very fruitful and rich, all the way down to ocean level, but natives too lazy and shiftless to work it for results. A live Yankee could make a fortune, in case he desired to live in this miserable country.

We are in condition, so far as possible, to reside in comfort. The "dog tents" issued by the government will accommodate two men, and roast them to death in a sitting posture on the hot sand. Corporal John Daniels and myself are messmates. I invested about \$1 of our money for a bamboo cot, and we raised the same about 2½ feet from the ground by the use of four stout corner poles; then we secured a long center pole of dried bamboo, erected two end stakes, three feet in the ground and 5½ feet in the atmosphere, and made our ridge pole; then we erected three side stakes, spread our dog tents over this, closed the rear of the tent, added our two gum blankets to the front, along the ridge pole of dried bamboo, and we now have a tent which is the envy of many of the other boys; most of our boys are putting up tents of different patterns, while the lazy and shiftless customers, always found in every company, sweat and swelter and growl.

We dare not drink the water, on account of the fever germs. It is clear as crystal and nice to the taste, but has been branded dangerous, and the flat has gone forth from military headquarters: "All drinking water MUST be boiled." We have the cooks boil in the afternoon or evening, then fill our canteens and hang them up in the shade over night, and the water is passably cool the next morning, tasting of smoke very sadly, but quite wet. Oh, how we sometimes long for a good drink of spring or well water, and we are forced to admit that "we never miss the water 'till the well runs dry." It is raining almost every day and raining very hard, and we are informed by the natives, through our company interpreter, that "it will only last about six weeks." Quite a comforting assurance, is it not? Do you imagine that we are lazy and shiftless? Look at this daily routine:

So you see we are kept quite busy. In the afternoon we have it comparatively easy, as the heat is very intense and too much exertion is actually dangerous.

Dewey and Merritt form a strong combination. With the monitors Monterey and Monadnock in harbor, we can laugh to scorn any effort of the Spaniards on the water, while we can easily handle any force they may pit against us on land. We are anxiously awaiting the order for an advance on Manila, and ere this reaches you an engagement may have settled matters. The natives remain comparatively quiet during the daytime, but open up with artillery and infantry after nightfall, keeping it up all night and certainly rendering the Spaniards uneasy. Thus far, the insurgents have had plenty of guns and ammunition, articles supplied them by Dewey from the wrecks of the Spanish vessels. Then the insurgents have also taken a hand in capturing about four or five thousand Spaniards, thus securing much ammunition and a large number of Mauser rifles. The natives profess to love the "Americanos," and cordially hate the Spaniard, making motions indicative of cutting the throats of the latter whenever you mention them.

But this condition of affairs may soon cease, in case the Yankee finds it necessary to take possession of the Philippines for his own use. Then the stern mandate of war will demand that fire and torch and galling and maxium and heavy shot and shell shall do their deadly work. I have made a slight tour of the island and have been amazed at the condition of affairs. You enter what looks like a complete forest of small trees, expecting to find privacy, and you find, in reality, a complete system of small roads and bypaths, with bamboo huts and inhabitants on every hand, so densely packed as to cause you to wonder how in the name of common sense how they manage to exist. The men are small in stature, but are tough and wiry customers. The women are passably good looking in their teens, but become hideous as they grow older, it being a rare feature to see a woman of middle age with good teeth.

Remember me kindly to one and all of the friends in East Liverpool and the surrounding country. We shall try to do our full duty and take care of dear Old Glory and that which she represents, God and Humanity. I often wonder how Sergeant Frank Leslie Trump and the comrades of Company E are getting along. I hope that Captain Hill will make a command which will cover itself and East Liverpool with glory. "God be with you till we meet again." Give my best to the boys and girls of the NEWS REVIEW force.

JOHN HAY IN COLLEGE.

How the Ambassador Rescued Members of His Fraternity From Ignoble Deaths.

While in Brown university Embassador Hay, who will shortly become secretary of state, was an enthusiastic Theta Delt. He soon became universally beloved by the members of his chapter, who elected him presiding officer in the beginning of his senior year. He also composed several songs for the fraternity, one of which closes with those lines sung with so much effect at every reunion, but especially at the memorable one of 1870:

And if, perchance, one sadder line
 May mingle with the strain
 For those, the lost, whose loving voice
 We ne'er shall hear again
 Let this rejoice the heavy heart
 And light the dimming eye—
 The gates of Eden are not closed
 To Theta Delta Chi.

Neither was this enthusiasm laid aside with the commencement gown. Although college halls have long ceased to echo his footsteps his memories of Theta Delta Chi are still green. Thus on two occasions, while private secre-

tary to the president, he was the means of rescuing members of the fraternity from ignominious deaths. The first of these instances was told by Brother Gilbert in his admirable "Reminiscences" in an old number of The Shield. The second was his well known agency in the case of another Confederate brother, who, by a misunderstanding, was supposed to have broken his parole. He was taken, among others of Morgan's guerrillas, and would have been executed had not the findings of the court martial, forwarded to President Lincoln for his approval, passed through Hay's hands. Seeing who it was that was in such a predicament, he at once went to the president and obtained the brother's pardon.—William L. Stone in Shield.

The friends of the Eighth will read
 the observation with little thought of
 taking it as truth. The regiment has
 gained distinction as the "President's
 Own," and it is not now, after all these
 weeks of hardship and suffering, prepar-
 ing to do anything but cover itself with
 additional glory. The Eighth recognizes
 the President's interest in its welfare.

NO ANSWERING SHOTS FIRED

Wild Marksmanship of the Spaniards.
 How Ingenious Ones Improved Upon the
 Arrangements Made by the Government.
 Dog Tents Not the Most Comfortable
 Place in the World—An Interesting
 Letter From Captain Palmer.

MANILA, CAMP DEWEY WITHIN FIVE
 MILES OF THE CITY PROPER, July 28.—I
 have only time for a line to catch the
 mail for the United States.

We have been on duty close up to the
 insurgent lines, and have been sub-
 jected to a hot fire, arrived at the rifle
 pits but more calculated to do the
 Americans harm than the rebels, or
 Philipinos, as we term them. We were
 not permitted to return the enemy's fire
 as we were merely backing up the in-
 surgents and seeing that the Spaniards
 did not break from the citadel, where
 they are cooped up to the number of
 about 11,000. Near 5,000 prisoners have
 already been captured by the insurgents.

General Merritt has just arrived with
 the third expedition and we are await-
 ing the arrival of the fourth expedition,
 after which Merritt and Dewey may
 make Rome howl.

I have some relics from the wreck of
 the Reina Christians, the flagship of
 the Dons, which Dewey sank, along
 with the rest of the Spanish vessels. I
 have been ashore at Cavite and don't
 care to repeat the performance. The
 natives are dirty and filthy and a clean
 man hates to come in contact with
 them. The streets are very narrow,
 permitting the two wheeled vehicles,
 drawn by diminutive ponies, to pass one
 another, and that is about all. Dogs
 and babies abound, while fleas and
 mosquitos hold control. The fruits, in
 so far as we have seen them, are not
 good "seconds." Poor bananas, poor
 pineapples, poor oranges. Ground very
 fruitful and rich, all the way down to
 ocean level, but natives too lazy and
 shiftless to work it for results. A live
 Yankee could make a fortune, in case
 he desired to live in this miserable coun-
 try.

We are in condition, so far as
 possible, to reside in comfort. The "dog
 tents" issued by the government will
 accommodate two men, and roast them
 to death in a sitting posture on the hot
 sand. Corporal John Daniels and my-
 self are messmates. I invested about \$1
 of our money for a bamboo cot, and we
 raised the same about 2½ feet from the
 ground by the use of four stout corner
 poles; then we secured a long center
 pole of dried bamboo, erected two end
 stakes, three feet in the ground and 5½
 feet in the atmosphere, and made our
 ridge pole; then we erected three side
 stakes, spread our dog tents over this,
 closed the rear of the tent, added our
 two gum blankets to the front, along
 the ridge pole of dried bamboo, and we
 now have a tent which is the envy of
 many of the other boys; most of our
 boys are putting up tents of different
 patterns, while the lazy and shiftless
 customers, always found in every com-
 pany, sweat and swelter and growl.

We dare not drink the water, on ac-
 count of the fever germs. It is clear as
 crystal and nice to the taste, but has
 been branded dangerous, and the flat
 has gone forth from military head-
 quarters: "All drinking water MUST
 be boiled." We have the cooks boil in
 the afternoon or evening, then fill our
 canteens and hang them up in the shade
 over night, and the water is passably
 cool the next morning, tasting of smoke
 very sadly, but quite wet. Oh, how
 we sometimes long for a good drink of
 spring or well water, and we are forced
 to admit that "we never miss the water
 'till the well runs dry." It is raining
 almost every day and raining very hard,
 and we are informed by the natives,
 through our company interpreter, that
 "it will only last about six weeks." Quite
 a comforting assurance, is it not? Do
 you imagine that we are lazy and
 shiftless? Look at this daily routine:

Reveille..... { First call, 4:50 a. m.

 streets for retreat.
 First call..... 6:30 p. m.
 Assembly..... 6:35 p. m.
 Tattoo..... 8:45 p. m.
 Taps..... 9:00 p. m.
 So you see we are kept quite busy.
 In the afternoon we have it compar-
 atively easy, as the heat is very intense
 and too much exertion is actually dan-
 gerous.

Dewey and Merritt form a strong
 combination. With the monitors Mon-
 terey and Monadnock in harbor, we can
 laugh to scorn any effort of the Spaniards
 on the water, while we can easily han-
 dle any force they may pit against us on
 land. We are anxiously awaiting the
 order for an advance on Manila, and ere
 this reaches you an engagement may
 have settled matters. The natives re-
 main comparatively quiet during the
 daytime, but open up with artillery and
 infantry after nightfall, keeping it up
 all night and certainly rendering the
 Spaniards uneasy. Thus far, the in-
 surgents have had plenty of guns and
 ammunition, articles supplied them by
 Dewey from the wrecks of the Spanish
 vessels. Then the insurgents have also
 taken a hand in capturing about four or
 five thousand Spaniards, thus securing
 much ammunition and a large number
 of Mauser rifles. The natives profess
 to love the "Americans," and cordially
 hate the Spaniard, making motions in-
 dicative of cutting the throats of the
 latter whenever you mention them.

But this condition of affairs may soon
 cease, in case the Yankee finds it neces-
 sary to take possession of the Philip-
 pines for his own use. Then the stern
 mandate of war will demand that fire
 and torch and galling and maiming and
 heavy shot and shell shall do their
 deadly work. I have made a slight
 tour of the island and have been amazed
 at the condition of affairs. You enter
 what looks like a complete forest of
 small trees, expecting to find privacy,
 and you find, in reality, a complete sys-
 tem of small roads and bypaths, with
 bamboo huts and inhabitants on every
 hand, so densely packed as to cause you
 to wonder how in the name of common
 sense how they manage to exist. The
 men are small in stature, but are tough
 and wiry customers. The women are
 passably good looking in their teens, but
 become hideous as they grow older, it
 being a rare feature to see a woman of
 middle age with good teeth.

Remember me kindly to one and all
 of the friends in East Liverpool and the
 surrounding country. We shall try to
 do our full duty and take care of dear
 Old Glory and that which she represents,
 God and Humanity. I often wonder
 how Sergeant Frank Leslie Trump and
 the comrades of Company E are getting
 along. I hope that Captain Hill will
 make a command which will cover it-
 self and East Liverpool with glory.
 "God be with you till we meet again."
 Give my best to the boys and girls of
 the NEWS REVIEW force.

JOHN HAY IN COLLEGE.

How the Ambassador Rescued Members of
 His Fraternity From Ignoble Deaths.

While in Brown university Embassa-
 dor Hay, who will shortly become sec-
 retary of state, was an enthusiastic
 Theta Delt. He soon became universally
 beloved by the members of his chapter,
 who elected him presiding officer in the
 beginning of his senior year. He also
 composed several songs for the frater-
 nity, one of which closes with those
 lines sung with so much effect at every
 reunion, but especially at the memor-
 able one of 1870:

And if, perchance, one sadder line
 May mingle with the strain
 For those, the lost, whose loving voice
 We ne'er shall hear again
 Let this rejoice the heavy heart
 And light the dimming eye—
 The gates of Eden are not closed
 To Theta Delta Chi.

Neither was this enthusiasm laid
 aside with the commencement gown.
 Although college halls have long ceased
 to echo his footsteps his memories of
 Theta Delta Chi are still green. Thus
 on two occasions, while private secre-

tary to the president, he was the means
 of rescuing members of the fraternity
 from ignominious deaths. The first of
 these instances was told by Brother Gil-
 bert in his admirable "Reminiscences"
 in an old number of The Shield. The
 second was his well known agency in
 the case of another Confederate brother,
 who, by a misunderstanding, was sup-
 posed to have broken his parole. He
 was taken, among others of Morgan's
 guerrillas, and would have been ex-
 ecuted had not the findings of the court
 martial, forwarded to President Lincoln
 for his approval, passed through Hay's
 hands. Seeing who it was that was in
 such a predicament, he at once went to
 the president and obtained the brother's
 pardon.—William L. Stone in Shield.

HIS LAST LONG HOME

Now Knows the Presence of Private Switzer.

HE PASSED PEACEFULLY AWAY

Soon After Last Midnight, Having Seen His Father and Mother, the One Wish He Had Expressed—Funeral Services This Evening.

Private Charles W. Switzer, of Company E, died this morning at 1:15 o'clock at the home of his brother in Fifth street from an attack of typhoid malaria, aged 25 years, a victim of the Santiago campaign.

Deceased was born in Brownsville, Monroe county, and came to the city a short time before the Eighth Ohio regiment was called to the front. When Captain Hill began enlisting new recruits Switzer was one of the first to join and stated that he felt it was his duty to go.

He was a model young man of exemplary habits, highly respected by all and was a splendid specimen of manhood, weighing 190 pounds. With the members of Company E he was a general favorite, and when he became ill many hearts in the company were made sad. This week when Dr. Hobbs went to Montauk Point he found Switzer in the detention hospital, and knowing that he could not live a day unless better cared for determined to take him. Switzer felt that he was going to die, and frequently stated that if he could just see his father and mother before he passed away he could rest in peace. When the train reached Pittsburgh an effort was made to have him enter a hospital in that city, but he firmly refused and wanted to get home to meet the ones he loved so dearly.

When he arrived here he weighed but 110 pounds and did not look like the hale and hearty soldier who left the city but a few months ago. He was taken to the home of his brother where every possible attention was given him, and the neighbors did all in their power to assist him. He began to sink and yesterday morning his father and mother arrived from Brownsville in order to be with their boy who had given his life for his country.

He was perfectly rational and after he had seen his mother and father spoke of death. When his last hour came he was ready to pass into the great beyond without a murmur, and the almost heartbroken mother and father have the satisfaction of knowing that he has gone to a happier home.

The news of his death cast a deep gloom over the city and all the flags in town were placed at half mast while many were the expressions of sorrow heard on every hand.

Deceased was a nephew of George P. Schmidt and a member of the Junior Mechanics.

The funeral services will take place this evening at 6:30 o'clock and will be in charge of the Sons of Veterans, Dr. J. C. Taggart officiating. The remains will be accompanied by two of the members of Company E, and will be taken by boat this evening to his old home for interment.

NEW DIRECTORS

Who Will Control the Destinies of the Association.

The board of directors of the Young Men's Christian association met in the parlor of the association building, last night, for the purpose of reorganization. The meeting was a very short one. The following board was elected:

For one year, George C. Murphy, Proctor Ankrum, J. C. Clements, Charles Boyce; for two years, J. J. Purinton, Robert Hall, Enoch Elden, D. M. Ogilvie and Dr. J. C. Taggart; for three years, George Sebring, A. H. Enlger, W. A. Weaver, Dr. William Calhoun.

The board will meet in the near future for the purpose of electing officers for one year. At the same meeting a new secretary will be elected and other matters pertaining to the welfare of the organization will be talked over.

The lecture course will be arranged in the near future, and will, it is said, consist of five entertainments, commencing in November and ending in March.

Read the Splendid Offering of the Banfield Land Company.

The Banfield Land company, Chester, W. Va., will now offer to the people of East Liverpool unparalleled inducements to own their own homes at hitherto unheard of prices.

This company has just purchased all of that beautiful, level land, lying between the chapel and Rock Springs and the Ohio river, containing 150 acres, and have purchased it at a very low price, and we now propose to give the public the benefits of it.

This land is regularly laid out in lots, and the plat recorded at New Cumberland, the county seat of said county. The lots are very large, being 40 feet by 140 feet in size, and fronting on 60 foot streets and 20 foot alleys. These lots we will sell from \$200 to \$350 per lot, and on terms to suit the purchaser, with six per cent interest.

Anyone wanting to build a house, we will erect the same at figures just covering its cost, and loan the party the money, at six per cent interest, and take payment in such sums as will suit the purchaser.

We also guarantee street car service to the Diamond all the year round.

SERGEANT TRUMP HOME

He Arrived With Privates Simms and Beatty.

SOMEBODY GOT HIS WATCH

While He Was Being Taken From Montauk to New York—Met Private Simms After Leaving the Hospital, and Both Secured Furloughs.

Sergeant F. L. Trump and Privates Thomas J. Beatty and Ezra Simms arrived this morning from New York.

The boys have all been ill, and are still very weak, having suffered from malaria.

Sergeant Trump when seen this morning said: "I was ill when we left the Mohawk, and was placed in the general hospital at Montauk Point, where I received the best of treatment. Carloads of milk and fruits of all kinds are coming into the camp every day. I stayed in the general hospital until Thursday morning when I was placed aboard the hospital ship Shinnecock with 217 other soldiers to be taken to New York to be distributed among the various hospitals in order to make room for another ship load of soldiers coming from Cuba. I objected to going, and when I arrived in New York was given permission to go the army and navy building to get a furlough. I did not find the officer at home and while coming out met Ezra Simms and we spent the night together in New York. Yesterday morning I got my furlough, and started for home at once. All sick soldiers are given sleeping berths.

"While on board the Shinnecock some one stole my outfit, watch and all the relics I had gathered in Cuba. I had some Spanish explosive bullets in the collection.

"Private Simms has lost the sight of his right eye, but the left eye is as good as ever. He is very weak, having had a severe attack of typhoid malaria.

"I haven't seen any of the company since I left the Mohawk and cannot tell you anything about them."

Sergeant Trump did not see his wife who had gone to Montauk Point to see him, but as the news of his departure is known there it is probable she will arrive this evening.

TOMORROW

East Liverpool Soldiers Will Start For Home.

The following telegrams were received in the city this morning. They are self explanatory.

"MONTAUK POINT, L. I., Sept. 2.—Trump, Beatty, Simms, Poole started home yesterday. Balance of sick doing well and will probably be home with company which will start Sunday. Dr. Hobbs is looking carefully after the sick and we may bring some of them home with us.

W. H. SURLER."

Doctor Hobbs telegraphed as follows: MONTAUK POINT, L. I. Sept. 3.—"Gladfelter released from quarantine hospital and started for home. Carnahan and Holloway transferred and receiving the best of care.

W. A. HOBBS, M. D."

"MONTAUK POINT, L. I., Sept. 3.—Ladies of the Red Cross, East Liverpool.—The boys of Company E express gratitude, and say God bless Red Cross society and friends East Liverpool.

W. H. SURLER."

Full of Business.

The following old time handbill issued near Lancaster, England, must have come from one who was emulating the example of the man who had five talents and made of them five talents more. Let us hope he was rewarded:

"James Williams, parish clerk, sexton, town crier and bellman, makes and sells all sorts haberdasheries, groceries, etc.; likewise hair and wigs drest and cut on shortest notice. N. B.—I keep an evening school where I teach at humble rates reading, riting and rithmetic and singing. N. B.—I play an hoobybo occasionally if wanted. N. B.—By shop next door see where I bleed, draw teeth and shoe horses with greatest skill. N. B.—Children taught to dance by me, J. Williams, who buy and sell old iron and coats; boots and shoes cleaned and mended. A ball on Wednesdays and Tuesdays."

An Immense Business.

At the freight depot yesterday an immense amount of business was handled. Not quite 20 cars were loaded and sent out from the outbound platform. An extra man was employed on the platform today on account of the large business.

Don't fail to see the latest neckwear novelty, the Protean scarf. To see is to buy one.

The Paris Bill Poster.

The bill poster of Paris is a more picturesque personage than his brother of New York. He plies his trade in all winds and weather, and he is nothing daunted by the assignment of a bleak suburban district on a rainy day.

He ties his posters—incased in a waterproof cover—across his back. He fastens on his paste pot. He mounts his bicycle. Then he opens his umbrella—for he is an expert wheelman and can manage it and his wheel at once. All over the umbrella are advertisements in little form of the article or the event which he intends to advertise in large by his posters, so his entire route is placarded, and he himself is a living advertisement.—Paris Correspondent.

Cries the Hours.

In Ely place, Holborn, the old custom of "crying the hours of the night by Charley" still exists. Charley, better known nowadays as the night watchman, has to call the hours in this spot from 11 p. m. till 5 a. m. Wet or fine, he must not neglect his duty.—London Globe.

There is a curious little Holland village in Wisconsin named Little Chute, whose chief manufacture is wooden shoes. The people there are as thoroughly Dutch as their progenitors. The town stands on the ground where Pere Marquette had his winter quarters, and where the Dutch priests instructed the Indians.

Deceased was born in Brownsville, Monroe county, and came to the city a short time before the Eighth Ohio regiment was called to the front. When Captain Hill began enlisting new recruits Switzer was one of the first to join and stated that he felt it was his duty to go.

He was a model young man of exemplary habits, highly respected by all and was a splendid specimen of manhood, weighing 190 pounds. With the members of Company E he was a general favorite, and when he became ill many hearts in the company were made sad. This week when Dr. Hobbs went to Montauk Point he found Switzer in the detention hospital, and knowing that he could not live a day unless better cared for determined to take him. Switzer felt that he was going to die, and frequently stated that if he could just see his father and mother before he passed away he could rest in peace. When the train reached Pittsburgh an effort was made to have him enter a hospital in that city, but he firmly refused and wanted to get home to meet the ones he loved so dearly.

When he arrived here he weighed but 110 pounds and did not look like the hale and hearty soldier who left the city but a few months ago. He was taken to the home of his brother where every possible attention was given him, and the neighbors did all in their power to assist him. He began to sink and yesterday morning his father and mother arrived from Brownsville in order to be with their boy who had given his life for his country.

He was perfectly rational and after he had seen his mother and father spoke of death. When his last hour came he was ready to pass into the great beyond without a murmur, and the almost heartbroken mother and father have the satisfaction of knowing that he has gone to a happier home.

The news of his death cast a deep gloom over the city and all the flags in town were placed at half mast while many were the expressions of sorrow heard on every hand.

Deceased was a nephew of George P. Schmidt and a member of the Junior Mechanics.

The funeral services will take place this evening at 6:30 o'clock and will be in charge of the Sons of Veterans, Dr. J. C. Taggart officiating. The remains will be accompanied by two of the members of Company E, and will be taken by boat this evening to his old home for interment.

NEW DIRECTORS

Who Will Control the Destinies of the Association.

The board of directors of the Young Men's Christian association met in the parlor of the association building, last night, for the purpose of reorganization. The meeting was a very short one. The following board was elected:

For one year, George C. Murphy, Proctor Ankrum, J. C. Clements, Charles Boyce; for two years, J. J. Purinton, Robert Hall, Enoch Elden, D. M. Ogilvie and Dr. J. C. Taggart; for three years, George Sebring, A. H. Bulger, W. A. Weaver, Dr. William Calhoun.

The board will meet in the near future for the purpose of electing officers for one year. At the same meeting a new secretary will be elected and other matters pertaining to the welfare of the organization will be talked over.

The lecture course will be arranged in the near future, and will, it is said, consist of five entertainments, commencing in November and ending in March.

He Arrived With Privates Simms and Beatty.

SOMEBODY GOT HIS WATCH

While He Was Being Taken From Montauk to New York—Met Private Simms After Leaving the Hospital, and Both Secured Furloughs.

Sergeant F. L. Trump and Privates Thomas J. Beatty and Ezra Simms arrived this morning from New York.

The boys have all been ill, and are still very weak, having suffered from malaria.

Sergeant Trump when seen this morning said: "I was ill when we left the Mohawk, and was placed in the general hospital at Montauk Point, where I received the best of treatment. Carloads of milk and fruits of all kinds are coming into the camp every day. I stayed in the general hospital until Thursday morning when I was placed aboard the hospital ship Shinnecock with 217 other soldiers to be taken to New York to be distributed among the various hospitals in order to make room for another ship load of soldiers coming from Cuba. I objected to going, and when I arrived in New York was given permission to go the army and navy building to get a furlough. I did not find the officer at home and while coming out met Ezra Simms and we spent the night together in New York. Yesterday morning I got my furlough, and started for home at once. All sick soldiers are given sleeping berths.

"While on board the Shinnecock some one stole my outfit, watch and all the relics I had gathered in Cuba. I had some Spanish explosive bullets in the collection.

"Private Simms has lost the sight of his right eye, but the left eye is as good as ever. He is very weak, having had a severe attack of typhoid malaria.

"I haven't seen any of the company since I left the Mohawk and cannot tell you anything about them."

Sergeant Trump did not see his wife who had gone to Montauk Point to see him, but as the news of his departure is known there it is probable she will arrive this evening.

HIS LAST LONG HOME

Now Knows the Presence of Private Switzer.

HE PASSED PEACEFULLY AWAY

Soon After Last Midnight, Having Seen His Father and Mother, the One Wish He Had Expressed—Funeral Services This Evening.

Private Charles W. Switzer, of Company E, died this morning at 1:15 o'clock at the home of his brother in Fifth street from an attack of typhoid malaria, aged 25 years, a victim of the Santiago campaign.

Deceased was born in Brownsville, Monroe county, and came to the city a short time before the Eighth Ohio regiment was called to the front. When Captain Hill began enlisting new recruits Switzer was one of the first to join and stated that he felt it was his duty to go.

He was a model young man of exemplary habits, highly respected by all and was a splendid specimen of manhood, weighing 190 pounds. With the members of Company E he was a general favorite, and when he became ill many hearts in the company were made sad. This week when Dr. Hobbs went to Montauk Point he found Switzer in the detention hospital, and knowing that he could not live a day unless better cared for determined to take him. Switzer felt that he was going to die, and frequently stated that if he could just see his father and mother before he passed away he could rest in peace. When the train reached Pittsburgh an effort was made to have him enter a hospital in that city, but he firmly refused and wanted to get home to meet the ones he loved so dearly.

When he arrived here he weighed but 110 pounds and did not look like the hale and hearty soldier who left the city but a few months ago. He was taken to the home of his brother where every possible attention was given him, and the neighbors did all in their power to assist him. He began to sink and yesterday morning his father and mother arrived from Brownsville in order to be with their boy who had given his life for his country.

He was perfectly rational and after he had seen his mother and father spoke of death. When his last hour came he was ready to pass into the great beyond without a murmur, and the almost heartbroken mother and father have the satisfaction of knowing that he has gone to a happier home.

The news of his death cast a deep gloom over the city and all the flags in town were placed at half mast while many were the expressions of sorrow heard on every hand.

Deceased was a nephew of George P. Schmidt and a member of the Junior Mechanics.

The funeral services will take place this evening at 6:30 o'clock and will be in charge of the Sons of Veterans, Dr. J. C. Taggart officiating. The remains will be accompanied by two of the members of Company E, and will be taken by boat this evening to his old home for interment.

FORTY KNOTS AN HOUR.

A Boat That Can Cross the Atlantic in Three Days.

Among the bidders for the contract of building the new torpedo boat destroyers for the United States navy is Richard Peyton of Williamsport. His bid attracts special attention because he proposes to build boats which are to have a speed of 40 knots an hour. This is five knots faster than any other boat now afloat. There has been considerable speculation concerning the methods by which Mr. Peyton expects to attain such a marvelous feat in marine engineering. Members of Mr. Peyton's firm say he will use electrical motors and a new system of propellers, operated from a switchboard and ranged along the side and stern of the vessel.

The only boat at all approaching the proposed speed is the Turbinia, an English boat. She has a speed of 35 knots, but was not designed for naval use. When Mr. Peyton's offer was made public, engineers thought perhaps he intended to model his boats after the Turbinia, which itself marks a new triumph for marine engineers.

The Turbinia, whose inventor, Mr. Parsons, expects to be able to cross the Atlantic in three days, is now the fastest vessel of any description afloat. With ordinary draft she can run away from the fastest torpedo boats, making 24 knots an hour. Under forced draft the Turbinia can make 35 knots an hour. Her coal will last for three hours only, but in that time she can steam more than 100 miles.

The Turbinia is 100 feet long, with a beam of 9 feet, and carries a crew of 10. She has 2,100 horsepower, can produce 30,000 pounds of steam an hour and has a pressure of 225 pounds a square inch in her water tube boilers. Her three propeller shafts have each three screws, several feet apart. These screws revolve 2,500 times a minute without causing perceptible vibration. The engines can be raised to full speed from a standstill in 30 seconds.

Mr. Parsons calculates that a 15,000 ton liner, furnished with steam turbine motors, can cross the Atlantic in three days. The coal consumption would be 1,500 tons daily, but the extra coal bunker room required will be offset by the smaller space devoted to the machinery. Such a vessel could carry as many passengers and as much cargo as a vessel of the same tonnage propelled by the ordinary machinery. Mr. Parsons speaks of 12 minute trips from the Battery to Staten Island in small turbine motor boats as practicable.—New York Journal.

HIS TACTICS A MISTAKE.

A Ruse That Cost The Finder of a Check Dollars.

A messenger employed by one of the large banking houses in Wall street, New York, lost a certified check for \$35,000 which he had been sent to deliver the other day. The first intimation that the bankers received of this loss came a few minutes after the messenger had left from a seedy looking fellow who asked for one of the members of the firm. The clerks tried to stave him off, but he insisted that his business was private and important. To the banker he said:

"You have lost a certified check for \$35,000."

"How do you know that?" asked the banker calmly.

"I saw a man pick it up."

Knowing that such a check had been sent out and suspecting that the seedy man had found it the banker stepped into an inside office and notified by telephone the bank on which it had been drawn to stop payment on it if it should be presented there. Then he returned to the seedy man and said:

"How did you know it was our check?"

"I was so near the man who picked it up that I could read it," said the seedy man, with visions of a big reward.

"All right," replied the banker. "We are much obliged to you," and the seedy man stumbled out somewhat dazed at the calmness with which his information was received. Five minutes later another man, equally seedy in appearance, walked into the office and announced that he had found a check for \$35,000 belonging to the firm. He handed it over, and a reward of \$5 was given to him. If he had not tried to fool the bankers by sending his partner ahead, he might have been better paid for his find.

Fines For Heroism.

The yearly salary of Captain Clark of the Oregon is \$4,500 while at sea. Now that he has been forced to request a sick leave he will be paid at the rate of \$2,800. In other words, the gallant captain who brought his battleship on a record breaking trip from San Francisco in time to take the principal part in smashing Cervera's fleet will contribute to the government \$1,700 of his pay, or a proportionate amount for the time he is absent from sea duty. This rule does not apply alone to Captain Clark. It affects every man in the navy, from rear admiral to boatswain. It is the law. This law of course was to meet the needs of a peace basis. It can have no just relation to the present state of affairs. Congress should promptly amend the statute, and if the government cannot afford to increase the pay of these gallant men let them be paid in full for the time of their sick leave.—New York

Summer in Colorado.

Colorado is particularly inviting as a summer haven. The climate is remarkable for its invigorating effect, and the state is rich in grand scenery and points of interest where a vacation may be pleasantly spent. Special arrangements are being made for the entertainment of visitors who are this season expected to be attracted to the seclusion and quiet of the Rockies and the hills and canyons of that great wonderland.

Colorado today is nearer home than in former years. The fast schedules of the Pennsylvania route and connecting lines bring the centennial state within easy reach, and the cost of a trip thither is no longer a luxury. The special low rate tourist tickets over the Pennsylvania lines places the cost for transportation within the limit of the usual allowance for vacation trips. For special information about rates, time of trains and other details please apply to nearest Pennsylvania lines ticket agent or address J. K. Dillon, D. P. agt., Pittsburgh, Pa. *

Excursion via Pennsylvania Lines.

Excursion tickets to Traverse City, Petoskey and Mackinac Island, the most popular resorts in Northern Michigan, will be sold via Pennsylvania Lines, Tuesday, Sept. 6th. The round trip rate from East Liverpool will be \$10 to Petoskey or Traverse City, and \$11 to Mackinac Island. Tickets will be good going on regular trains on the dates specified and good returning 30 days. For special information on the subject apply to Ticket Agent Adam Hill at East Liverpool, O. *

Summer havens.

Illustrated information about America's popular summer resorts is being distributed by passenger and ticket agents of the Pennsylvania Lines. It includes descriptions of leading places of summer sojourn along the ocean, in the mountains of the east, and in the lake region and Northern Michigan, all of which are within easy reach over the Pennsylvania route. For a copy please apply to the nearest Pennsylvania lines ticket agent, or address your requests to J. K. Dillon, district passenger agent, Pittsburgh, Pa.

Take Your Choice.

An excursion to those popular northern Michigan resorts will run via Pennsylvania lines Tuesday, Sept. 6th. See Adam Hill, ticket agent, East Liverpool, about it. *

UNION LABELS.

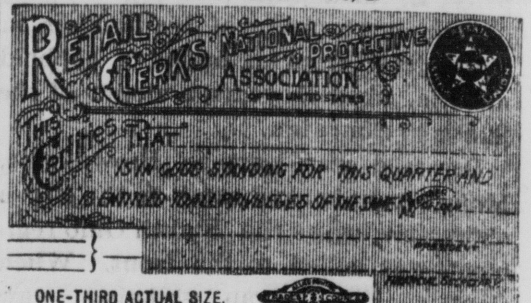

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours, and union labor employed.

PATRONIZE UNION CLERKS.

All members of the R. C. N. P. A. can show this card. Ask for it when making your purchases.

ONE-THIRD ACTUAL SIZE.

COLOR IS CHANGED EACH QUARTER.

Good only during months named in lower left hand corner and when properly signed, and STAMPED with the number of the Local.

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union made hat before it leaves the workman's hands. If a dealer takes a label from one hat and places it in another, or has any detached labels in his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product of scab or non-union labor.

UNION MADE CLOTHES.

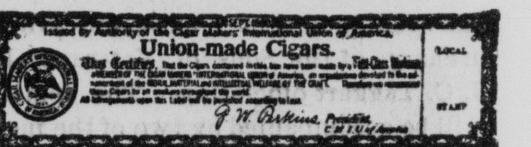

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

BICYCLE LABEL.

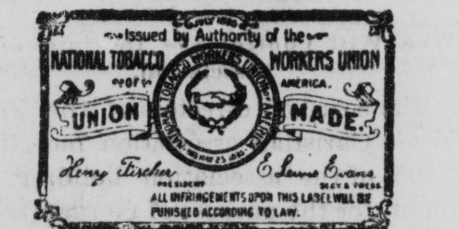

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold. The Label will be placed on the upper front side of the tube that receives the seat post.

BLUE LABEL CIGARS.

This label is printed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U. S. revenue label on the box, as the latter is nearly of a similar color.

TOBACCO LABEL.

The above Label, printed on blue paper, will be found on all plug tobacco and on the wrappers of chewing tobacco manufactured in union tobacco factories.

UNION BREAD AND CRACKERS.

This is a full size facsimile of the Label of the Bakers' and Confectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions, and in clean and healthy bakeries. Following is the confectioners' and cracker Label:

A Ruse That Cost The Finder of a Check Dollars.

A messenger employed by one of the large banking houses in Wall street, New York, lost a certified check for \$35,000 which he had been sent to deliver the other day. The first intimation that the bankers received of this loss came a few minutes after the messenger had left from a seedy looking fellow who asked for one of the members of the firm. The clerks tried to stave him off, but he insisted that his business was private and important. To the banker he said:

"You have lost a certified check for \$35,000."

"How do you know that?" asked the banker calmly.

"I saw a man pick it up."

Knowing that such a check had been sent out and suspecting that the seedy man had found it the banker stepped into an inside office and notified by telephone the bank on which it had been drawn to stop payment on it if it should be presented there. Then he returned to the seedy man and said:

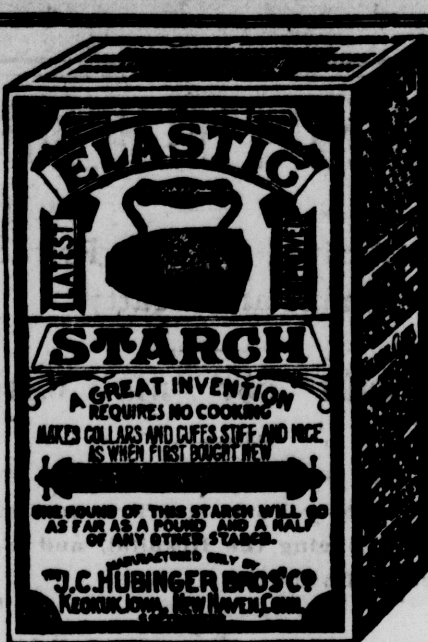

"How did you know it was our check?"

"I was so near the man who picked it up that I could read it," said the seedy man, with visions of a big reward.

"All right," replied the banker. "We are much obliged to you," and the seedy man stumbled out somewhat dazed at the calmness with which his information was received. Five minutes later another man, equally seedy in appearance, walked into the office and announced that he had found a check for \$35,000 belonging to the firm. He handed it over, and a reward of \$5 was given to him. If he had not tried to fool the bankers by sending his partner ahead, he might have been better paid for his find.

Fines For Heroism.

The yearly salary of Captain Clark of the Oregon is \$4,500 while at sea. Now that he has been forced to request a sick leave he will be paid at the rate of \$2,800. In other words, the gallant captain who brought his battleship on a record breaking trip from San Francisco in time to take the principal part in smashing Cervera's fleet will contribute to the government \$1,700 of his pay, or a proportionate amount for the time he is absent from sea duty. This rule does not apply alone to Captain Clark. It affects every man in the navy, from rear admiral to boatswain. It is the law. This law of course was to meet the needs of a peace basis. It can have no just relation to the present state of affairs. Congress should promptly amend the statute, and if the government cannot afford to increase the pay of these gallant men let them be paid in full for the time of their sick leave.—New York

UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours, and union labor employed.

PATRONIZE UNION CLERKS.

All members of the R. C. N. P. A. can show this card. Ask for it when making your purchases. Endorsed by the A. F. of L.

ONE-THIRD ACTUAL SIZE.

COLOR IS CHANGED EACH QUARTER.

Good only during months named in lower left hand corner and when properly signed, and STAMPED with the number of the Local.

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union-made hat before it leaves the workman's hands. If a dealer takes a label from one hat and places it in another, or has any detached labels in his store, do not buy from him, as his labels may be the product of scab or non-union labor.

UNION MADE CLOTHES.

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

BICYCLE LABEL.

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold. The Label will be placed on the upper front side of the tube that receives the seat post.

BLUE LABEL CIGARS.

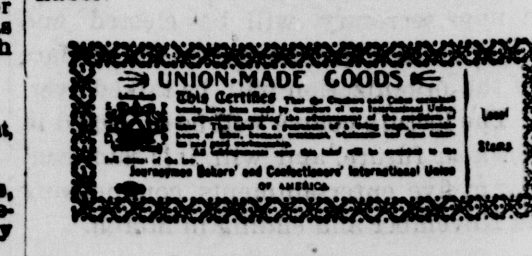

This label is printed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U. S. revenue label on the box, as the latter is nearly of a similar color.

TOBACCO LABEL.

The above Label, printed on blue paper, will be found on all plug tobacco and on the wrappers of chewing tobacco manufactured in union tobacco factories.

UNION BREAD AND CRACKERS.

This is a full size facsimile of the Label of the Bakers' and Confectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions, and in clean and healthy bakeries. Following is the confectioners' and cracker Label:

FORTY KNOTS AN HOUR.

A Boat That Can Cross the Atlantic in Three Days.

Among the bidders for the contract of building the new torpedo boat destroyers for the United States navy is Richard Peyton of Williamsport. His bid attracts special attention because he proposes to build boats which are to have a speed of 40 knots an hour. This is five knots faster than any other boat now afloat. There has been considerable speculation concerning the methods by which Mr. Peyton expects to attain such a marvelous feat in marine engineering. Members of Mr. Peyton's firm say he will use electrical motors and a new system of propellers, operated from a switchboard and ranged along the side and stern of the vessel.

The only boat at all approaching the proposed speed is the Turbinia, an English boat. She has a speed of 35 knots, but was not designed for naval use. When Mr. Peyton's offer was made public, engineers thought perhaps he intended to model his boats after the Turbinia, which itself marks a new triumph for marine engineers.

The Turbinia, whose inventor, Mr. Parsons, expects to be able to cross the Atlantic in three days, is now the fastest vessel of any description afloat. With ordinary draft she can run away from the fastest torpedo boats, making 24 knots an hour. Under forced draft the Turbinia can make 35 knots an hour. Her coal will last for three hours only, but in that time she can steam more than 100 miles.

The Turbinia is 100 feet long, with a beam of 9 feet, and carries a crew of 10. She has 2,100 horsepower, can produce 30,000 pounds of steam an hour and has a pressure of 225 pounds a square inch in her water tube boilers. Her three propeller shafts have each three screws, several feet apart. These screws revolve 2,500 times a minute without causing perceptible vibration. The engines can be raised to full speed from a standstill in 30 seconds.

Mr. Parsons calculates that a 15,000 ton liner, furnished with steam turbine motors, can cross the Atlantic in three days. The coal consumption would be 1,500 tons daily, but the extra coal bunker room required will be offset by the smaller space devoted to the machinery. Such a vessel could carry as many passengers and as much cargo as a vessel of the same tonnage propelled by the ordinary machinery. Mr. Parsons speaks of 12 minute trips from the Battery to Staten Island in small turbine motor boats as practicable.—New York Journal.

HIS TACTICS A MISTAKE.

A Ruse That Cost The Finder of a Check Dollars.

A messenger employed by one of the large banking houses in Wall street, New York, lost a certified check for \$35,000 which he had been sent to deliver the other day. The first intimation that the bankers received of this loss came a few minutes after the messenger had left from a seedy looking fellow who asked for one of the members of the firm. "How do you know that?" asked the banker calmly.

"I saw a man pick it up."

Knowing that such a check had been sent out and suspecting that the seedy man had found it the banker stepped into an inside office and notified by telephone the bank on which it had been drawn to stop payment on it if it should be presented there. Then he returned to the seedy man and said:

"How did you know it was our check?"

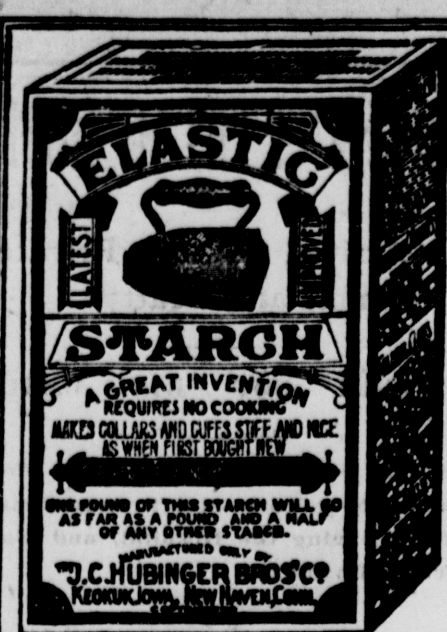

"I was so near the man who picked it up that I could read it," said the seedy man, with visions of a big reward.

"All right," replied the banker.

"We are much obliged to you," and the seedy man stumbled out somewhat dazed at the calmness with which his information was received. Five minutes later another man, equally seedy in appearance, walked into the office and announced that he had found a check for \$35,000 belonging to the firm. He handed it over, and a reward of \$5 was given to him. If he had not tried to fool the bankers by sending his partner ahead, he might have been better paid for his find.

UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours, and union labor employed.

PATRONIZE UNION CLERKS.

All members of the R. C. N. P. A. can show this card. Ask for it when making your purchases. Endorsed by the A. F. of L.

ONE-THIRD ACTUAL SIZE. COLOR IS CHANGED EACH QUARTER. Good only during months named in lower left hand corner and when properly signed, and STAMPED with the number of the Local.

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union made hat before it leaves the workman's hands. If a dealer takes a label from one hat and places it in another, or has any other label in his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product of scab or non-union labor.

UNION MADE CLOTHES.

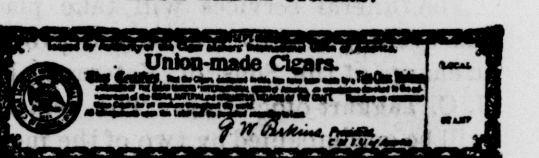

You will find the Union Label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants.

BICYCLE LABEL.

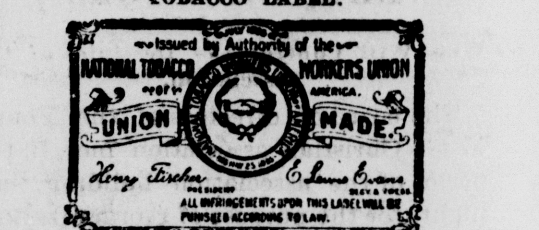

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold. The Label will be placed on the upper front side of the tube that receives the seat post.

BLUE LABEL CIGARS.

This label is printed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U. S. revenue label on the box, as the latter is nearly of a similar color.

TOBACCO LABEL.

The above Label, printed on blue paper, will be found on all plug tobacco and on the wrappers of chewing tobacco manufactured in union tobacco factories.

They Say He Is a Better Shortstop Than Pitcher—Local Players Will Aid Cumberland in Defeating Toronto Next Saturday.

The record of George Carey in the last eight games with the Minneapolis club is not up to his usual average and his batting has been very weak. Out of 27 times at bat he hit safely but five times. In fielding he had 98 putouts, two assists and two errors.

Alf. Shaw is doing all the catching for the Syracuse team and is playing a good game of ball. His record in the last seven games played is five hits, 27 putouts, 9 assists and three errors.

Sporting Life this week says: "Win Mercer, the Washington pitcher, has been playing short field of late, and he is making more of a success of it than he has of pitching this season."

The St. Louis correspondent says: "Mercer may be a great pitcher, but as a short stop, well, we have seen better."

John Godwin is today playing ball with the Rochester club.

The New Cumberland club is not playing ball today, but next Saturday will cross bats with Toronto, and will be assisted by several local ball players. THE G. A. R. ENCAMPMENT

How Cincinnati Will Entertain Members of the G. A. R.

The encampment week in Cincinnati is Sept. 5-10. Hon. Gustav Tafel, mayor of that city, proposes to issue a proclamation calling upon the people of Cincinnati and vicinity to join in a grand peace jubilee encampment week. The civic and industrial parade, set for the next day after that of the veterans—Thursday, Sept. 8—will probably be made the foundation of this jubilee proper, while the fireworks of the evening of the same day will add to the rosy hue of the jollification. Indeed the whole week will be one of good feeling and glad tidings, to culminate in Thursday's expression.

Fate and the badly whipped dons have thus lent a new interest to the Cincinnati encampment and will undoubtedly add greatly to the vast concourse of people from all parts of the country, who will gather in the Queen City the week of September 5-10. A striking illustration that we have been at war will be given on Tuesday, when it is expected that many of the convalescents now in the hospital at Fort Thomas, near Cincinnati, will participate in the naval veterans' parade on Tuesday. In addition the people of Cincinnati are trying to secure the presence of the Sixth infantry regulars, who did such magnificent service on San Juan hill before Santiago, with terrible losses to the regiment.

First Memorial of the War.

One of the first permanent memorials of the Spanish-American war to be erected in this country has been just placed in the chapel of the Naval academy at Annapolis, Md., in memory of Lieutenant William Jenkins, who perished in the Maine disaster. The memorial, which takes the form of a mural tablet, was subscribed for by the classmates of the officer and has been cast in bronze from the design of Charles Rolinson Lamb. A faithful model in high relief of the ill fated vessel is shown above the inscription, which reads as follows: "In memory of Friend William Jenkins, lieutenant, United States Navy, class of '86, United States Naval academy, who perished in the explosion of the United States steamship Maine on the night of Feb. 15, 1898, in the harbor of Havana, Cuba. He spoke evil of no man." Erected by his classmates."—New York Tribune.

Past Salaries of Actors.

A number of autograph letters of Edmund Kean supply some interesting information about the salaries of actors early in the century. One relates to an offer by Mr. Ellison offering Kean £3 a week as acting manager of "the new theater in Wyck street." Later this rose as high as £25 a month. In 1826 Kean was offered \$12,000 a year to go to America. In the prime of his popularity he received £200 for a week in Edinburgh, and apparently reached the highest point when Mr. Bunn wrote from the Theater Royal, Dublin, on Feb. 8, 1829, and offered him £50 a night to play in Dublin and Cork.—Liverpool Mercury.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Sept. 4.
Comment by Rev. S. H. Doyle.

TOPIC.—"Repentance and conversion—what are they?"—Ezek. xviii; 20-32; Acts xxvi, 19, 20.

Repentance and conversion are essentially similar in meaning. They refer to the turning, to the changing, of a man, under conviction and sorrow for sin, from sin to the service of God. Repentance may suggest more vividly the inward feelings and emotions under such an experience, and conversion the change in the outward life, but for all practical purposes both words include the same inward emotions and outward actions.

In the reference in Ezekiel the Lord Himself tells us what repentance is. In that from the Acts Paul describes it, and a comparison of the passages will show that Paul's theology is correct.

Repentance and conversion as described in these passages include conviction of sin, sorrow for sin, turning from sin, turning to God.

1. Repentance necessarily includes conviction of sin. No one will turn from sin except he is first convinced that he is a sinner. "When the wicked man turneth away from his wickedness * * * he shall save his soul. Because he considereth and turneth away from all his transgressions he shall surely live; he shall not die." Consideration leads to conviction, and conviction to conversion. It was not until David, under Nathan's awful declaration, "Thou art the man," was thus convicted of his sinfulness that he cried out to God in sorrow and repentance for forgiveness.

2. Repentance includes sorrow and grief for sin. Sorrow is not repentance, but it always accompanies it. We may be sorry for sin and not repent of it, but we will not repent of it without being sorry for it.

3. Repentance is turning from sin to God. These are the two essential elements of repentance. The sinner is convicted of his sinfulness, he is sorry for it, and then he turns from it to God. With grief and hatred for his sin, the sinner turns from it unto God and endeavors afterward new obedience. This is repentance as Scripturally defined. To Israel the Lord said: "Repent and turn yourselves from all your transgressions, so iniquity will not be your ruin. Cast away from you all your transgressions, whereby ye have transgressed and make you a new heart and a new spirit." A new heart and a new spirit would result in a new life. Paul said to the gentiles, "Repent and turn to God and do works meet for repentance." Repentance is not only ceasing to do evil, but also learning to do well. It is both turning from sin and turning to God. Have we repented? Have we felt sorry for sin, turned from sin, and are we serving God? Repentance is a personal matter between us and God. It brings God's pardon and forgiveness for sin. The absence of it causes the penalty for sin to fall upon our own heads. Let

us therefore repent, turn to God and do works meet for repentance.

Bible Readings.—Job xi, 13, 14; Isa. i, 16-20; lv, 6-9; Jer. iv, 1; xxxi, 18-20; Ezek. xiv, 6; Hos. vi, 1-3; xiv, 1-9; Zech. i, 3, 4; Mal. iii, 1-12; Math. iii, 1, 2; Mark i, 14, 15; Luke iii, 1-3; Acts ii, 38; Rev. ii, 5, 16.

Try to Find Out.

All ought to try to find out what they were made for. Every one has a place and purpose in God's plan. That purpose should be understood and fulfilled as far as possible. Every saved man is saved for some specific service besides his own happiness. God made no man simply for his own happiness, and He saves no man simply that he alone may be happy in heaven. He had a nobler end in both cases than the gratification of a selfish spirit. There is some service for every one in God's vineyard. Idlers are not wanted. Let us find what God wants us to do and do it. Let us do it in earnest and do it well. Then God will say, "Well done, good and faithful servant." Oh, how glad that will make us.—Christian Instructor.

Upon the Enemy.

Let us train our guns upon the enemy, mass our forces against all forms of sin. Let us exercise wholesome discipline, ridding ourselves of all persons who bring the church into disrepute. Let judgment begin at the house of God. Let us first be pure, then peaceable. The sooner we get back to our former methods the better, to the Holy Ghost revivals that sweep every obstruction out of the way, that cause backsliders to confess their sins and half hearted, compromising Christians to come out boldly on the Lord's side.—Philadelphia Methodist.

With Those Who Suffer.

We all need personal contact with those who suffer. "The most certain softener of a man's moral skin," writes Dr. Arnold of Rugby, "and sweetener of his blood are, I am sure, domestic intercourse in a happy marriage and intercourse with the poor." Gladstone never appeared nobler than when he read the Bible to an old street sweeper in an attic.—Our Church Paper.

The Spirit Robes Us.

When we have conquered an enemy, the Spirit robes us in humility. We must not think we are forgiving because our anger is getting tired.—Lutheran.

Close Range.

Hattie—So you and Jack quarreled, did you?
Ella—Yes. He said something that I didn't like and I told him we must be strangers henceforth.
Hattie—And did he fall on his knees and ask you to forgive him?
Ella—Not he! You see he—that is, his knees were occupied at the time.—Chicago News.

THE G. A. R. ENCAMPMENT

How Cincinnati Will Entertain Members of the G. A. R.

The encampment week in Cincinnati is Sept. 5-10. Hon. Gustav Tafel, mayor of that city, proposes to issue a proclamation calling upon the people of Cincinnati and vicinity to join in a grand peace jubilee encampment week. The civic and industrial parade, set for the next day after that of the veterans—Thursday, Sept. 8—will probably be made the foundation of this jubilee proper, while the fireworks of the evening of the same day will add to the rosy hue of the jollification. Indeed the whole week will be one of good feeling and glad tidings, to culminate in Thursday's expression.

Fate and the badly whipped dons have thus lent a new interest to the Cincinnati encampment and will undoubtedly add greatly to the vast concourse of people from all parts of the country, who will gather in the Queen City the week of September 5-10. A striking illustration that we have been at war will be given on Tuesday, when it is expected that many of the convalescents now in the hospital at Fort Thomas, near Cincinnati, will participate in the naval veterans' parade on Tuesday. In addition the people of Cincinnati are trying to secure the presence of the Sixth infantry regulars, who did such magnificent service on San Juan hill before Santiago, with terrible losses to the regiment.

First Memorial of the War.

One of the first permanent memorials of the Spanish-American war to be erected in this country has been just placed in the chapel of the Naval academy at Annapolis, Md., in memory of Lieutenant William Jenkins, who perished in the Maine disaster. The memorial, which takes the form of a mural tablet, was subscribed for by the classmates of the officer and has been cast in bronze from the design of Charles Rollinson Lamb. A faithful model in high relief of the ill fated vessel is shown above the inscription, which reads as follows: "In memory of Friend William Jenkins, lieutenant, United States Navy, class of '86, United States Naval academy, who perished in the explosion of the United States steamship Maine on the night of Feb. 15, 1898, in the harbor of Havana, Cuba. He spoke evil of no man." Erected by his classmates."—New York Tribune.

Past Salaries of Actors.

A number of autograph letters of Edmund Kean supply some interesting information about the salaries of actors early in the century. One relates to an offer by Mr. Ellison offering Kean £3 a week as acting manager of "the new theater in Wych street." Later this rose as high as £25 a month. In 1826 Kean was offered \$12,000 a year to go to America. In the prime of his popularity he received £200 for a week in Edinburgh, and apparently reached the highest point when Mr. Bunn wrote from the Theater Royal, Dublin, on Feb. 8, 1829, and offered him £50 a night to play in Dublin and Cork.—Liverpool Mercury.

Topic For the Week Beginning Sept. 4.
Comment by Rev. S. H. Doyle.

TOPIC.—"Repentance and conversion—what are they?"—Ezek. xviii; 20-32; Acts xxvi, 19, 20.

Repentance and conversion are essentially similar in meaning. They refer to the turning, to the changing, of a man, under conviction and sorrow for sin, from sin to the service of God. Repentance may suggest more vividly the inward feelings and emotions under such an experience, and conversion the change in the outward life, but for all practical purposes both words include the same inward emotions and outward actions.

In the reference in Ezekiel the Lord Himself tells us what repentance is. In that from the Acts Paul describes it, and a comparison of the passages will show that Paul's theology is correct.

Repentance and conversion as described in these passages include conviction of sin, sorrow for sin, turning from sin, turning to God.

1. Repentance necessarily includes conviction of sin. No one will turn from sin except he is first convinced that he is a sinner. "When the wicked man turneth away from his wickedness * * * he shall save his soul. Because he considereth and turneth away from all his transgressions he shall surely live; he shall not die." Consideration leads to conviction, and conviction to conversion. It was not until David, under Nathan's awful declaration, "Thou art the man," was thus convicted of his sinfulness that he cried out to God in sorrow and repentance for forgiveness.

2. Repentance includes sorrow and grief for sin. Sorrow is not repentance, but it always accompanies it. We may be sorry for sin and not repent of it, but we will not repent of it without being sorry for it.

3. Repentance is turning from sin to God. These are the two essential elements of repentance. The sinner is convicted of his sinfulness, he is sorry for it, and then he turns from it to God. With grief and hatred for his sin, the sinner turns from it unto God and endeavors afterward new obedience. This is repentance as Scripturally defined. To Israel the Lord said: "Repent and turn yourselves from all your transgressions, so iniquity will not be your ruin. Cast away from you all your transgressions, whereby ye have transgressed and make you a new heart and a new spirit." A new heart and a new spirit would result in a new life. Paul said to the gentiles, "Repent and turn to God and do works meet for repentance." Repentance is not only ceasing to do evil, but also learning to do well. It is both turning from sin and turning to God. Have we repented? Have we felt sorry for sin, turned from sin, and are we serving God? Repentance is a personal matter between us and God. It brings God's pardon and forgiveness for sin. The absence of it causes the penalty for sin to fall upon our own heads. Let

us therefore repent, turn to God and do works meet for repentance.

Bible Readings.—Job xi, 13, 14; Isa. i, 16-20; lv, 6-9; Jer. iv, 1; xxxi, 18-20; Ezek. xiv, 6; Hos. vi, 1-3; xiv, 1-9; Zech. i, 3, 4; Mal. iii, 1-12; Math. iii, 1, 2; Mark i, 14, 15; Luke iii, 1-3; Acts ii, 38; Rev. ii, 5, 16.

Try to Find Out.

All ought to try to find out what they were made for. Every one has a place and purpose in God's plan. That purpose should be understood and fulfilled as far as possible. Every saved man is saved for some specific service besides his own happiness. God made no man simply for his own happiness, and He saves no man simply that he alone may be happy in heaven. He had a nobler end in both cases than the gratification of a selfish spirit. There is some service for every one in God's vineyard. Idlers are not wanted. Let us find what God wants us to do and do it. Let us do it in earnest and do it well. Then God will say, "Well done, good and faithful servant." Oh, how glad that will make us.—Christian Instructor.

Upon the Enemy.

Let us train our guns upon the enemy, mass our forces against all forms of sin. Let us exercise wholesome discipline, ridding ourselves of all persons who bring the church into disrepute. Let judgment begin at the house of God. Let us first be pure, then peaceable. The sooner we get back to our former methods the better, to the Holy Ghost revivals that sweep every obstruction out of the way, that cause backsliders to confess their sins and half hearted, compromising Christians to come out boldly on the Lord's side.—Philadelphia Methodist.

With Those Who Suffer.

We all need personal contact with those who suffer. "The most certain softener of a man's moral skin," writes Dr. Arnold of Rugby, "and sweetener of his blood are, I am sure, domestic intercourse in a happy marriage and intercourse with the poor." Gladstone never appeared nobler than when he read the Bible to an old street sweeper in an attic.—Our Church Paper.

The Spirit Robes Us.

When we have conquered an enemy, the Spirit robes us in humility. We must not think we are forgiving because our anger is getting tired.—Lutheran.

Close Range.

Hattie—So you and Jack quarreled, did you?
Ella—Yes. He said something that I didn't like and I told him we must be strangers henceforth.
Hattie—And did he fall on his knees and ask you to forgive him?

NOT A VERY GOOD WEEK

Toadix Carey Did Not Make an Exceptional Record.

MORE GOOD WORDS FOR MERCER

They Say He Is a Better Shortstop Than Pitcher—Local Players Will Aid Cumberland in Defeating Toronto Next Saturday.

The record of George Carey in the last eight games with the Minneapolis club is not up to his usual average and his batting has been very weak. Out of 27 times at bat he hit safely but five times. In fielding he had 98 putouts, two assists and two errors.

Alf. Shaw is doing all the catching for the Syracuse team and is playing a good game of ball. His record in the last seven games played is five hits, 27 putouts, 9 assists and three errors.

Sporting Life this week says: "Win Mercer, the Washington pitcher, has been playing short field of late, and he is making more of a success of it than he has of pitching this season."

The St. Louis correspondent says: "Mercer may be a great pitcher, but as a short stop, well, we have seen better."

John Godwin is today playing ball with the Rochester club.

The New Cumberland club is not playing ball today, but next Saturday will cross bats with Toronto, and will be assisted by several local ball players.

There is but little chance that the Liverpool and Wellsville teams will come together this year as neither of the clubs seem to have much desire to play.

LOCAL BREVITIES.

Today is big pay.
W. H. Daniels, a prominent newspaper man of Erie, was in the city today.

W. M. Carey left this morning for Cincinnati where he will remain several days visiting friends.

The collection at the Christian church tomorrow will be given to the treasurer of the building fund of the new church.

Manager Swanev, of the telephone exchange, spent the day in Irondale and Salineville distributing the new directories.

The Grand Army last night held their regular meeting. Only routine business and matters pertaining to the encampment were discussed.

Mr. and Mrs. A. J. McCain will leave Monday for a two week's stay in Indiana and Kentucky. They will first visit friends in Madison, Ind.

This week Archie SeEVERS, who owns a large farm near Chester, sowed 21 acres of wheat and 12 acres of rye. This is the first grain to be sowed this year.

Will Leech left this morning for Detroit where he will remain several days. His work in the freight office is being looked after by Robert Wharton.

Elmer McCord, of West Market street, will leave next week for Chicago where he will remain several weeks with his brother who is a prominent railroad official in that city.

The street force are busily engaged in repairing the damage in Avondale street and expect to complete the work early next week. They will then commence work in Lincoln avenue.

Physicians yesterday afternoon cut off the third finger of the right hand of Jesse Carey. He has been suffering with a bone felon for several months and it was necessary to amputate the finger.

Officers Woods and Bettridge at noon today arrested and took to jail John Cain, Bill Gribbins, William Jackson in the patrol. They were charged with fighting near the Union pottery, and will be given a hearing this evening.

The fire committee last evening examined the old apparatus in the rear of the city hall and arrived at the conclusion that but little of it could be used for service in the East End. They will hold another meeting in the near future to make plans.

The many friends of Miss Stella Sink, of Jackson street, will be pleased to learn of her marriage last Monday evening in Parkersburg to Rev. J. W. Forshey, pastor of the M. E. church of that place. Mr. and Mrs. Forshey will reside in that city.

A bowling club will be organized in the city early next week. It is the intention to arrange games with teams from Pittsburg, Wheeling and other neighboring cities. The city has several good bowlers and will be able to hold their own with any.

The party given last evening at Columbian park by Mrs. J. G. Lee in honor of Miss Lowry, Miss Nellie Lowry and Miss Kneilla Boyle, of Salem, was one of the most pleasant social events of the season. A large number of guests were present and spent a delightful evening dancing.

The Keystone State, which passed this place on its way to Pittsburg, last evening, grounded at Merrill at 9 o'clock and did not get in deep water until 3 o'clock. It came back to the Broadway wharf where it reshipped its freight and passengers on the noon train to Pittsburg. Forty-two passengers were sent.

THE PASSAVANT SCHOOL

Excellent Work of the Institution Shown.

SALARY FOR THE PRESIDENT

Was Referred to a Committee Who Will Report Monday—The Lutheran Synod Is Preparing to Wind Up Its Work For the Year.

The synod yesterday afternoon transacted much business and it was the most interesting session yet held. At 2:30 o'clock the session was opened with devotional exercises led by Rev. G. Weise.

A report from the Passavant hospital of Pittsburg was read. It told of the work done by that institution during the year. It was recommended to the members of the synod as being a most efficient institution.

The report of the board of trustees again caused discussion which lasted for considerable time, during which \$1,200 was given for the support of the school. This amount was asked of the apportionment committee during the morning session.

Rev. J. C. F. Rupp presented the reports of the secretaries of the various conferences in the synod. The report was an intensely interesting one, and occupied much time.

The executive committee was given authority to erect a chapel on a lot in Braddock that is owned by the synod, and to secure a pastor for the same.

The question of giving the president of the synod a salary was one that caused much talk. It was finally referred to a committee composed of several members who will make a report of the matter at a future meeting.

Several visitors were introduced to the synod. They were Rev. F. Eppling, of Algoma, Wis., chaplain at large of the U. S. army, and Rev. Dr. Crite, of the Lutheran theological seminary, Chicago. Both gentlemen gave a brief talk of their work which proved very interesting.

The following churches were then received into the synod: St. Paul, Red Hill, W. Va., St. John, Parkersburg, and St. John, of Erie, Pa. The present pastor of the last named church has three brothers in the synod, all at present in this city.

The session adjourned with prayer by Rev. R. G. Rosenbaum, of Delmont, Pa.

The evening session was in the interest of foreign mission. Addresses were made by Rev. P. J. C. Glatzert in German and A. B. Markley in English.

The closing sessions of the Lutheran synod were opened with devotional exercises this morning at 10 o'clock. They were in charge of Rev. W. E. Bauer, of Saltsburg, Pa. There was a full attendance and many matters of interest were discussed during the session.

The report of the executive committee was again resumed for further consideration. The report was very lengthy and many interesting features were read. It showed that during the past conference year four churches had become self-sustaining. They were St. Paul, Uniontown, Zion, Erie, Pa., Couder Port, Pa., and Ford City, Pa.

The total appropriations for the coming year were then made. This amounted to \$7,175. German and English secretaries \$75 each, treasurer \$300, superintendent of mission \$150 and expenses. Total including the former amounted to \$9,525.

Appropriations were made for seven students entering Thiel college at Greenville, and six in the theological seminaries. After the report was discussed at length the synod adjourned.

This afternoon the order of business was as follows:

Business of congregations, report on plan of systematic beneficence, report of Jubilee committee, Ministerial Relief association, delegates to the general council.

For tomorrow the following program has been given out:

Morning, 10:30 o'clock.—German sermon by Rev. J. P. Hoh. English sermon by Rev. D. H. Geissinger, D. D.

Evening, 7:30 o'clock.—English services, sermon by Rev. W. H. Roth, D. D.

His Umbrella.

The other evening a man was rushing through the streets of London hurrying to an appointment when a swell passed in front of him who held his umbrella at a dangerous angle. The hasty pedestrian pulled the umbrella away from the swell, and then, stepping around to him, said in suave tone: "Oh, by the way, here's your umbrella. I found it in my eye."—Pick Me Up.

Catching at the stranger's coattail he murmured in a deprecating tone "Could you give me a little assistance sir?" The stranger turned and looked him over. His eyes were bloodshot his clothes dirty his whole appearance decided the worse for wear.

"What do you want?" was the reply to the tramp.

"A job after I get a square meal," said the tramp.

"What can you do?" asked the stranger.

"I can keep books, sell goods, drive a delivery wagon, compound prescriptions, set type and do farm work."

The stranger scribbled a few words on a card, handed the tramp \$1 and said: "Take this card to this address, and I think it will get you work. Take that dollar, get a bath, a shave, a hair cut, something to eat and a drink of whisky. That will brace you to meet my friend. So long!"

"There's just one thing more," said the tramp. "How do you happen to give me just \$1 and all these directions with it?"

"Because I got \$1 from a man on this very corner about ten years ago," said the stranger, "just as you are getting it from me, and I'm passing up his advice and his money just for luck."—Chicago Chronicle.

His Worst Offense.

When it was proposed to lessen the list of crimes punished by death, Lord Eldon objected to the noose being banished in cases of petty shoplifting. "The small shopkeepers will be ruined by this exemption," said the old Tory lord chancellor.

Another Tory, a judge, so venerated the sovereign that he included in his regard any article belonging to the king, no matter how far removed from actual possession. A tailor had been condemned for the murder of a soldier, and the judge tacked on this addition to the sentence of death:

"And not only did you murder him, but you did thrust or push or pierce or project or propel the lethal weapon through the belly band of his breeches, which were his majesty's!"

LABOR DAY.

MAYOR'S PROCLAMATION.

MAYOR'S OFFICE,
EAST LIVERPOOL, Sept. 1, 1898.

ACCORDING to the law of Ohio, Monday, Sept. 5, is Labor day, an important holiday for thousands of the people of this great state. It is the time set apart for the enjoyment of the great mass of humanity, a day when the workmen leave the shops and factories, and gathering their families and friends about them spend a few hours in pleasure. This day of recreation is an important factor in our public institutions, for when labor is sufficiently prosperous to take time for recreation all other men have equal cause for happiness.

I, Charles F. Bough, mayor of the city of East Liverpool, recommend that as far as possible the people as a whole observe the day; that there be a suitable demonstration, and that all business houses and residences be decorated with the national colors. Let business men and manufacturers join with the rest of the people in the celebration of this occasion, so important to us all.

TO BUSINESS MEN.

The combination prices of the NEWS REVIEW, advertisement in paper and bills from said advertisement, are cheaper than any other daily paper in the city, while the workmanship, material and inks made use of are incomparably superior to those of would-be competitors. Test the matter. We will prove the truth of our assertion.

LOCAL BREVITIES.

Today is big pay.

W. H. Daniels, a prominent newspaper man of Erie, was in the city today.

W. M. Carey left this morning for Cincinnati where he will remain several days visiting friends.

The collection at the Christian church tomorrow will be given to the treasurer of the building fund of the new church.

Manager Swaney, of the telephone exchange, spent the day in Irondale and Salineville distributing the new directories.

The Grand Army last night held their regular meeting. Only routine business and matters pertaining to the encampment were discussed.

Mr. and Mrs. A. J. McCain will leave Monday for a two week's stay in Indiana and Kentucky. They will first visit friends in Madison, Ind.

This week Archie Seavers, who owns a large farm near Chester, sowed 21 acres of wheat and 12 acres of rye. This is the first grain to be sowed this year.

Will Leech left this morning for Detroit where he will remain several days. His work in the freight office is being looked after by Robert Wharton.

Elmer McCord, of West Market street, will leave next week for Chicago where he will remain several weeks with his brother who is a prominent railroad official in that city.

The street force are busily engaged in repairing the damage in Avondale street and expect to complete the work early next week. They will then commence work in Lincoln avenue.

Physicians yesterday afternoon cut off the third finger of the right hand of Jesse Carey. He has been suffering with a bone felon for several months and it was necessary to amputate the finger.

Officers Woods and Bettridge at noon today arrested and took to jail John Cain, Bill Gribbins, William Jackson in the patrol. They were charged with fighting near the Union pottery, and will be given a hearing this evening.

The fire committee last evening examined the old apparatus in the rear of the city hall and arrived at the conclusion that but little of it could be used for service in the East End. They will hold another meeting in the near future to make plans.

The many friends of Miss Stella Sink, of Jackson street, will be pleased to learn of her marriage last Monday evening in Parkersburg to Rev. J. W. Forshey, pastor of the M. E. church of that place. Mr. and Mrs. Forshey will reside in that city.

A bowling club will be organized in the city early next week. It is the intention to arrange games with teams from Pittsburg, Wheeling and other neighboring cities. The city has several good bowlers and will be able to hold their own with any.

The party given last evening at Columbian park by Mrs. J. G. Lee in honor of Miss Lowry, Miss Nellie Lowry and Miss Kneela Boyle, of Salem, was one of the most pleasant social events of the season. A large number of guests were present and spent a delightful evening dancing.

The Keystone State, which passed this place on its way to Pittsburg, last evening, grounded at Merrill at 9 o'clock and did not get in deep water until 3 o'clock. It came back to the Broadway wharf where it reshipped its freight and passengers on the noon train to Pittsburg. Forty-two passengers were sent.

The committee having in charge the funds being collected for Company E have received the following amounts: Previously reported, \$316.65; Wm. Brunt Pottery company, \$40; Miss Beatty, \$1; collected in East End, \$30.50; collected in the city, \$86.75; Homer Laughlin China company, additional, \$10; total, \$484.90.

THE PASSAVANT SCHOOL

Excellent Work of the Institution Shown.

SALARY FOR THE PRESIDENT

Was Referred to a Committee Who Will Report Monday—The Lutheran Synod Is Preparing to Wind Up Its Work For the Year.

The synod yesterday afternoon transacted much business and it was the most interesting session yet held. At 2:30 o'clock the session was opened with devotional exercises led by Rev. G. Weise.

A report from the Passavant hospital of Pittsburg was read. It told of the work done by that institution during the year. It was recommended to the members of the synod as being a most efficient institution.

The report of the board of trustees again caused discussion which lasted for considerable time, during which \$1,200 was given for the support of the school. This amount was asked of the apportionment committee during the morning session.

Rev. J. C. F. Rupp presented the reports of the secretaries of the various conferences in the synod. The report was an intensely interesting one, and occupied much time.

The executive committee was given authority to erect a chapel on a lot in Braddock that is owned by the synod, and to secure a pastor for the same.

The question of giving the president of the synod a salary was one that caused much talk. It was finally referred to a committee composed of several members who will make a report of the matter at a future meeting.

Several visitors were introduced to the synod. They were Rev. F. Epling, of Algoma, Wis., chaplain at large of the U. S. army, and Rev. Dr. Orite, of the Lutheran theological seminary, Chicago. Both gentlemen gave a brief talk of their work which proved very interesting.

The following churches were then received into the synod: St. Paul, Red Hill, W. Va., St. John, Parkersburg, and St. John, of Erie, Pa. The present pastor of the last named church has three brothers in the synod, all at present in this city.

The session adjourned with prayer by Rev. R. G. Rosenbaum, of Delmont, Pa.

The evening session was in the interest of foreign mission. Addresses were made by Rev. P. J. C. Glatzert in German and A. B. Markley in English.

The closing sessions of the Lutheran synod were opened with devotional exercises this morning at 10 o'clock. They were in charge of Rev. W. E. Bauer, of Saltsburg, Pa. There was a full attendance and many matters of interest were discussed during the session.

The report of the executive committee was again resumed for further consideration. The report was very lengthy and many interesting features were read. It showed that during the past conference year four churches had become self-sustaining. They were St. Paul, Uniontown, Zion, Erie, Pa., Coudersport, Pa., and Ford City, Pa.

The total appropriations for the coming year were then made. This amounted to \$7,175. German and English secretaries \$75 each, treasurer \$300, superintendent of mission \$150 and expenses. Total including the former amounted to \$9,525.

Appropriations were made for seven students entering Thiel college at Greenville, and six in the theological seminaries. After the report was discussed at length the synod adjourned.

This afternoon the order of business was as follows:

Business of congregations, report on plan of systematic beneficence, report of Jubilee committee, Ministerial Relief association, delegates to the general council.

For tomorrow the following program has been given out:

Morning, 10:30 o'clock.—German sermon by Rev. J. P. Hoh. English sermon by Rev. D. H. Geissinger, D. D.

Evening, 7:30 o'clock.—English services, sermon by Rev. W. H. Roth, D. D.

His Umbrella.

The other evening a man was rushing through the streets of London hurrying to an appointment when a swell passed in front of him who held his umbrella at a dangerous angle. The nasty pedestrian pulled the umbrella away from the swell, and then, stepping around to him, said in suavest tone: "Oh, by the way, here's your umbrella. I found it in my eye."—Pick Me Up.

As Was Done Unto Him.

Catching at the stranger's coattail he murmured in a deprecating tone "Could you give me a little assistance sir?" The stranger turned and looked him over. His eyes were bloodshot his clothes dirty his whole appearance decided the worse for wear.

"What do you want?" was the reply to the tramp.

"A job after I get a square meal," said the tramp.

"What can you do?" asked the stranger.

"I can keep books, sell goods, drive a delivery wagon, compound prescriptions, set type and do farm work."

The stranger scribbled a few words on a card, handed the tramp \$1 and said: "Take this card to this address, and I think it will get you work. Take that dollar, get a bath, a shave, a hair cut, something to eat and a drink of whisky. That will brace you to meet my friend. So long!"

"There's just one thing more," said the tramp. "How do you happen to give me just \$1 and all these directions with it?"

"Because I got \$1 from a man on this very corner about ten years ago," said the stranger, "just as you are getting it from me, and I'm passing up his advice and his money just for luck."—Chicago Chronicle.

His Worst Offense.

When it was proposed to lessen the list of crimes punished by death, Lord Eldon objected to the noose being hanged in cases of petty shoplifting. "The small shopkeepers will be ruined by this exemption," said the old Tory lord chancellor.

Another Tory, a judge, so venerated the sovereign that he included in his regard any article belonging to the king, no matter how far removed from actual possession. A tailor had been condemned for the murder of a soldier, and the judge tacked on this addition to the sentence of death:

"And not only did you murder him, but you did thrust or push or pierce or project or propel the lethal weapon through the belly band of his breeches, which were his majesty's!"

LABOR DAY.

MAYOR'S PROCLAMATION.

MAYOR'S OFFICE,
EAST LIVERPOOL, SEPT. 1, 1898.

ACCORDING to the law of Ohio, Monday, Sept. 5, is Labor day, an important holiday for thousands of the people of this great state. It is the time set apart for the enjoyment of the great mass of humanity, a day when the workmen leave the shops and factories, and gathering their families and friends about them spend a few hours in pleasure. This day of recreation is an important factor in our public institutions, for when labor is sufficiently prosperous to take time for recreation all other men have equal cause for happiness.

I, Charles F. Bough, mayor of the city of East Liverpool, recommend that as far as possible the people as a whole observe the day; that there be a suitable demonstration, and that all business houses and residences be decorated with the national colors. Let business men and manufacturers join with the rest of the people in the celebration of this occasion, so important to us all.

CHARLES F. BOUGH,
Mayor.

EVENING NEWS REVIEW.

14TH YEAR. NO. 74.

EAST LIVERPOOL, O., SATURDAY, SEPT. 3, 1898.

TWO CENTS

DEFENDER OF ALGER.

Wheeler Condemns Attacks on Conduct of Affairs.

SOLDIERS ARE NOT COMPLAINING.

People, He Says, Come to Camp Wikoff Expecting to Find Things in Bad Shape, but See Differently—Montauk Point a Good Place.

CAMP WIKOFF, MONTAUK POINT, L. I., Sept. 3.—Major General Joseph Wheeler gave a statement to The Associated Press yesterday, dated Sept. 1, giving a sample of the letters they were constantly receiving regarding the soldiers in the camp, the letter saying in part:

"In regard to my stepson, we feel very uneasy about him on account of the newspaper reports of the privation and suffering inflicted on the private soldiers. Although he has never uttered a complaint since he has been in the army, we hear from other sources of the cruel and horrible treatment inflicted on our soldiers under the pretense of humanity for our neighbors and the whole country is in a state of terrible excitement. I should not be surprised if the feeling should lead to a revolution of some kind, for I assure you I hear on all sides the most violent and bitter denunciations of the war department and the administration."

General Wheeler then said in part: "It will be seen that this letter says that not a word of complaint has been received from this soldier, and, so far as my investigation goes, no complaint has been made by any of the brave soldiers that have added glory to our arms in the Cuban campaign. A great many anxious fathers, mothers, brothers or sisters arrive here from all parts of the United States to look after their relatives whom, they say the papers tell them, are suffering, and many of them have heard that their relatives are in a condition of starvation. They are surprised when they come here to find their relations surrounded with everything to eat which can be procured by money, and, if sick in the hospital, they are gratified and surprised to find that they are given every possible care."

He said that every officer and soldier who went to Cuba regarded that he was given a great and special privilege in being permitted to engage in that campaign. They knew they were to encounter yellow fever and other diseases, the torrid heat of the country; that it was impossible for them to have the advantage of wagon transportation, would have to carry their blankets and their rations on their backs, and to be subjected, without any shelter, to the sun and rains by day and the heavy dews by night. They certainly knew that the Spaniards had spent years in erecting defenses and it was their pleasure to assault and their duty to capture the Spanish works.

They went there and did their duty. The brave men who won the victories did not complain of the neglect of the government. They realized that in the hurried organization of an expedition by a government which had no one with any experience in such matters, it was impossible to have everything arranged to perfection; and they would testify that under the circumstances the conditions were much more perfect than anyone would have reason to expect and that the president and secretary of war and others deserve high commendation.

One reason, he said, why the army was lacking in some respects in equipment was that a telegram was received from Admiral Sampson stating that if the army reached there immediately they could take the city at once, but if there should be delay, the fortifications of the Spaniards would be so perfected that there might be great difficulty in taking it. The army was directed to move at once.

At that time it was regarded as unsafe for a merchant ship to sail to Santiago, but as soon as the Spanish fleet was destroyed the generous people of the United States subscribed money and dispatched ship after ship loaded with luxuries and delicacies for the Santiago army, and everything that could be accomplished for their comfort was done by the president and secretary of war.

Then General Wheeler further said in part:

"After the surrender had been completed and arrangements perfected for transporting the Spanish army to Spain the president and secretary of war sent shipping to Santiago and transported our army to one of the most healthful localities in the United States. The point selected by the secretary of war was so situated that thorough protection was given the people of the United States from the danger of yellow fever contagion. The soldiers, upon their arrival at this place, received every care and bounty which could be procured by money. The president and secretary of war directed that their health and comfort should be cared for without reference to expense, and in addition, the people within a circle of 100 miles vied with each other in shipping to them carloads and steamboat loads of luxuries of all kinds.

"There is no doubt that there have been individual cases of suffering and possibly neglect among the soldiers, not only in Cuba, but since their arrival at this place. Nearly 20,000 men were brought from a yellow fever district to

the United States. It would have been criminal to have landed them and allowed them to go promiscuously among the people.

"Everyone will realize that to land 18,000 men and put them on bare fields without any buildings whatever could not be done without some hardships.

"Over 5,000 very sick men have been received in the general hospital and as many more sick have been cared for in the camps, and yet only about 60 deaths have occurred in these hospitals.

"Tents had to be erected and hospitals constructed and preparations to supply those 18,000 men with wholesome water, food, medicines, physicians, nurses, cooks, hospital furniture, wagons, ambulances and the other needs essential to caring for 18,000 men, fully half of whom are very sick or in a feeble physical condition."

Auxiliary Cruisers Returned.

PHILADELPHIA, Sept. 3.—The auxiliary cruisers St. Paul and St. Louis yesterday at Cramps' shipyard were returned to the International Navigation company by the government.

STUDEBAKER'S TIGERS.

One Hundred and Fifty-Seventh Indiana Reached Home in Bad Shape—Studebaker Scored Florida Camps.

INDIANAPOLIS, Sept. 3.—Colonel Studebaker's "tigers," the One Hundred and Fifty-seventh Indiana volunteers, reached Indianapolis from the south yesterday morning.

Colonel Studebaker said in part:

"This is not the same regiment I took away from Indianapolis last May. The personality is the same, but it is made up of a different set of men. They have fever in their very bones; they are hungry and their strength is wasted. It is all due to the cesspools in which we lived in the south. When the men left Indianapolis they were strong and showed their hardness. They were all right when we left Chickamunga Park.

"I charge the condition of my men to Port Tampa and to the conditions surrounding it. When we moved we did not better our condition much. The fevers followed us, and day by day the regiment became weaker. At Ferdinand we had the same difficulty to obtain proper food. The United States authorities seemed willing enough to provide us with what we needed, but Ferdinand is such an out of the way place that it is difficult to reach it. One railroad runs to the town.

"When men who have been investigating the condition of the Florida camps say we have not been in actual need of food and medical assistance, they do not know what they are talking about. My men cannot march in straight lines on account of their weakness. They cannot carry their rifles at the right position. They cannot march any distance without many of them having to drop out of the ranks to rest. I think that our coming home has saved the lives of hundreds in the regiment."

dent, who is ill with gastritis here, experienced a change for the worst yesterday. Her condition was considered critical.

Dr. Holland on Filtration.

SARATOGA, Sept. 3.—The American Social Science association elected these officers, among others, yesterday: President, Simeon E. Baldwin, New Haven; department chairman on health, William H. Daly, Pittsburgh. Yesterday Dr. W. J. Holland, chancellor of the Western University of Pennsylvania, Pittsburgh, spoke on "The Purification of Municipal Water Supplies by Filtration."

Clay Charges Desertion.

RICHMOND, Ky., Sept. 3.—The petition for divorce filed by General Cassius M. Clay to secure a legal separation from his girl wife, Dora Richardson Clay, recites that "the defendant did, without fault on the part of the plaintiff, abandon him on July 3, 1898, and has since lived separate and apart from him." General Clay declares the girl will never want so long as he lives.

President of Mormon Church Dead.

SALT LAKE CITY, Sept. 3.—A private telegram from George Q. Cannon, from San Francisco, announced the death of the president of the Mormon church, Wilford Woodruff. Mr. Woodruff died yesterday morning. He had been troubled with kidney complaint for some time.

PRESIDENT AT WIKOFF

He and Alger Visited the Camp Today.

EIGHTEEN MORE REPORTED DEAD.

One Was Frank Hagerman, and Another Was A. B. Clay of the Eighth Ohio Regiment—Chicago Mother Found Her Boy Sick—More Transports Arrived.

CAMP WIKOFF, Sept. 3.—President McKinley and Secretary Alger visited Camp Wikoff today.

With them were Vice President Hobart, Colonel Myron T. Herrick of Cleveland, Webb C. Hayes, J. Addison Porter, secretary to the president; Assistant Secretary Cortelyou, William McKinley Barber, the president's nephew, Commissary General Egan, Senator Proctor and others.

The president will spend Sunday with Vice President Hobart. Mrs. McKinley and Mrs. Hobart, who did not come to Camp Wikoff, will leave for Paterson today.

The deaths in the general hospital yesterday were: Edwin Eugene Casey, troop clerk, rough riders; Abraham Robertson, Company D, Fourth regiment infantry; Frank Hagerman, Company F, Eighth Ohio; Hibbard White, Company A, Seventy-first New York; Daniel F. Conover, Company E, Ninth Massachusetts; Ira Leebold, Company F, Twelfth infantry; William A. Shake, Company D, First Illinois; Clarke Frazier, Company D, Eighth regiment; H. C. Eaton, Company F, First Illinois; Isaac Hottlee, Company D, Seventh infantry.

In the detention hospital: Charles Genske, Company D, Thirty-third Michigan; Morris Dolan, teamster, Third regiment infantry; Carleton Day, Company H, Thirty-third Michigan; Albert Bennke, Company C, Thirty-fourth Michigan; A. B. Clay, Company D, Eighth Ohio; Ray Pardee, Company E, Thirty-fourth Michigan; William B. Ryan, Company A, First Illinois; John L. Shields, teamster, Twentieth regiment infantry.

At the general hospital there are 1,276 sick; at the detention hospital 250.

One hundred men were furloughed yesterday.

Mrs. M. E. Bell of Aldine square, Chicago, found her son, Dylvin, yesterday. He is a sergeant in Company C, First Illinois regiment, and she had heard nothing for about five weeks. For about two weeks she has been east, interrogating the war department, cabling to Santiago and searching the hospitals here. Yesterday morning she heard that four transports had arrived during the night. They were the Orizaba, the Berkshire, the City of Washington and the Neuces. The Neuces brought 385 men of the Twenty-ninth regular infantry and a detachment of the First Illinois. Among the 26 sick men on board was Sergeant Dylvin Bell.

The Berkshire brought 348 convalescents from various commands, chiefly of the regular army. Three died on the voyage. They were: Sergeant Johnson, Company K, First artillery; Private Murphy, Company E, Twenty-fourth infantry, and Male Nurse McMahon.

One hundred and seventy-five of the convalescents are still quite sick, but no contagious cases are among them. The dead were buried at sea.

NEW CHAPLAIN APPOINTED.

Offer of Lancaster (Pa.) Hospital Accepted—More Sick Taken Away From Camp Meade.

CAMP MEADE, MIDDLETOWN, Pa., Sept. 3.—Rev. S. G. Reading of Williamsport has been appointed chaplain of the Twelfth Pennsylvania regiment, to fill the vacancy caused by the death of Chaplain Rick.

Chief Surgeon Girard has accepted the offers of the Lancaster hospital to take care of 25 sick in the division hospitals and of the Columbia hospital to treat ten. A detachment of the Third New York was arrested Thursday night by the provost guards and the Fourth Missouri came to their rescue, throwing four guards into the canal. General Graham has not yet appointed a court to try First Lieutenant Bowers of the Sixth Pennsylvania regiment, who was ordered under arrest Thursday without an assignment of charges.

The men in the hospital corps will be discharged on application, when their regiments are mustered out. A hospital train from the Medico-Chirurgical hospital, Philadelphia, took away yesterday afternoon 200 sick soldiers from the division hospitals. There were 32 typhoid fever cases yesterday in the Red Cross hospitals.

Ten typhoid fever patients were removed from the Red Cross hospital yesterday to the St. Clare infirmary at Harrisburg. A Medico-Chirurgical hospital train reached camp last evening from Philadelphia and took away 100 convalescents in the division hospital. The train was equipped with nurses and physicians and started back to Philadelphia about 9 o'clock. The patients were removed from the field hos-

pitals to the cars in ambulances under the personal supervision of Colonel Girard, chief surgeon of the Second corps. There was less than 100 patients last night in the division and Red Cross hospitals at the camp and these will probably be removed to the city hospitals very soon.

Governor Hastings expects the Pennsylvania troops at Porto Rico to arrive in this country next Thursday. He will go with the hospital train from the University of Pennsylvania, which will take the sick soldiers back to Philadelphia to the hospital.

GREAT BUSINESS MONTH.

Dun's Review Pointed Out the Surprising Features—Predicted a Further Increase.

NEW YORK, Sept. 3.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, said in part:

The smallest failures ever recorded in any month for five years were those of August.

The clearings have been the largest ever known in August and 23 per cent larger than in 1892.

The enormous volume of business in a month usually one of the most inactive of the year demands attention. Postponement during the months of war of some contracts and purchases which have now come forward explains part of the increase, and the strong absorption of securities explains part, but there has also been a great decline in the average of prices for all commodities, so that it takes a much larger volume of business in tons or bushels to make up transactions amounting to a million more than in 1892. It is therefore strictly true that business is larger than in the very best of all past years, and yet there is every prospect of much further increase.

There is no room to doubt that the wheat crop, even though it may fall a shade below some estimates, will prove the largest ever harvested, and although Beerbohm estimates Europe's crop at 232,000,000 bushels more than the last, that would be only about an average yield, while other evidence is less favorable. Foreign buying has been strong.

But receipts at the west are increasing, and the price has dropped 5 cents for spot, though the September option is seven-eighths of a cent lower for the week. Corn has fallen a fraction, later reports indicating a less satisfactory yield.

The improvement in the iron industry has not only continued, but becomes more impressive because, after enormous buying of materials has satisfied the needs of great consumers for months to come, the demand for products is so great that both materials and products gradually advanced in prices.

The advance in tinplate, in spite of production far greater than was thought possible not long ago, is evidence that the consumption of steel in that branch will be heavy. The wire nail works also report a better demand, and the output of Connellsville coke has started up, gaining 10,000 tons for the week.

The woolen mills have rather better orders this week, but not enough as yet to warrant running nearly full force, with the price of wool held at the west much above eastern markets, and by those markets about 1 cent higher than the mills are bidding.

Failures for the week have been 171 in the United States, against 191 last year, and 22 in Canada, against 25 last year.

ELKINS MAY SUE.

Asked County Chairmen to Get Evidence to Convict Those Attacking Party Representatives.

PHILADELPHIA, Sept. 3.—Republican State Chairman Elkin has sent to the chairmen of the Republican county committees of the state the following telegram:

"The enemies of the Republican party are surreptitiously and otherwise distributing libelous newspaper articles containing malicious attacks upon the candidates and representatives of our party with a view to defeat Republican supremacy in Pennsylvania. If this work has been carried on in your county, I ask you to secure and furnish me at once with evidence that will convict the guilty parties."

Murder Mystery Solved.

STEBENVILLE, O., Sept. 3.—On Aug. 26 the badly decomposed body of Mary, the 13-year-old daughter of John Wesley, a coal miner of Mingo Junction, was found in a lonely ravine south of this city. No clue was found to her murderer until Thursday, when John Dubbs, a half-witted boy of 17 years, was arrested at Bloomfield and brought to this place, where he is now in jail. It can be said he has practically admitted to killing the girl, but he denies having assaulted her.

Ratchford Encourages the Strike.

PITTSBURG, Sept. 3.—M. D. Ratchford, national president of the United Mine Workers of America, sent an important telegram to District President Patrick Dolan yesterday. It is expected to have a bearing on the strike now on in the third pool. The telegram congratulates Dolan on the progress he has made in bringing the men out and assures him the support of the national body of miners. He also urges that the fight be pushed into the fourth pool.

MAY BRING ON WAR.

Dreyfus Agitation Assuming Dangerous Proportions.

TROUBLE FEARED WITH GERMANY.

French Government Said to Be Trying to Stem the Rising Tide of Agitation—High Officers Think War With Germany Preferable to Civil Strife.

PARIS, Sept. 3.—The most pessimistic feelings exist. It is the common belief that Great Britain and Russia are on the eve of war and that the consequences of the Dreyfus scandal will involve France in war with Germany.

The government is doing its best to stem the rising tide of agitation by a studied quiescence which scandalizes The Journal des Debates and other papers, but it may succeed in getting over the crisis. M. Faure ignores the reproaches of the press and remains at Havre.

M. Bourgeois, minister of education, is in Switzerland. His address is not known here. M. Peytral, minister of finances, is at Marseilles. M. Lockroy, minister of marine, is at Cherbourg.

In the meantime M. Cavaignac, minister of war, and M. Sarrien, minister of justice, are busy enough. M. Sarrien had two prolonged conferences with M. Brisson yesterday afternoon and M. Cavaignac had an interview

COLONEL HENRY.

with M. Sarrien. Both ministers looked ruffled. These and other impromptu ministerial conferences were devoted to an endeavor to convince the minister for war of the necessity on political grounds of a revision of the Dreyfus case, which the whole country, including the army now demands.

High officers confess that the discussions that will follow revision will probably entail war, but say that would be preferable to having the army remain under a cloud with the possibilities of agitation leading to civil strife.

CAVAIGNAC FIRM.

No Revision of Dreyfus Case, It Is Said, While He Is In Office.

PARIS, Sept. 3.—M. Lasies, a member of the chamber of deputies, had an interview yesterday morning with the minister for war, M. Cavaignac, on the recent developments in the Dreyfus case. The minister reiterated that he was convinced of the guilt of the prisoner, but added that at the same time he was determined to punish all who had been derelict in their duty.

The deputy afterward declared that so long as M. Cavaignac was minister for war there would be no revision of the Dreyfus case, adding that as in the event of a revision the trial could not again be held behind closed doors, and it would be impossible to produce publicly some of the documents, the acquittal of Dreyfus must certainly result from a reopening of the case.

MISS BARTON COMING BACK.

Paid a Customs Fine of \$500 to the Spanish Government Under Protest.

HAVANA, Sept. 3.—The steamer Clinton, which has been placed at the disposal of the Red Cross temporarily for the distribution of relief here, being wanted for the government, President McKinley instructed Miss Clara Barton to return to the United States for the present, especially as the Spanish government has not reached a definite decision regarding the Red Cross supplies.

Miss Barton, accompanied by her staff, sailed on the Clinton last evening for Tampa. Before leaving she paid the customs fine of \$500 imposed for her lack of a manifest of the Clinton's cargo, making the payment under protest, as directed by President McKinley.

BOARD BEHIND AGAIN

**Health Authorities Miss An-
other Meeting.**

ONLY ONE MEMBER PRESENT

But the Officers Were All There and the Reports Were Given Out—Twenty Berths and Thirteenth Deaths During the Month.

The board of health failed to meet last evening owing to the fact that there was not a quorum present.

When the time arrived to call the meeting to order Mr. Haines was the only member of the board present, but Health Officer Odgen, Sanitary Officer Burgess and Clerk Burns were on hand. After spending some time waiting for the other members to appear Mr. Haines went home and the officers followed suit.

The report of Health Officer Odgen for the month is as follows: Births—Males, 13, females, 7; deaths—Males, 8; females, 5. Some of the causes of death were consumption, cancer of the tongue, heart failure, convulsions. During the month five cases of typhoid fever were reported.

In the report of Sanitary Officer Burgess it is shown that he disposed of 14 dead dogs and six cats and a large number of other animals. This is the largest number of dogs the sanitary officer has buried in one month, and nine of them came from Thompson hill, where the dog poisoner had been at work.

There was also one scarlet fever house fumigated by the officer.

The bills for the month are Health Officer Odgen, \$25; Sanitary Officer Burgess, \$50.

GIVEN UP TO DIE

**Of Bright's Disease, But Was
Cured Without Medicine by
Dr. E. F. Larkins.**

T. C. Harbison, of Colorado Springs, Col., a short time ago bade a sad farewell to his family and came to this city, hoping against hope, a bare possibility, of recovering from that dread disease known as chronic Bright's disease.

Mr. Harbison's physicians were specialists, but said they could do no more for him, that he must die.

Immediately upon his arrival here Mr. Harbison began taking treatment from Dr. E. F. Larkins, who treats chronic diseases without medicine by the new system. The result is nothing short of marvelous. Mr. Harbison has entirely recovered, is in perfect health and has accepted a position as traveling salesman for the Ohio China company. The results of the case have been watched with interest by the people of several different states as Mr. Harbison is a widely known business man of the strictest integrity.

PRESIDENT.

ORDERED HOME.

Number of Regiments, Some From Pennsylvania and Ohio, to Be Mustered Out.

WASHINGTON, Sept. 3.—The following volunteer regiments were yesterday ordered transferred and mustered out: First Ohio infantry, from Jacksonville to Cincinnati.

Third Ohio infantry, from Knoxville to Columbus.

Seventh Ohio infantry, from Middletown, Pa., to Columbus.

Seventy-first New York infantry to Camp Black.

The "territorial regiment" of infantry, recruited in Arizona, New Mexico, Oklahoma and Indian Territory, now stationed at Whipple barracks, A. T., will also be mustered out.

Eighth Ohio infantry, from Montauk to Columbus.

Third Michigan infantry, from Chickamauga to Camp Eaton, Mich.

One Hundred and Fifty-eighth Indiana infantry, from Knoxville to Indianapolis.

First Ohio cavalry, from Huntsville, Ala., to Columbus.

Second North Carolina infantry, from St. Simons island, Ga., to Raleigh, N. C.

First Alabama infantry, from Jacksonville, Fla., to Mobile.

Third Pennsylvania infantry, from Huntsville, Ala., to armory, Philadelphia.

Fourth Wisconsin infantry, now at Camp Douglas, Wis.

Eighteenth Pennsylvania infantry, from Camp Meade to armory, Pittsburgh.

Second Alabama infantry, from Jacksonville to Mobile.

Third United States volunteer cavalry, from Chickamauga to Old Fort, Omaha.

Second Massachusetts infantry, from Montauk to Farmington, Mass.

First Pennsylvania infantry, from Knoxville to armory, Philadelphia.

Second Pennsylvania infantry, from Mont Chant, Del., to armory, Philadelphia.

First New Jersey infantry, from Camp Alger to Sea Girt, N. J.

The First South Carolina from Jacksonville, Fla., to Columbia, S. C.

Secretary Alger yesterday directed the adjutant general of the United States to take charge of the sick soldiers and place them in hospitals, the expense to be borne by the United States.

A statement prepared at the war department shows that 83 or the organizations in the volunteer army have received orders looking to their being mustered out. This includes 53 regiments and a number of minor organizations, such as batteries of artillery, independent companies of cavalry, etc., and represents almost one-third of the 220,000 men called for by the president.

OHIO HOSPITAL TRAIN.

Gone Southward to Bring Back Sick Soldier Boys From the Camps in That Section.

COLUMBUS, Sept. 3.—The hospital train pulled out for the south yesterday afternoon to gather up and return to their homes the sick Ohio volunteers. Governor Bushnell was at the depot, but did not accompany the train. It is the intention to go direct to Lakeland and Fernandina, Fla., where the first soldiers will be taken on board. The train will return by way of Huntsville, Ala., Chickamauga and Knoxville, and will visit any other points where there may be sick Ohioans. It is expected that the trip will occupy six days.

The train was composed of 14 cars, having on board Surgeon General J. E. Lowes, in command, and representing Governor Bushnell, physicians and nurses from Columbus, Dayton and Toledo, and one physician each from Cleveland and Sandusky. The seats had been removed from all the day coaches, 250 cots being substituted. Ample supplies were taken and the sick will be well cared for.

CINCINNATI, Sept. 3.—The Ohio hospital train from Columbus arrived here yesterday and was transferred from the Pennsylvania to the Queen and Crescent railroad, enroute to Florida. It will stop at Chickamauga, Knoxville, Lexington and other camps on the return, picking up all Ohioans in the hospitals that can be moved. Many physicians and nurses were ready here to join the train, but Dr. Lowes, representing Governor Bushnell, did not desire additional help.

FOR HOSPITAL TRAIN.

Generous Kentucky Woman Offered to Head List of Contributions For Her State Soldiers.

FRANKFORT, Ky., Sept. 3.—The first private offer contribution to the expenses of the hospital train fund came in a letter to Governor Bradley Thursday night. It was from Mrs. G. Holzhauser of Newport. She said: "If you have no money in the state treasury, why not appeal to the citizens in general for every one to give what they are able to defray the expense of bringing these poor neglected boys home."

"I have no one in the army, but I have been helping the poor women and children of our gallant Sixth infantry ever since they left here, and I am ready to head the list with \$100 to bring the poor boys back."

Dr. Swallow Talked on Prohibition.

WILLIAMS GROVE, Pa., Sept. 3.—The twenty-fifth annual gathering of the State Grangers came to a close at this place yesterday. Prohibition day was yesterday and Rev. Dr. S. C. Swallow was the principal speaker at the afternoon gathering. He deviated from his

topic at one point to touch on Quayism, but in the main confined his remarks to the cause of Prohibition.

PRESIDENT HONORED DEAD.

Met Detail of Seventy-First New York Escorting Remains of Two Heroes to Their Graves.

NEW YORK, Sept. 3.—While on its way to Fifth Avenue hotel yesterday afternoon, the carriage containing President McKinley, Vice President Hobart and Private Secretary Porter met a detail of the Seventy-first regiment escorting the remains of Corporals Sheid and Immen, who were killed in the charge of San Juan hill, to the cemetery.

With reverential respect the president and his party removed their hats. The president's head was lowered and he seemed to be deeply affected by the spectacle. The president's carriage followed the funeral cortege a couple of blocks down Fifth avenue below the hotel and then returned.

Both Satisfied.

Hicks—Wheeler and Brassey met for the first time yesterday, and they got on together famously. They kept up their talk until late in the evening.

Wicks—What were they talking about?

Hicks—Bicycles and golf.

Wicks—But Wheeler doesn't know the first thing about golf.

Hicks—Neither does Brassey know anything about bicycling. But that makes no difference. Each kept it up on his favorite topic without listening to the other.—Boston Transcript.

President Greeted Naval Reserves.

NEW YORK, Sept. 3.—President McKinley was on the balcony of the Fifth Avenue hotel fanning himself with his hat yesterday afternoon when the naval reserves from the Yankee passed. He jumped to his feet and clapped his hands, and when the tars presented arms, bowed in answer to their salute. The sailors were surprised and delighted at being reviewed by the president.

No Prosecutions to Occur.

WASHINGTON, Sept. 3.—It was announced at the treasury department yesterday that there would be no prosecutions, as the outcome of recent investigations of the manner in which several thousand bonds were subscribed for in New York.

No Fusion in Wisconsin.

MILWAUKEE, Sept. 3.—The failure of the Democratic state convention to fuse with the Populists on a joint ticket will result in the Populist ticket being placed on the official ballot with the other state tickets. All hopes for fusion are now shattered.

EPWORTH LEAGUE.

Lesson For the Week Beginning Sept. 4.
Comment by Rev. W. J. Yates, A. M.
Topic, The Mustard Seed.

SCRIPTURE READING.—Math. xiii, 31, 32. "The kingdom of heaven is like to a grain of mustard seed, * * * the least of all seeds, but when it is grown it is the greatest among herbs."

This is the kingdom of God on earth, the church of Jesus Christ. At Pentecost it numbered 120 persons, a small beginning for a religious society making such claims and with aims of world wide expansion. It was both small and weak. Many times since it has seemed as if it was high extinction, yet it lives and grows both in numbers, influence and meaning. It is not a crystal but a living growth. Ages old, it has not yet reached its largest and highest development.

Very notable has it been in the expansion of the inner life thought. During the earlier Christian centuries the nature of the person of Jesus Christ and His relation to God were prominent in the teaching of the church. All shades of opinion were developed until in course of time the truth was clearly established. Afterward came the question of the mediatorial work of Jesus, then the nature of the church and rights of the individual, afterward the thought of the people centered more on the needs and capacities of human nature and the practical, humanitarian side of religion. There has been a steady progress in the doctrines emphasized and also a continual advance in the better understanding of each great truth held as doctrine.

Most impressive have been the numerical gains of the Christian church in the 2,000 years or less of its history. By the year 100 A. D. the little band of 120 had increased to 500,000. In 500 A. D. it was 15,000,000; 1000 A. D., 50,000,000; 1500 A. D., that number had doubled. In the next 300 years it had doubled again, so that 1800 A. D. counted 200,000,000 communicants in the church.

Most wonderful of all is the progress of the last century. This is the age of evangelizing agencies beyond all others the world has ever seen. In 90 years past the membership of the church has more than doubled and its aggressive power and efficiency greatly increased. It stands today as the most influential religion on earth and, though not so large in numbers as Buddhism and heathenism, it possesses aggressive life far in advance of either. Burma and India have now more Christians than all the world in A. D. 70.

In 1700 A. D. there were 155,000,000 people under Christian government. Now there are 685,000,000 under the rulership of Christian nations. The increase since the rise of Methodism has been one-third the population of the earth. The seed has become a great tree.

Remember the Needy.

There is an increasing spirit of helpfulness on the part of common people toward those around them. The rich have always been expected to help the poor because they have had large ability. The poor always have helped their own because of the spirit of sympathy with those in like condition. Many people with neither poverty nor richness have been neglectful of their duty and privilege because they did not have the responsibility and opportunity afforded by wealth and did not have the keen sympathy pressed home upon them by pinching want. The mercy and help department of the League and similar committees in other societies are doing much to show people what to do and are aiding them to overcome diffidence and natural shrinking and enter heartily on the work of helping others. Many people feel great backwardness in visiting the sick. They don't know what to say or do. They don't know how they will be received. Carry a little jelly, some fruit, a few flowers, some pretty ornament or book or cheering picture and make this the occasion for a few words of sympathy and helpfulness, and the task is easy. Try it once, and you will learn in doing what can never be learned in merely thinking about it.

Which Is the Best?

"Ours is the toniest set in town," "We are very exclusive, only the most select are admitted," "We include the oldest and wealthiest families," "The best dressed and most cultured of the place belong to us," "The jolliest crowd you ever saw," "Literary and musical talent only, delightful times," "Will you join us?" Which course shall a young person choose among so many attractive ones? Weigh and gauge all and decide what is worthy and will be of highest value.

Is goodness and character of real worth to you? What is your supreme aim—to shine, to have a good time, to get knowledge, wealth, position, or to be noble in heart and life? The best society is that which includes the purest, noblest, most worthy people. Wealth, fame, wit, family, taste, talent, may all be possessed by the morally vile. Companionship with them will not give you any advantage, but will be apt to communicate to you their viciousness. The best is the virtuous, the pure and good.

Our Enemies.

Our enemies are rich in resources and can easily turn every movement in our midst to our disadvantage. They are ever eager and on the lookout to seize

A magnificent example of what care of health will do for a man is presented in the life of Mr. Gladstone, the greatest statesman of the century. This "Grand Old Man" at eighty-six years of age, retained his intellectual vigor unabated, and had not lost the sinewy grip with which he fastened upon any subject that interested him.

Nearly every man has it in his power to live to green old age like the great statesman of England. It is simply a matter of a little daily thought and regard for health. If, when a man feels that he is a little out of sorts, he will resort to the right remedy, he will never have to submit to the more serious ills of life. Most men, when they have a headache, feel drowsy during the day and are restless during the night, and find their appetite falling off, pay little or no heed to these warnings. The inevitable result is some dangerous and possibly fatal malady. The doctor may call it consumption, malaria or biliousness, or perhaps some blood or skin disease. It makes but little difference. These troubles all have their inception in the same cause—improper and insufficient nourishment. Dr. Pierce's Golden Medical Discovery corrects that cause. It makes the appetite keen and hearty, the digestion perfect, the liver active and the blood pure and rich. It is the great blood-maker and flesh-builder. It facilitates the assimilation of the life-giving elements of the food, filling the blood with the nutriment that makes new and healthy flesh and nerve tissue. Medicine dealers sell it.

"Last summer," writes Miss Laura Piersel, of East Bethlehem, Washington Co., Pa., "I was going into consumption. Dr. Pierce's Golden Medical Discovery completely cured me."

A man or woman who neglects constipation suffers from slow poisoning. Doctor Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic.

MAKE IT PUBLIC.

Publicity Counts—That's What the People Want—East Liverpool Expression on the Subject.

Make it public.

Tell the people about it. Gratitude promotes publicity. Grateful citizens talk. They tell their neighbors—tell their friends.

The news is too good to keep. Everybody should know about the little conqueror.

"Bad backs" are numerous. So few understand the cause. Many East Liverpool people are learning.

And better still, they're being cured. Lame backs are lame no more. Weak ones regain their strength.

This is the every day labor in East Liverpool.

Of Doan's Kidney Pills.

Our citizens are making it public.

Mrs. Carline White, of No. 225 Railroad street, says: "I used Doan's Kidney Pills and found great relief from the treatment. My back ached so long that I forgot when I was first troubled. I am 70 years of age and had about given up all hope of ever being helped. I took medicines, but they did not prove very beneficial; my back ached just the same in the region of the kidneys, and got stiff and lame when sitting long or when lying in bed; sharp twinges of pain and other symptoms convinced me that my kidneys were out of order. Always on the outlook for anything that might bring relief, when I heard Doan's Kidney Pills so highly spoken of I got a box at the W. & W. Pharmacy. After using them for a short time I could plainly notice the good effect they were causing. I continued on them for some time longer and gradually but surely improved. I found Doan's Kidney Pills a splendid remedy and advised others to try them, feeling confident if they do so they will have no reason to regret it. I know of a number of people here in the East End that swear by Doan's Kidney Pills."

Doan's Kidney Pills are for sale by all dealers. Price 50 cents per box. Sent by mail on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

WELLSVILLE.

TO SUGGEST A NEW LAW

Doctor Reager Would Have
All Saloon Loiterers

PUNISHED WITH THE KEEPER

He Has Invited the Board of Education
and Teachers and Scholars of the Public
schools to Be Present—All the News of
Wellsville.

Doctor Reager has announced that he
will tomorrow evening deliver a ser-
mon in which temperance will have an
important place. The board of educa-
tion, teachers and scholars of the public
schools are invited to be present.

It is the purpose of Doctor Reager
during the evening to suggest the enact-
ment of a new law by council, and the
congregation will be asked to vote upon
the suggestion. The proposed ordinance
is to cover all persons found loitering
in a saloon when the proprietor is break-
ing the Sunday law as it now stands.
The enactment of such an ordinance
would doubtless decrease the patronage
of any saloon doing business on Sunday.

The Bicycle Races.

Considerable interest is aroused over
the bicycle races arranged to come off
this evening. At 10 o'clock this morn-
ing Clare Stall, Gaines Apple, Clyde
Sinclair, Henry Goetz and Charles Mc-
Gregor had entered. The race will be a
handicap with McGregor as scratch
man. Five o'clock is the hour set for
starting. M. Shingler furnishes both
prizes, a medal and a L. A. W. pin.

Threw Out the Stove.

This morning a fire occurred at the
residence of J. W. Riley. Fifth street.

The drapery of a window near a gas-
oline stove became ignited, and as Miss
Dora Thomas, a domestic in the family,
was endeavoring to put out the flames
the stove was upset and for a time it
looked as though results would be disas-
trous. Fortunately W. J. Johnson and
A. C. Fogo were passing the house and
promptly removed the stove, and the
fire was extinguished. No one was se-
riously burned.

The Churches.

First Presbyterian church, H. W.
Lowry, pastor—Services will be held at
the regular hour in the morning, sub-
ject, "Peace." No service in the even-
ing.

Services are expected as usual in the
Christian church conducted by the
pastor, H. N. Miller.

Methodist Episcopal church, J. S.
Reager, pastor—The last communion
service of the conference year will be
held at the usual time for morning ser-
vice. In the evening a special service
will be held in the interest of our
schools, our teachers and our children.

Methodist Protestant church, C. W.
Stephenson, pastor—In the pastor's ab-
sence Mr. Steele, of East Liverpool, a
student of Adrian college, will fill the
pulpit in the evening. The regular
church service will be omitted.

United Presbyterian church, W. A.
Littell, pastor—Morning subject, "Kept
by the Power of God;" evening subject,
"Wisdom to Count Our Days."

The News of Wellsville.

Reverend McKee's new residence is
completed and is being furnished. The
family expect to move in by the middle
of next week.

G. A. McKim, of Martin's Ferry, was
in town yesterday.

Mrs. B. Rand is now convalescing
from gastritis from which she has been
suffering for the past month.

Assistant Trainmaster Keck, who has
been out of town attending to railroad
business, returned yesterday.

Mrs. H. A. Sterritt spent yesterday in
Steubenville.

Dick Haugh took in the races at Steu-
benville yesterday.

Mrs. Ann Henderson, Main street,
who has been in a precarious condition
owing to a fall received a few weeks
ago, is at last improving, and her many
friends now rejoice with her in the hope
of regaining her usual strength and
activity.

Only five members of the Wellsville
Improvement company were present at
the adjourned meeting held last even-
ing. If any business was done not one
member present will say a word about it
this morning.

A general gathering of the clans is
taking place preparatory to the starting
of school. Both teachers and scholars
are arriving on every train.

Mrs. D. W. Manchester, of Cleveland,
is visiting her father, Mr. John Eidenier,

Low Rates and Best Route For National Encampment.

The Thirty-second Annual National
encampment of the Grand Army of the
Republic at Cincinnati, Sept. 5 to 10,
will be a highly interesting event. The
war with Spain which has just termin-
ated in glorious victory for the Stars and
Stripes will imbue the old soldiers with
a stronger love for the flag under whose
folds they will gather by thousands
to make this year's encampment a
grand jubilee, in which the veterans of
1861-'65 will be joined by the volunteers
of 1898.

The exceptional low rate of one cent
per mile over the Pennsylvania short
lines will enable thousands to enjoy the
occasion at slight expense. Tickets over
that route will be sold Sept. 3, 4, 5 and
6, with return limit covering Sept. 13.
By special arrangement the return limit
may be extended until Oct. 2, inclusive,
which will allow ample time for side
trips. The various lines diverging from
Cincinnati will sell special excursion
tickets to points east, north, west and
south of that city, affording opportunity
for visits and sight-seeing trips at low
fare.

The regular train service will be aug-
mented by special trains as may be nec-
essary, and the Pennsylvania system's
record for expeditious and satisfactory
transportation facilities on such occa-
sions may be taken as a guarantee that
everything will be done to make passen-
gers comfortable and happy.

For special information as to rates,
time of trains and other details, apply to
Adam Hill, ticket agent, East Liver-
pool.

EAST LIVERPOOL, O., SATURDAY, SEPT. 3.

UNION PAPERS.

All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns.

Monday being Labor day and a legal holiday there will be no issue of the News Review. All the news Tuesday.

It is sincerely hoped that all the people of East Liverpool will join heartily in the celebration of Labor day. The law makes it a day of rest, and it should be observed by everybody.

The yellow newspapers still appear to themselves in a halo of glory, but that glory is not the bright and shining thing it was when the war began. The American public is sick and tired of fakes.

The death of Private Switzer is indeed sad. He saw no fighting, but he obeyed the orders of his superior officers, did all that a good soldier could do, and as truly gave his life to his country as though he had been shot down in the heat of battle. Peace to his ashes.

If the Democrats are determined to make the war a political issue they should bear in mind that the Republicans will not catch the hot end of the poker. There were some actions on the part of Democratic members of congress soon after war was declared which will not stand the closest investigation by a patriotic people.

Now they want to nominate Mayor Ed Moore, of Youngstown, for governor. His friends probably realize that it would be a waste of time and money to put him in the congressional race against Hon. R. W. Taylor, but hope to gain him prominence by the gubernatorial boom. If being known as a good fellow is worth anything in politics the genial Edward will likely be heard of when the Democratic hosts gather next year.

ANOTHER LIBEL.

The Pittsburg newspaper which charged East Liverpool's soldiers with looting a jewelry store in Santiago, continues to libel the Eighth Ohio in the most industrious manner. The last appeared this morning in the report from Montauk. It refers to the visit of President McKinley:

"All of the 'President's Own' who are able were busy today cleaning up their clothes and polishing their arms in anticipation of the visit. But this was done in a listless, don't-care sort of way, indicating that the men's minds were on something entirely foreign."

The friends of the Eighth will read the observation with little thought of taking it as truth. The regiment has gained distinction as the "President's Own," and it is not now, after all these weeks of hardship and suffering, preparing to do anything but cover itself with additional glory. The Eighth recognizes the President's interest in its welfare.

AT CAMP DEWEY

Soldiers of the Tenth Supported the Rebels.

NO ANSWERING SHOTS FIRED

Wild Marksmanship of the Spaniards. How Ingenious Ones Improved Upon the Arrangements Made by the Government. Dog Tents Not the Most Comfortable Place in the World—An Interesting Letter From Captain Palmer.

MANILA, CAMP DEWEY WITHIN FIVE MILES OF THE CITY PROPER, July 28.—I have only time for a line to catch the mail for the United States.

We have been on duty close up to the insurgent lines, and have been subjected to a hot fire, arrived at the rifle pits but more calculated to do the Americans harm than the rebels, or Philipinos, as we term them. We were not permitted to return the enemy's fire as we were merely backing up the insurgents and seeing that the Spaniards did not break from the citadel, where they are cooped up to the number of about 11,000. Near 5,000 prisoners have already been captured by the insurgents.

General Merritt has just arrived with the third expedition and we are awaiting the arrival of the fourth expedition, after which Merritt and Dewey may make Rome howl.

I have some relics from the wreck of the Reina Christiana, the flagship of the Dons, which Dewey sank, along with the rest of the Spanish vessels. I have been ashore at Cavite and don't care to repeat the performance. The natives are dirty and filthy and a clean man hates to come in contact with them. The streets are very narrow, permitting the two wheeled vehicles, drawn by diminutive ponies, to pass one another, and that is about all. Dogs and babies abound, while fleas and mosquitos hold control. The fruits, in so far as we have seen them, are not good "seconds." Poor bananas, poor pineapples, poor oranges. Ground very fruitful and rich, all the way down to ocean level, but natives too lazy and shiftless to work it for results. A live Yankee could make a fortune, in case he desired to live in this miserable country.

We are in condition, so far as possible, to reside in comfort. The "dog tents" issued by the government will accommodate two men, and roast them to death in a sitting posture on the hot sand. Corporal John Daniels and myself are messmates. I invested about \$1 of our money for a bamboo cot, and we raised the same about 2½ feet from the ground by the use of four stout corner poles; then we secured a long center pole of dried bamboo, erected two end stakes, three feet in the ground and 5½ feet in the atmosphere, and made our ridge pole; then we erected three side stakes, spread our dog tents over this, closed the rear of the tent, added our two gum blankets to the front, along the ridge pole of dried bamboo, and we now have a tent which is the envy of many of the other boys; most of our boys are putting up tents of different patterns, while the lazy and shiftless customers, always found in every company, sweat and swelter and growl.

We dare not drink the water, on account of the fever germs. It is clear as crystal and nice to the taste, but has been branded dangerous, and the flat has gone forth from military headquarters: "All drinking water MUST be boiled." We have the cooks boil in the afternoon or evening, then fill our canteens and hang them up in the shade over night, and the water is passably cool the next morning, tasting of smoke very sadly, but quite wet. Oh, how we sometimes long for a good drink of spring or well water, and we are forced to admit that "we never miss the water 'till the well runs dry." It is raining almost every day and raining very hard, and we are informed by the natives, through our company interpreter, that "it will only last about six weeks." Quite a comforting assurance, is it not? Do you imagine that we are lazy and shiftless? Look at this daily routine:

 So you see we are kept quite busy. In the afternoon we have it comparatively easy, as the heat is very intense and too much exertion is actually dangerous.

Dewey and Merritt form a strong combination. With the monitors Monterey and Monadnock in harbor, we can laugh to scorn any effort of the Spaniards on the water, while we can easily handle any force they may pit against us on land. We are anxiously awaiting the order for an advance on Manila, and ere this reaches you an engagement may have settled matters. The natives remain comparatively quiet during the daytime, but open up with artillery and infantry after nightfall, keeping it up all night and certainly rendering the Spaniards uneasy. Thus far, the insurgents have had plenty of guns and ammunition, articles supplied them by Dewey from the wrecks of the Spanish vessels. Then the insurgents have also taken a hand in capturing about four or five thousand Spaniards, thus securing much ammunition and a large number of Mauser rifles. The natives profess to love the "Americans," and cordially hate the Spaniard, making motions indicative of cutting the throats of the latter whenever you mention them.

But this condition of affairs may soon cease, in case the Yankee finds it necessary to take possession of the Philippines for his own use. Then the stern mandate of war will demand that fire and torch and galling and maiming and heavy shot and shell shall do their deadly work. I have made a slight tour of the island and have been amazed at the condition of affairs. You enter what looks like a complete forest of small trees, expecting to find privacy, and you find, in reality, a complete system of small roads and bypaths, with bamboo huts and inhabitants on every hand, so densely packed as to cause you to wonder how in the name of common sense how they manage to exist. The men are small in stature, but are tough and wiry customers. The women are passably good looking in their teens, but become hideous as they grow older, it being a rare feature to see a woman of middle age with good teeth.

Remember me kindly to one and all of the friends in East Liverpool and the surrounding country. We shall try to do our full duty and take care of dear Old Glory and that which she represents, God and Humanity. I often wonder how Sergeant Frank Leslie Trump and the comrades of Company E are getting along. I hope that Captain Hill will make a command which will cover itself and East Liverpool with glory. "God be with you till we meet again." Give my best to the boys and girls of the NEWS REVIEW force.

JOHN HAY IN COLLEGE.

How the Ambassador Rescued Members of His Fraternity From Ignominious Deaths.

While in Brown university Ambassador Hay, who will shortly become secretary of state, was an enthusiastic Theta Delt. He soon became universally beloved by the members of his chapter, who elected him presiding officer in the beginning of his senior year. He also composed several songs for the fraternity, one of which closes with those lines sung with so much effect at every reunion, but especially at the memorable one of 1870:

And if, perchance, one sadder line
 May mingle with the strain
 For those, the lost, whose loving voice
 We ne'er shall hear again
 Let this rejoice the heavy heart
 And light the dimming eye—
 The gates of Eden are not closed
 To Theta Delta Chi.

Neither was this enthusiasm laid aside with the commencement gown. Although college halls have long ceased to echo his footsteps his memories of Theta Delta Chi are still green. Thus on two occasions, while private secre-

tary to the president, he was the means of rescuing members of the fraternity from ignominious deaths. The first of these instances was told by Brother Gilbert in his admirable "Reminiscences" in an old number of The Shield. The second was his well known agency in the case of another Confederate brother, who, by a misunderstanding, was supposed to have broken his parole. He was taken, among others of Morgan's guerrillas, and would have been executed had not the findings of the court martial, forwarded to President Lincoln for his approval, passed through Hay's hands. Seeing who it was that was in such a predicament, he at once went to the president and obtained the brother's pardon.—William L. Stone in Shield.

HIS LAST LONG HOME

Now Knows the Presence of Private Switzer.

HE PASSED PEACEFULLY AWAY

Soon After Last Midnight, Having Seen His Father and Mother, the One Wish He Had Expressed—Funeral Services This Evening.

Private Charles W. Switzer, of Company E, died this morning at 1:15 o'clock at the home of his brother in Fifth street from an attack of typhoid malaria, aged 25 years, a victim of the Santiago campaign.

Deceased was born in Brownsville, Monroe county, and came to the city a short time before the Eighth Ohio regiment was called to the front. When Captain Hill began enlisting new recruits Switzer was one of the first to join and stated that he felt it was his duty to go.

He was a model young man of exemplary habits, highly respected by all and was a splendid specimen of manhood, weighing 190 pounds. With the members of Company E he was a general favorite, and when he became ill many hearts in the company were made sad. This week when Dr. Hobbs went to Montauk Point he found Switzer in the detention hospital, and knowing that he could not live a day unless better cared for determined to take him. Switzer felt that he was going to die, and frequently stated that if he could just see his father and mother before he passed away he could rest in peace. When the train reached Pittsburgh an effort was made to have him enter a hospital in that city, but he firmly refused and wanted to get home to meet the ones he loved so dearly.

When he arrived here he weighed but 110 pounds and did not look like the hale and hearty soldier who left the city but a few months ago. He was taken to the home of his brother where every possible attention was given him, and the neighbors did all in their power to assist him. He began to sink and yesterday morning his father and mother arrived from Brownsville in order to be with their boy who had given his life for his country.

He was perfectly rational and after he had seen his mother and father spoke of death. When his last hour came he was ready to pass into the great beyond without a murmur, and the almost heartbroken mother and father have the satisfaction of knowing that he has gone to a happier home.

The news of his death cast a deep gloom over the city and all the flags in town were placed at half mast while many were the expressions of sorrow heard on every hand.

Deceased was a nephew of George P. Schmidt and a member of the Junior Mechanics.

The funeral services will take place this evening at 6:30 o'clock and will be in charge of the Sons of Veterans, Dr. J. C. Taggart officiating. The remains will be accompanied by two of the members of Company E, and will be taken by boat this evening to his old home for interment.

NEW DIRECTORS

Who Will Control the Destinies of the Association.

The board of directors of the Young Men's Christian association met in the parlor of the association building, last night, for the purpose of reorganization. The meeting was a very short one. The following board was elected:

For one year, George C. Murphy, Proctor Ankrum, J. C. Clements, Charles Boyce; for two years, J. J. Purinton, Robert Hall, Enoch Elden, D. M. Ogilvie and Dr. J. C. Taggart; for three years, George Sebring, A. H. Bulger, W. A. Weaver, Dr. William Calhoun.

The board will meet in the near future for the purpose of electing officers for one year. At the same meeting a new secretary will be elected and other matters pertaining to the welfare of the organization will be talked over.

The lecture course will be arranged in the near future, and will, it is said, consist of five entertainments, commencing in November and ending in March.

Read the Splendid Offering of the Banfield Land Company.

The Banfield Land company, Chester, W. Va., will now offer to the people of East Liverpool unparalleled inducements to own their own homes at hitherto unheard of prices.

This company has just purchased all of that beautiful, level land, lying between the chapel and Rock Springs and the Ohio river, containing 150 acres, and have purchased it at a very low price, and we now propose to give the public the benefits of it.

This land is regularly laid out in lots, and the plat recorded at New Cumberland, the county seat of said county. The lots are very large, being 40 feet by 140 feet in size, and fronting on 60 foot streets and 20 foot alleys. These lots we will sell from \$200 to \$350 per lot, and on terms to suit the purchaser, with six per cent interest.

Anyone wanting to build a house, we will erect the same at figures just covering its cost, and loan the party the money, at six per cent interest, and take payment in such sums as will suit the purchaser.

We also guarantee street car service to the Diamond all the year round.

SERGEANT TRUMP HOME

He Arrived With Privates Simms and Beatty.

SOMEBODY GOT HIS WATCH

While He Was Being Taken From Montauk to New York—Met Private Simms After Leaving the Hospital, and Both Secured Furloughs.

Sergeant F. L. Trump and Privates Thomas J. Beatty and Ezra Simms arrived this morning from New York.

The boys have all been ill, and are still very weak, having suffered from malaria.

Sergeant Trump when seen this morning said: "I was ill when we left the Mohawk, and was placed in the general hospital at Montauk Point, where I received the best of treatment. Carloads of milk and fruits of all kinds are coming into the camp every day. I stayed in the general hospital until Thursday morning when I was placed aboard the hospital ship Shinnecock with 217 other soldiers to be taken to New York to be distributed among the various hospitals in order to make room for another ship load of soldiers coming from Cuba. I objected to going, and when I arrived in New York was given permission to go the army and navy building to get a furlough. I did not find the officer at home and while coming out met Ezra Simms and we spent the night together in New York. Yesterday morning I got my furlough, and started for home at once. All sick soldiers are given sleeping berths.

"While on board the Shinnecock some one stole my outfit, watch and all the relics I had gathered in Cuba. I had some Spanish explosive bullets in the collection. "Private Simms has lost the sight of his right eye, but the left eye is as good as ever. He is very weak, having had a severe attack of typhoid malaria. "I haven't seen any of the company since I left the Mohawk and cannot tell you anything about them."

Sergeant Trump did not see his wife who had gone to Montauk Point to see him, but as the news of his departure is known there it is probable she will arrive this evening.

TOMORROW

East Liverpool Soldiers Will Start For Home.

The following telegrams were received in the city this morning. They are self explanatory.

"MONTAUK POINT, L. I., Sept. 2.—Trump, Beatty, Simms, Poole started home yesterday. Balance of sick doing well and will probably be home with company which will start Sunday. Dr. Hobbs is looking carefully after the sick and we may bring some of them home with us.

W. H. SURLS."

Doctor Hobbs telegraphed as follows: "MONTAUK POINT, L. I. Sept. 3.—"Gladfelder released from quarantine hospital and started for home. Carnahan and Holloway transferred and receiving the best of care.

W. A. HOBBS, M. D."

"MONTAUK POINT, L. I., Sept. 3.—Ladies of the Red Cross, East Liverpool.—The boys of Company E express gratitude, and say God bless Red Cross society and friends East Liverpool.

W. H. SURLS."

Full of Business.

The following old time handbill issued near Lancaster, England, must have come from one who was emulating the example of the man who had five talents and made of them five talents more. Let us hope he was rewarded:

"James Williams, parish clerk, sexton, town crier and bellman, makes and sells all sorts haberdasheries, groceries, etc.; likewise hair and wigs drest and out on shortest notice. N. B.—I keep an evening school where I teach at humble rates reading, riting and rithmetic and singing. N. B.—I play an hooboy occasionally if wanted. N. B.—By shop next door see where I bleed, draw teeth and shoe horses with greatest scil. N. B.—Children taught to dance by me, J. Williams, who buy and sell old iron and coats; boots and shoes cleaned and mended. A ball on Wednesdays and Tuesdays."

An Immense Business.

At the freight depot yesterday an immense amount of business was handled. Not quite 20 cars were loaded and sent out from the outbound platform. An extra man was employed on the platform today on account of the large business.

Don't fail to see the latest neckwear novelty, the Protean scarf. To see is to buy one.

The Paris Bill Poster.

The bill poster of Paris is a more picturesque personage than his brother of New York. He plies his trade in all winds and weather, and he is nothing daunted by the assignment of a bleak suburban district on a rainy day.

He ties his posters—incased in a waterproof cover—across his back. He fastens on his paste pot. He mounts his bicycle. Then he opens his umbrella—for he is an expert wheelman and can manage it and his wheel at once. All over the umbrella are advertisements in little form of the article or the event which he intends to advertise in large by his posters, so his entire route is placarded, and he himself is a living advertisement.—Paris Correspondent.

Cries the Hours.

In Ely place, Holborn, the old custom of "crying the hours of the night by Charley" still exists. Charley, better known nowadays as the night watchman, has to call the hours in this spot from 11 p. m. till 5 a. m. Wet or fine, he must not neglect his duty.—London Globe.

There is a curious little Holland village in Wisconsin named Little Chute, whose chief manufacture is wooden shoes. The people there are as thoroughly Dutch as their progenitors. The town stands on the ground where Pere Marquette had his winter quarters, and where the Dutch priests instructed the Indians.

A GOOD MONTH.

Business at the Freight Depot Was Brisk.

Cashier Austin and his assistant, Clay Berger, are now busily engaged in making out the reports for the August business. They will complete their work about the middle of the month.

August at the freight depot was one of the best months of the year. Although some days were very slow other days made up for the loss of business.

FORTY KNOTS AN HOUR.

A Boat That Can Cross the Atlantic in Three Days.

Among the bidders for the contract of building the new torpedo boat destroyers for the United States navy is Richard Peyton of Williamsport. His bid attracts special attention because he proposes to build boats which are to have a speed of 40 knots an hour. This is five knots faster than any other boat now afloat. There has been considerable speculation concerning the methods by which Mr. Peyton expects to attain such a marvelous feat in marine engineering. Members of Mr. Peyton's firm say he will use electrical motors and a new system of propellers, operated from a switchboard and ranged along the side and stern of the vessel.

The only boat at all approaching the proposed speed is the Turbinia, an English boat. She has a speed of 35 knots, but was not designed for naval use. When Mr. Peyton's offer was made public, engineers thought perhaps he intended to model his boats after the Turbinia, which itself marks a new triumph for marine engineers.

The Turbinia, whose inventor, Mr. Parsons, expects to be able to cross the Atlantic in three days, is now the fastest vessel of any description afloat. With ordinary draft she can run away from the fastest torpedo boats, making 24 knots an hour. Under forced draft the Turbinia can make 35 knots an hour. Her coal will last for three hours only, but in that time she can steam more than 100 miles.

The Turbinia is 100 feet long, with a beam of 9 feet, and carries a crew of 10. She has 2,100 horsepower, can produce 30,000 pounds of steam an hour and has a pressure of 225 pounds a square inch in her water tube boilers. Her three propeller shafts have each three screws, several feet apart. These screws revolve 2,500 times a minute without causing perceptible vibration. The engines can be raised to full speed from a standstill in 30 seconds.

Mr. Parsons calculates that a 15,000 ton liner, furnished with steam turbine motors, can cross the Atlantic in three days. The coal consumption would be 1,500 tons daily, but the extra coal bunker room required will be offset by the smaller space devoted to the machinery. Such a vessel could carry as many passengers and as much cargo as a vessel of the same tonnage propelled by the ordinary machinery. Mr. Parsons speaks of 12 minute trips from the Battery to Staten Island in small turbine motor boats as practicable.—New York Journal.

HIS TACTICS A MISTAKE.

A Ruse That Cost The Finder of a Check Dollars.

A messenger employed by one of the large banking houses in Wall street, New York, lost a certified check for \$35,000 which he had been sent to deliver the other day. The first intimation that the bankers received of this loss came a few minutes after the messenger had left from a seedy looking fellow who asked for one of the members of the firm. The clerks tried to stave him off, but he insisted that his business was private and important. To the banker he said:

"You have lost a certified check for \$35,000."

"How do you know that?" asked the banker calmly.

"I saw a man pick it up."

Knowing that such a check had been sent out and suspecting that the seedy man had found it the banker stepped into an inside office and notified by telephone the bank on which it had been drawn to stop payment on it if it should be presented there. Then he returned to the seedy man and said:

"How did you know it was our check?"

"I was so near the man who picked it up that I could read it," said the seedy man, with visions of a big reward.

"All right," replied the banker. "We are much obliged to you," and the seedy man stumbled out somewhat dazed at the calmness with which his information was received. Five minutes later another man, equally seedy in appearance, walked into the office and announced that he had found a check for \$35,000 belonging to the firm. He handed it over, and a reward of \$5 was given to him. If he had not tried to fool the bankers by sending his partner ahead, he might have been better paid for his find.

Fines For Heroism.

The yearly salary of Captain Clark of the Oregon is \$4,500 while at sea. Now that he has been forced to request a sick leave he will be paid at the rate of \$2,800. In other words, the gallant captain who brought his battleship on a record breaking trip from San Francisco in time to take the principal part in smashing Cervera's fleet will contribute to the government \$1,700 of his pay, or a proportionate amount for the time he is absent from sea duty. This rule does not apply alone to Captain Clark. It affects every man in the navy, from rear admiral to boatswain. It is the law. This law of course was to meet the needs of a peace basis. It can have no just relation to the present state of affairs. Congress should promptly amend the statute, and if the government cannot afford to increase the pay of these gallant men let them be paid in full for the time of their sick leave.—New York

Summer In Colorado.

Colorado is particularly inviting as a summer haven. The climate is remarkable for its invigorating effect, and the state is rich in grand scenery and points of interest where a vacation may be pleasantly spent. Special arrangements are being made for the entertainment of visitors who are this season expected to be attracted to the seclusion and quiet of the Rockies and the hills and canyons of that great wonderland.

Colorado today is nearer home than in former years. The fast schedules of the Pennsylvania route and connecting lines bring the centennial state within easy reach, and the cost of a trip thither is no longer a luxury. The special low rate tourist tickets over the Pennsylvania lines places the cost for transportation within the limit of the usual allowance for vacation trips. For special information about rates, time of trains and other details please apply to nearest Pennsylvania lines ticket agent or address J. K. Dillon, D. P. agt., Pittsburg, Pa. *

NOT A VERY GOOD WEEK

Toadix Carey Did Not Make an Exceptional Record.

MORE GOOD WORDS FOR MERCER

They Say He Is a Better Shortstop Than Pitcher—Local Players Will Aid Cumberland In Defeating Toronto Next Saturday.

The record of George Carey in the last eight games with the Minneapolis club is not up to his usual average and his batting has been very weak. Out of 27 times at bat he hit safely but five times. In fielding he had 98 putouts, two assists and two errors.

Alf. Shaw is doing all the catching for the Syracuse team and is playing a good game of ball. His record in the last seven games played is five hits, 27 putouts, 9 assists and three errors.

Sporting Life this week says: "Win Mercer, the Washington pitcher, has been playing short field of late, and he is making more of a success of it than he has of pitching this season."

The St. Louis correspondent says: "Mercer may be a great pitcher, but as a short stop, well, we have seen better."

John Godwin is today playing ball with the Rochester club.

The New Cumberland club is not playing ball today, but next Saturday will cross bats with Toronto, and will be assisted by several local ball players.

There is but little chance that the Liverpool and Wellsville teams will come together this year as neither of the clubs seem to have much desire to play.

THE G. A. R. ENCAMPMENT

How Cincinnati Will Entertain Members of the G. A. R.

The encampment week in Cincinnati is Sept. 5-10. Hon. Gustav Tafel, mayor of that city, proposes to issue a proclamation calling upon the people of Cincinnati and vicinity to join in a grand peace jubilee encampment week. The civic and industrial parade, set for the next day after that of the veterans—Thursday, Sept. 8—will probably be made the foundation of this jubilee proper, while the fireworks of the evening of the same day will add to the rosy hue of the jollification. Indeed the whole week will be one of good feeling and glad tidings, to culminate in Thursday's expression.

Fate and the badly whipped dons have thus lent a new interest to the Cincinnati encampment and will undoubtedly add greatly to the vast concourse of people from all parts of the country, who will gather in the Queen City the week of September 5-10. A striking illustration that we have been at war will be given on Tuesday, when it is expected that many of the convalescents now in the hospital at Fort Thomas, near Cincinnati, will participate in the naval veterans' parade on Tuesday. In addition the people of Cincinnati are trying to secure the presence of the Sixth infantry regulars, who did such magnificent service on San Juan hill before Santiago, with terrible losses to the regiment.

First Memorial of the War.

One of the first permanent memorials of the Spanish-American war to be erected in this country has been just placed in the chapel of the Naval academy at Annapolis, Md., in memory of Lieutenant William Jenkins, who perished in the Maine disaster. The memorial, which takes the form of a mural tablet, was subscribed for by the classmates of the officer and has been cast in bronze from the design of Charles Rolinson Lamb. A faithful model in high relief of the ill fated vessel is shown above the inscription, which reads as follows: "In memory of Friend William Jenkins, Lieutenant, United States Navy, class of '86, United States Naval Academy, who perished in the explosion of the United States steamship Maine on the night of Feb. 15, 1898, in the harbor of Havana, Cuba. He spoke evil of no man. Erected by his classmates."—New York Tribune.

Past Salaries of Actors.

A number of autograph letters of Edmund Kean supply some interesting information about the salaries of actors early in the century. One relates to an offer by Mr. Ellison offering Kean £3 a week as acting manager of "the new theater in Wych street." Later this rose as high as £25 a month. In 1826 Kean was offered \$12,000 a year to go to America. In the prime of his popularity he received £300 for a week in Edinburgh, and apparently reached the highest point when Mr. Bunn wrote from the Theater Royal, Dublin, on Feb. 8, 1829, and offered him £50 a night to play in Dublin and Cork.—Liverpool Mercury.

Topic For the Week Beginning Sept. 4.
Comment by Rev. S. H. Doyle.

TOPIC.—"Repentance and conversion—what are they?"—Ezek. xviii; 20-32; Acts xxvi, 19, 20.

Repentance and conversion are essentially similar in meaning. They refer to the turning, to the changing, of a man, under conviction and sorrow for sin, from sin to the service of God. Repentance may suggest more vividly the inward feelings and emotions under such an experience, and conversion the change in the outward life, but for all practical purposes both words include the same inward emotions and outward actions.

In the reference in Ezekiel the Lord Himself tells us what repentance is. In that from the Acts Paul describes it, and a comparison of the passages will show that Paul's theology is correct.

Repentance and conversion as described in these passages include conviction of sin, sorrow for sin, turning from sin, turning to God.

1. Repentance necessarily includes conviction of sin. No one will turn from sin except he is first convinced that he is a sinner. "When the wicked man turneth away from his wickedness * * * he shall save his soul. Because he considereth and turneth away from all his transgressions he shall surely live; he shall not die." Consideration leads to conviction, and conviction to conversion. It was not until David, under Nathan's awful declaration, "Thou art the man," was thus convicted of his sinfulness that he cried out to God in sorrow and repentance for forgiveness.

2. Repentance includes sorrow and grief for sin. Sorrow is not repentance, but it always accompanies it. We may be sorry for sin and not repent of it, but we will not repent of it without being sorry for it.

3. Repentance is turning from sin to God. These are the two essential elements of repentance. The sinner is convicted of his sinfulness, he is sorry for it, and then he turns from it to God. With grief and hatred for his sin, the sinner turns from it unto God and endeavors afterward new obedience. This is repentance as Scripturally defined. To Israel the Lord said: "Repent and turn yourselves from all your transgressions, so iniquity will not be your ruin. Cast away from you all your transgressions, whereby ye have transgressed and make you a new heart and a new spirit." A new heart and a new spirit would result in a new life. Paul said to the gentiles, "Repent and turn to God and do works meet for repentance." Repentance is not only ceasing to do evil, but also learning to do well. It is both turning from sin and turning to God. Have we repented? Have we felt sorry for sin, turned from sin, and are we serving God? Repentance is a personal matter between us and God. It brings God's pardon and forgiveness for sin. The absence of it causes the penalty for sin to fall upon our own heads. Let

us therefore repent, turn to God and do works meet for repentance.

Bible Readings.—Job xi, 13, 14; Isa. i, 16-20; lv, 6-9; Jer. iv, 1; xxxi, 18-20; Ezek. xiv, 6; Hos. vi, 1-3; xiv, 1-9; Zech. i, 3, 4; Mal. iii, 1-12; Math. iii, 1, 2; Mark i, 14, 15; Luke iii, 1-3; Acts ii, 38; Rev. ii, 5, 16.

Try to Find Out.

All ought to try to find out what they were made for. Every one has a place and purpose in God's plan. That purpose should be understood and fulfilled as far as possible. Every saved man is saved for some specific service besides his own happiness. God made no man simply for his own happiness, and He saves no man simply that he alone may be happy in heaven. He had a nobler end in both cases than the gratification of a selfish spirit. There is some service for every one in God's vineyard. Idlers are not wanted. Let us find what God wants us to do and do it. Let us do it in earnest and do it well. Then God will say, "Well done, good and faithful servant." Oh, how glad that will make us.—Christian Instructor.

Upon the Enemy.

Let us train our guns upon the enemy, mass our forces against all forms of sin. Let us exercise wholesome discipline, ridding ourselves of all persons who bring the church into disrepute. Let judgment begin at the house of God. Let us first be pure, then peaceable. The sooner we get back to our former methods the better, to the Holy Ghost revivals that sweep every obstruction out of the way, that cause backsliders to confess their sins and half hearted, compromising Christians to come out boldly on the Lord's side.—Philadelphia Methodist.

With Those Who Suffer.

We all need personal contact with those who suffer. "The most certain softener of a man's moral skin," writes Dr. Arnold of Rugby, "and sweetener of his blood are, I am sure, domestic intercourse in a happy marriage and intercourse with the poor." Gladstone never appeared nobler than when he read the Bible to an old street sweeper in an attic.—Our Church Paper.

The Spirit Robes Us.

When we have conquered an enemy, the Spirit robes us in humility. We must not think we are forgiving because our anger is getting tired.—Lutheran.

Close Range.

Hattie—So you and Jack quarreled, did you?

Ella—Yes. He said something that I didn't like and I told him we must be strangers henceforth.

Hattie—And did he fall on his knees and ask you to forgive him?

Ella—Not he! You see he—that is, his knees were occupied at the time.—Chicago News.

LOCAL BREVITIES.

Today is big pay.

W. H. Daniels, a prominent newspaper man of Erie, was in the city today.

W. M. Carey left this morning for Cincinnati where he will remain several days visiting friends.

The collection at the Christian church tomorrow will be given to the treasurer of the building fund of the new church.

Manager Swaney, of the telephone exchange, spent the day in Irondale and Salineville distributing the new directories.

The Grand Army last night held their regular meeting. Only routine business and matters pertaining to the encampment were discussed.

Mr. and Mrs. A. J. McCain will leave Monday for a two week's stay in Indiana and Kentucky. They will first visit friends in Madison, Ind.

This week Archie Seewers, who owns a large farm near Chester, sowed 21 acres of wheat and 12 acres of rye. This is the first grain to be sowed this year.

Will Leech left this morning for Detroit where he will remain several days. His work in the freight office is being looked after by Robert Wharton.

Elmer McCord, of West Market street, will leave next week for Chicago where he will remain several weeks with his brother who is a prominent railroad official in that city.

The street force are busily engaged in repairing the damage in Avondale street and expect to complete the work early next week. They will then commence work in Lincoln avenue.

Physicians yesterday afternoon cut off the third finger of the right hand of Jesse Carey. He has been suffering with a bone felon for several months and it was necessary to amputate the finger.

Officers Woods and Bettridge at noon today arrested and took to jail John Cain, Bill Gribbins, William Jackson in the patrol. They were charged with fighting near the Union pottery, and will be given a hearing this evening.

The fire committee last evening examined the old apparatus in the rear of the city hall and arrived at the conclusion that but little of it could be used for service in the East End. They will hold another meeting in the near future to make plans.

The many friends of Miss Stella Sink, of Jackson street, will be pleased to learn of her marriage last Monday evening in Parkersburg to Rev. J. W. Forshey, pastor of the M. E. church of that place. Mr. and Mrs. Forshey will reside in that city.

A bowling club will be organized in the city early next week. It is the intention to arrange games with teams from Pittsburg, Wheeling and other neighboring cities. The city has several good bowlers and will be able to hold their own with any.

The party given last evening at Columbian park by Mrs. J. G. Lee in honor of Miss Lowry, Miss Nellie Lowry and Miss Kneila Boyle, of Salem, was one of the most pleasant social events of the season. A large number of guests were present and spent a delightful evening dancing.

The Keystone State, which passed this place on its way to Pittsburg, last evening, grounded at Merrill at 9 o'clock and did not get in deep water until 3 o'clock. It came back to the Broadway wharf where it reshipped its freight and passengers on the noon train to Pittsburg. Forty-two passengers were sent.

The committee having in charge the funds being collected for Company E have received the following amounts: Previously reported, \$316.65; Wm. Brunt Pottery company, \$40; Miss Beatty, \$1 collected in East End, \$30.50; collected in the city, \$86.75; Homer Laughlin China company, additional, \$10; total, \$484.90.

THE PASSAVANT SCHOOL

Excellent Work of the Institution Shown.

SALARY FOR THE PRESIDENT

Was Referred to a Committee Who Will Report Monday—The Lutheran Synod Is Preparing to Wind Up Its Work For the Year.

The synod yesterday afternoon transacted much business and it was the most interesting session yet held. At 2:30 o'clock the session was opened with devotional exercises led by Rev. G. Weise.

A report from the Passavant hospital of Pittsburg was read. It told of the work done by that institution during the year. It was recommended to the members of the synod as being a most efficient institution.

The report of the board of trustees again caused discussion which lasted for considerable time, during which \$1,200 was given for the support of the school. This amount was asked of the apportionment committee during the morning session.

Rev. J. C. F. Rupp presented the reports of the secretaries of the various conferences in the synod. The report was an intensely interesting one, and occupied much time.

The executive committee was given authority to erect a chapel on a lot in Braddock that is owned by the synod, and to secure a pastor for the same.

The question of giving the president of the synod a salary was one that caused much talk. It was finally referred to a committee composed of several members who will make a report of the matter at a future meeting.

Several visitors were introduced to the synod. They were Rev. F. Epling, of Algoma, Wis., chaplain at large of the U. S. army, and Rev. Dr. Crite, of the Lutheran theological seminary, Chicago. Both gentlemen gave a brief talk of their work which proved very interesting.

The following churches were then received into the synod: St. Paul, Red Hill, W. Va., St. John, Parkersburg, and St. John, of Erie, Pa. The present pastor of the last named church has three brothers in the synod, all at present in this city.

The session adjourned with prayer by Rev. R. G. Rosenbaum, of Delmont, Pa.

The evening session was in the interest of foreign mission. Addresses were made by Rev. P. J. C. Glatzert in German and A. B. Markley in English.

The closing sessions of the Lutheran synod were opened with devotional exercises this morning at 10 o'clock. They were in charge of Rev. W. E. Bauer, of Saltsburg, Pa. There was a full attendance and many matters of interest were discussed during the session.

The report of the executive committee was again resumed for further consideration. The report was very lengthy and many interesting features were read. It showed that during the past conference year four churches had become self-sustaining. They were St. Paul, Uniontown, Zion, Erie, Pa., Couder Port, Pa., and Ford City, Pa.

The total appropriations for the coming year were then made. This amounted to \$7,175. German and English secretaries \$75 each, treasurer \$300, superintendent of mission \$150 and expenses. Total including the former amounted to \$9,525.

Appropriations were made for seven students entering Thiel college at Greenville, and six in the theological seminaries. After the report was discussed at length the synod adjourned.

This afternoon the order of business was as follows:

Business of congregations, report on plan of systematic beneficence, report of Jubilee committee, Ministerial Relief association, delegates to the general council.

For tomorrow the following program has been given out:

Morning, 10:30 o'clock.—German sermon by Rev. J. P. Hoh. English sermon by Rev. D. H. Geissinger, D. D.

Evening, 7:30 o'clock.—English services, sermon by Rev. W. H. Roth, D. D.

His Umbrella.

The other evening a man was rushing through the streets of London hurrying to an appointment when a swell passed in front of him who held his umbrella at a dangerous angle. The hasty pedestrian pulled the umbrella away from the swell, and then, stepping around to him, said in suavest tone: "Oh, by the way, here's your umbrella. I found it in my eye."—Pick Me Up.

Catching at the stranger's coattail he murmured in a deprecating tone "Could you give me a little assistance sir?" The stranger turned and looked him over. His eyes were bloodshot his clothes dirty his whole appearance decided the worse for wear.

"What do you want?" was the reply to the tramp.

"A job after I get a square meal," said the tramp.

"What can you do?" asked the stranger.

"I can keep books, sell goods, drive a delivery wagon, compound prescriptions, set type and do farm work."

The stranger scribbled a few words on a card, handed the tramp \$1 and said: "Take this card to this address, and I think it will get you work. Take that dollar, get a bath, a shave, a hair cut, something to eat and a drink of whisky. That will brace you to meet my friend. So long!"

"There's just one thing more," said the tramp. "How do you happen to give me just \$1 and all these directions with it?"

"Because I got \$1 from a man on this very corner about ten years ago," said the stranger, "just as you are getting it from me, and I'm passing up his advice and his money just for luck."—Chicago Chronicle.

His Worst Offense.

When it was proposed to lessen the list of crimes punished by death, Lord Eldon objected to the noose being banished in cases of petty shoplifting. "The small shopkeepers will be ruined by this exemption," said the old Tory lord chancellor.

Another Tory, a judge, so venerated the sovereign that he included in his regard any article belonging to the king, no matter how far removed from actual possession. A tailor had been condemned for the murder of a soldier, and the judge tacked on this addition to the sentence of death:

"And not only did you murder him, but you did thrust or push or pierce or project or propel the lethal weapon through the belly band of his breeches, which were his majesty's!"

LABOR DAY. MAYOR'S PROCLAMATION.

MAYOR'S OFFICE,
EAST LIVERPOOL, Sept. 1, 1898.
ACCORDING to the law of Ohio, Monday, Sept. 5, is Labor day, an important holiday for thousands of the people of this great state. It is the time set apart for the enjoyment of the great mass of humanity, a day when the workmen leave the shops and factories, and gathering their families and friends about them spend a few hours in pleasure. This day of recreation is an important factor in our public institutions, for when labor is sufficiently prosperous to take time for recreation all other men have equal cause for happiness.
I, Charles F. Bough, mayor of the city of East Liverpool, recommend that as far as possible the people as a whole observe the day; that there be a suitable demonstration, and that all business houses and residences be decorated with the national colors. Let business men and manufacturers join with the rest of the people in the celebration of this occasion, so important to us all.
CHARLES F. BOUGH,
Mayor.
